D203 Profile of A Learner	Profile of a Learner guides our efforts in creating educational experiences that are relevant, engaging, and impactful and outlines the key competencies and descriptors our community has identified as essential for our students: Adaptability, Communication, Critical Thinking, Learner's Mindset, Global Citizen.
Department Mission	To enable students to communicate effectively in the target language, to understand the cultures that support the language, to see connections between language study and other disciplines, and to appreciate what it means to be college-, career-, and world-ready.
Course Description	In this language course, students will develop communication skills in the areas of listening, speaking, reading and writing in everyday situations, and the understanding of culture as defined in the Spanish I objectives. Vocabulary is learned and used in familiar contexts to increase proficiency in listening, reading, and writing. Increased usage of Spanish as the language of conversation in the classroom is an integral part of student participation. Additional resources are used to enhance the curriculum.
Course Textbook & Resources	- Canvas: Agenda slides with links to activities and resources - EntreCulturas (textbook in class only, eBook available through Modules on Canvas)
Course Standards & Weights	Presentational communication (speaking and writing) Interpersonal communication (speaking and writing) Interpretive communication (reading and listening) The standards are not weighted within Practice, Evidence, or Final Exam gradebook categories.
Proficiency Exam	As part of this course, students will take a language proficiency exam called AAPPL (ACTFL Assessment of Performance toward Proficiency in Languages). This exam will be given during the second semester and will provide valuable information on students' overall progress in Spanish. In Spanish I, students will take the listening and reading portions of Form A of the exam. Text: <i>Entreculturas</i>
Units of Study:	1st Semester <u>Unit 1:</u> ¡Hola, mucho gusto! (basics related to identity) <u>Unit 2:</u> La escuela de la vida (school) <u>Unit 3:</u> Mi familia es tu familia (family) 2nd Semester <u>Unit 4:</u> La comida es cultura (food) <u>Unit 5:</u> A pasarla bien (leisure activities) <u>Unit 6:</u> Caminando por el mundo (world topics)
Grade Calculation Definitions	Students will be provided with multiple and varied opportunities to demonstrate mastery of learning standards. Although varied in content, all courses will include examples of practice and evidence of learning: • Evidence of Learning: Tasks or assessments where feedback is provided to the student and considered evidence of a student's level of proficiency on a given standard or skill. This may

Department Chair: ldinon@naperville203.org

Office: 102

include, but is not limited to formative tasks that provide insights on areas for growth as well as summative tests, projects and/or performances. In this course, specific examples include: quizzes and performance assessments that may include reading, listening, speaking, and writing.

- **Practice:** Tasks that are connected to course standards and learning targets that promote the development of skills and/or knowledge that will be assessed, but where feedback is not provided. This may include, but is not limited to daily readings, note taking, practice exercises and tasks essential to the learning process. In this course, this is where in class and homework activities will appear. Unless stated, these activities can not be redone after the due date.

Grading Disbursement

Semester grades for all classes (prior to the final exam) will be calculated by a weighted average. As part of the calculation for the overall semester grade, final exams/projects will not exceed 15% of the semester grade.

A = 100-90%, B = 89-80%, C = 79-70%, D = 69-60%, F = 59-0%

Semester Grade:

- Coursework = 85% (Evidence of Learning = 90%, Practice= 10%)
- Final Exam = 15% *Final Exam Format:* performance assessments

Grading Practices

Grades communicate each student’s progress toward mastery of goals/standards for the course.

- Infinite Campus Symbols/Comments:
 - A score of “Missing” (M) will indicate an assessment has not been turned in and the comments section will include a specific date by which students can still submit. After that date, a zero (0) will be recorded.
 - Any score may also have a comment indicating the due date, turned in, late, reassessment eligibility including the timeline and/or reassessment final scores.
 - A zero indicates that no attempt was made by the student. If a legitimate attempt is made on an assessment and practice work has been completed in a consistent and timely manner (*completing 85% of practice listed in Infinite Campus.*), a score of 50% will be the lowest possible grade.
- Late Work:
 - Evidence of Learning work submitted after the original due date cannot be penalized more than a total of 10% and can be submitted for credit up to 5 days after the original due date.
 - Practice Work is not accepted for credit after the due date.
- Other:
 - No extra credit will be issued.

D203 AI Belief Statement

At Naperville North High School, we strive to build a learner’s mindset in all students, developing qualities such as adaptability, communication, critical thinking, and global citizenship. Generative Artificial Intelligence (AI), offers new opportunities to engage with important technology relevant to the future that also raises significant educational considerations. AI tools provide unique ways to engage students in the learning process, hence we encourage our staff to guide students in using AI responsibly. Teachers have the authority to establish guidelines for AI use in their classrooms, setting clear expectations for how AI can be used on learning tasks. Concurrently,

Academic Integrity Code

we recognize that reliance on AI risks replacing genuine student engagement and original thought, undermining the attributes we aim to cultivate. Striking a balance between leveraging AI tools effectively and maintaining educational standards is crucial to the learning experience of each student.

District 203 students are challenged to address the academic process enthusiastically, diligently, and most importantly, honestly. It is the responsibility of our students, teachers, and administration to uphold the fundamental academic values of honesty, responsibility, fairness, respect and trust. The integrity of our district’s academic programs is built upon these principles.

Academic integrity violations include cheating, plagiarism, self-plagiarism or copy infringement, obtaining or providing an unfair advantage, using a writing service and/or AI in place of original work unless specifically authorized by staff, falsification of documents, unauthorized access to records, and inappropriate collaboration, whether intentional or unintentional. The classroom teacher and administration will collaborate and exercise professional judgment in determining academic integrity violations. There are consequences both academic and non-academic for students who do not adhere to this policy. All District and school academic integrity policies apply to this course. Violations will be tracked and added during your time at NNHS.

The use of translating devices and/or direct translation from another person is strictly forbidden. You must do your own work. Remember: There is a significant difference between getting help and having something or someone else do your work for you. **Each time you are suspected of using a translator or AI, your grade will drop 10% on practice assignments. Use on evidence grades will be reported to the deans and may be redone for up to 70%.**

Technology Expectations

Cell phones: Students will be expected to store their cell phones in a phone holder or designated classroom location throughout each class period as communicated by each teacher. Cell phones should not be seen or heard in the classroom setting. Appropriate use of cell phones is allowed during passing periods, during study halls, at lunch, before and after school. Please note that cell phone use is strictly prohibited in locker rooms and restrooms at all times.

Ear buds and headphones: The use of ear buds and headphones is strictly prohibited in the classroom unless permission has been granted by the teacher. Ear buds and headphones should not be seen or heard in the classroom setting. For safety reasons, students should also be able to hear announcements, alerts, etc. at all times and, therefore, students are permitted to use one ear bud or headphone during passing periods, at lunch, before and after school.

District issued Chromebooks: Students are required to use their District issued Chromebook and will not be permitted to use personal laptops or devices in the classroom setting. Student personal devices are not protected by district systems and put student safety and the safety of our network at risk. Additionally, student personal devices are not enabled with applications and programs necessary for administration of state and AP assessments. **If your Chromebooks is not charged when it is needed in class, you receive a zero on that assignment without a time extension.**

Reassessment Policy

The purpose of reassessment is to allow students to demonstrate mastery of course standards in which they remain deficient. Higher reassessment grades will replace the original assessment score, but will not exceed 85%.

- Practice work is not eligible for reassessment.
- Evidence of Learning work may be eligible for reassessment to students working hard throughout the unit. Refer to the chart below for eligibility:

NOT eligible for reassessment

- ☐ The assessment included multiple opportunities for feedback and improvement in the process for the final product OR formative assessments are aligned to standards, allow students to practice in the same assessment format, and gain feedback for improvement before the summative assessment.
- ☐ Practice grades show the same level of proficiency as the assessment.

Eligible for reassessment if all three statements above are true.

- ☐ Summative assessment score is below 85%.
- ☐ There was timely and consistent completion of practice work and formative assessments.
- ☐ A one-time performance on an assessment does not reflect the student's level of proficiency leading up to the assessment.

- Timeline: Reassessments must be completed within 2 weeks of the student receiving feedback.
- 50% floor on assessments does not apply if practice work is incomplete.

Student Communication

- Students are encouraged to communicate with teachers regarding questions.
- Teachers make every effort to respond to emails within 24 hours during the workweek..

Additional Resources for Support

- You can make an appointment with your teacher should you need additional instruction or support in learning material.
- You can attend peer tutoring in the Lit Center during lunch periods to receive extra support or to work on assignments.
- You can drop in to work with a peer tutor during lunch periods or before school in the Literacy Center.

Parents or Guardians Partnership

Naperville North believes in a collective partnership with parents/guardians which provides students the best opportunities for success.

Teacher: Michelle Pitts

Email/Phone: mpitts@naperville203.org

Office: 102

Department Chair: Lisa Dinon

Department Chair: ldinon@naperville203.org

Some ways parents/guardians can support their student's learning are:

- Actively check Infinite Campus for their student's grades.
 - Infinite Campus is a tool to progress monitor student work until the final course grade is posted.
 - Monthly progress grades are posted and represent the current grade of a student in the course at that moment in time.
- Discuss missing assignments, reiterate due dates, help organize folders, materials, assignment notebooks, and review upcoming projects and assessments.
