Media Center eLearning Activity

Students will read a book from their home library or school library and demonstrate understanding by identifying the **characters, setting, problem, and important events** in the story on a separate sheet of paper. Return the completed activity to your homeroom teacher, and she will forward it to the media center.

Materials

- A book from your home library, or A library book
- Student response sheet (Paper)
- Pencil

2. Read – 10–15 Minutes

Students choose a book and read it independently. (Choose a book from your home or school library)

While reading, students should think about:

- Who are the characters?
- Where does the story take place?
- What happens first, next, and last?
- What is the problem in the story?
- How is the problem solved?

3. Student Response – 5–10 Minutes

Students complete the following on a separate sheet of paper.

Book Title: _____

Author: _____

Main Character: _____

Setting: _____

What is the problem?

What is one important event?

How does the story end?

Would you recommend this book? Why or why not?
