

BMI Screening Exemption Form

All public schools including Wyoming Valley West school nurses collect student BMI(Body Mass Index) yearly from all students and report the results to the PA dept of Health.

Pennsylvania has now given parents the right to opt out of such screening. The process must be a signature by the parent or guardian, and the form must be returned to the nurse via email or in person.

I **Parent name** do not want **Student Name** to have their BMI calculated for the 26-27 school year. Please return this form properly filled out to your child's school nurse.

Student
Name(Print)_____Grade:_____

Parent Name
(Print):_____

Parent Signature:_____Date:_____
