

Use the text box tool to write in their answers for the reading. *If this doesn't work students may write on a piece of paper all of their answers.

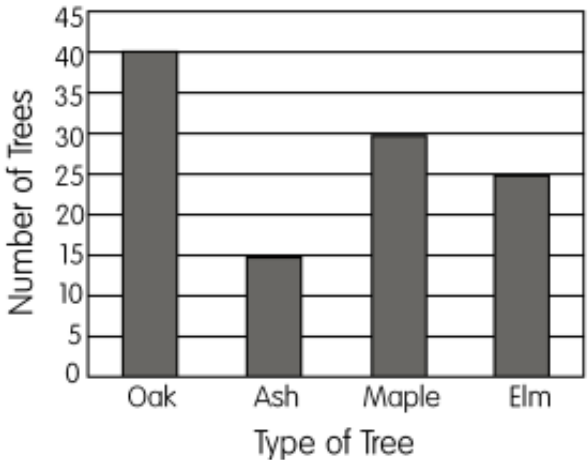

COLLECT YOUR OWN DATA

Keagan was collecting data on trees in the park for his observations on environmental traits. He recorded how many of each tree he saw. On another paper, he drew pictures of the different traits of each tree to show how they were all different.

Using Keagan's graph as an example, observe the trees around your school or neighborhood and tally the different trees that you encounter. Then, draw the trees on the back of this paper.

Trees in the Park

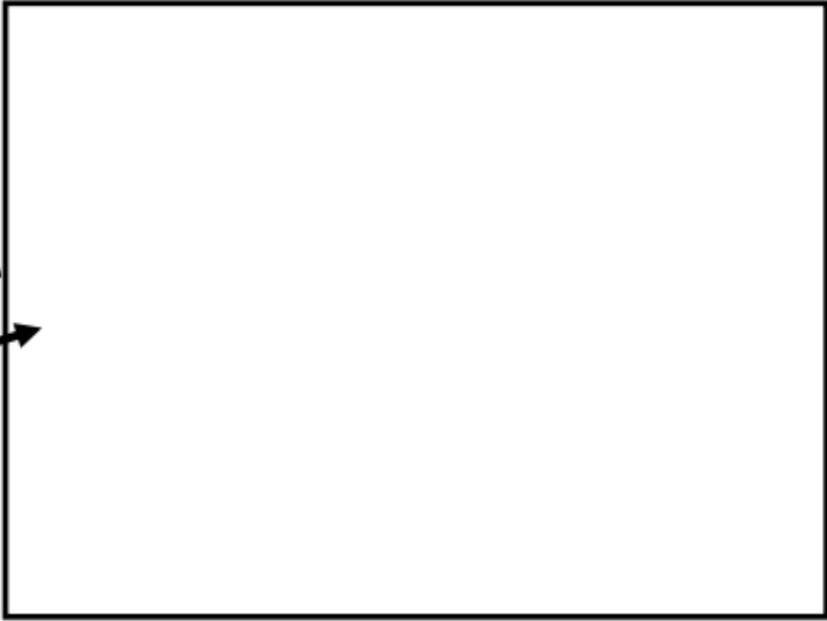

Type of Tree	Number of Trees
Oak	40
Ash	15
Maple	30
Elm	25
