exp3: exposure, experience & exploration

Cor Jesu's exp3 is a free-of-charge, one-day innovative learning experience where students spend the day on site at a host facility discovering career options and exploring them via hands-on experiences and personal interaction with professionals.

Corporations, professional practices and nonprofit organizations in the St. Louis area, who have an interest in supporting education and see value in educating the bright young women of Cor Jesu about their area(s) of expertise, serve as the career hosts. Timing for the day varies and is determined by each host/site. Unless otherwise specified, students are responsible for their transportation to and from the host site. Students are assigned to sites on a first-come, first-served basis with deference, as appropriate, to juniors and seniors.

**To register, visit:
www.corjesu.org/exp.**

2026 ex3 Hosts

ANDERS | Accounting and Business Advisory

800 Market St., Suite 500, St. Louis, MO | *Accepting:* up to 50 students | 10:45am – 3:00pm

Ideal Personal Attributes: Curiosity for lifelong learning and personal and professional growth; Collaborative and team-oriented spirit

Anders is a St. Louis-based accounting and advisory firm that provides a wide range of financial services to privately held companies, high-net-worth individuals, and organizations across various industries. Our team is composed of CPAs, financial experts, and industry specialists who aim to help clients achieve their personal and business goals. During this day, students will step into the accounting industry, experiencing what a day in the life looks like for an accountant. They will learn the differences among the various facets of Accounting (Audit, Tax, Advisory, Industry Accounting, etc.), the CPA exam process and requirements, and the wide-ranging job opportunities within the accounting industry.

BAYER | STEM and Sustainable Agriculture

700 Chesterfield Parkway West, Chesterfield, MO | *Accepting:* 8 students | 8:45am – 1:00pm

Ideal Personal Attributes: Our researchers create sustainable and safe innovations to help farmers feed the world. This requires not only a STEM background, but also out-of-the-box thinking, the ability to collaborate with others, and a passion for making a difference.

Take a deep dive with Bayer professionals into a look at STEM and Sustainable Agriculture! The day will begin with a tour: A Look at the Past, Present and Future of Agriculture. This experience will provide a comprehensive look into how innovations in agriculture benefit humanity and our planet as a whole, guiding students through a fascinating look into the research and breakthroughs that are shaping what will nourish our growing world. Topics will include:

- Advances in Breeding: the unique crops cultivated by Bayer and the science that helps them thrive, specifically seeds and trait innovations.
- Crop Protection: how Bayer is harnessing the challenges and opportunities of farming in unique climates, specifically through crop protection innovations.
- Safety and Testing: this portion of the tour highlights the growth chambers where Bayer works to develop safe, effective and sustainable solutions for the benefit of all. The tour will be followed by conversations with category experts in the field and a hands-on activity. Note: students will be required to purchase their own lunch in the Bayer cafeteria. A fun, informative day with time for your questions about this exciting field!

BENRUS SURGICAL ASSOCIATES | Surgery

10 Hospital Drive, St. Peters, MO | *Accepting:* 6 students | 7:45am – 1:00pm

Ideal Personal Attributes: Compassionate; Hard-working; Determined

Benrus Surgical Associates is a medical practice of five surgeons and one nurse practitioner, specializing in general and colorectal surgery. Students will spend the day with a general surgeon and get to see live surgery. They will also have the opportunity to see the DaVinci Surgical robot and use the surgical simulator. The day will finish with lunch and a round table Q&A session with doctors from various specialties.

BIRDEYE MEDIA | Entrepreneurship and Small Business Operation

12627 Elnore Dr. St. Louis, MO | Accepting: 10 students | 9:25am – 11:30am

Ideal Personal Attributes: Creative; Passionate; Self-driven

If you're a self-starter with vision, creativity and business skills, take advantage of this opportunity to visit with Alexandra Adams, a Cor Jesu alumna and founder of her own successful photography and video production company. Birdeye creates content for small businesses, brands, and bloggers as well as documenting personal life milestones such as weddings, newborns, graduations and general family photography. Alex will share her own journey from CJ to small business owner, including what a day in the life of running your own show looks like, an honest look at pros and cons, time management skills and successful self-marketing. Future entrepreneurs won't want to miss this insider information from a pro!

BLUE STARS THERAPY | Early Childhood Development and Therapy (NEW)

567 North and South Road, St. Louis, MO | Accepting: 3 students | 8:15am–4:00pm

Ideal Personal Attributes: Empathy and desire to help others, especially children; Problem solver; Quick learner; Hard-working and Resilient

Blue Stars Therapy is a premier early intervention company serving children aged 0-6 and their families affected by autism and other developmental disorders in the greater St. Louis area. Our services include a wide range of support including direct services, virtual services and parental support, both in the home/community and clinic setting. During their day with us, students will get an introduction to BST, the services we provide and an overview of the field of early intervention and autism. We will tour and observe onsite 1:1 intervention clinic programming, with guidance from a therapist. Students may be paired with a therapist specializing in Occupational Therapy, Speech Therapy or behavioral services, and will observe a team meeting for treatment planning as well as the clinic's group program with slightly older clients (ages 3-6). Via interactive activity, students will be given the opportunity to experience and better understand what working directly with a young child might be like and success strategies for connecting with a client with autism through play. Plan to bring your own lunch and eat with the professional team for informal discussion, questions and networking opportunities.

BOEING | Aeronautic Manufacturing and Engineering

12301 Missouri Bottom Road, Hazelwood, MO | Accepting: 15 | 8:45am – 12:00pm

Ideal Personal Attributes: Curious, Effective problem solver, Customer service mindset

Boeing develops, manufactures and services commercial airplanes, defense products and space systems for customers in more than 150 countries. During your

time with us, students will get a deep and engaging look into Boeing's products and customers and the career areas that stem from both. Hands-on activities will provide experiential discovery and learning about the work we do, as dedicated leaders and team members answer your questions and share their stories and insights to help guide your future!

BURNS & MCDONNELL | Engineering Consulting

425 S. Woods Mill Road, Suite 300, Chesterfield, MO | Accepting: 10 | 10:00am – 1:00pm

Ideal Personal Attributes: Driven; Diligent; Collaborative

Burns & McDonnell is a full-service engineering, architecture, construction, environmental and consulting solutions firm, headquartered in Kansas City, Missouri. Our staff of 12,000 includes engineers, architects, construction professionals, planners, estimators, economists, technicians and scientists, representing many design disciplines. We plan, design, permit, construct and manage facilities all over the world, with one mission in mind: Make our clients successful. This experience will enable students to see what it's like to be part of the multi-disciplined staff within the St. Louis office. The day will include exposure to mechanical, civil, electrical and chemical engineering. Hands-on exercises that involve critical thinking and problem solving – two important aspects of being an engineer – will be woven throughout the day. Interesting and challenging projects completed by Burns & McDonnell engineers will be showcased to the students, introducing them to the skill sets that Burns & McDonnell utilize to "create amazing" for their clients. Lunch will be provided and include relaxed Q&A with young professionals, allowing students to ask anything they wish about the field and the many careers within it.

CENTRAL BANK | Careers in Banking

7707 Forsyth Blvd., Clayton, MO | Accepting: 10 students | 9:15am – 2:30pm

Ideal Personal Attributes: Detail-oriented/analytical; Critical thinker; Strong relationship builder

Central Bank is rooted in local communities at more than 140 locations across the Midwest, 18 of which are in the St. Louis region. A people-first organization that provides everyday financial services to individuals and businesses including checking/savings accounts, loans, wealth management services, and more, their mission is to make banking easy for customers and support regional economic growth through tailored financial solutions.

If you are interested in the business world, enjoy variety in your work, and like solving problems while continuously learning, this day is for you! During your visit, you'll gain insight into what it's like to build a career in banking, including how to evaluate, manage, and grow customer relationships, hear directly about the banking experience from a customer's perspective, and have the opportunity to participate in a casual Q&A session with banking professionals. This experience includes lunch and is a great chance to explore the many career paths available in banking and learn about the personal skills and experiences that contribute to success in the industry.

CHAIFETZ CENTER FOR ENTREPRENEURSHIP | Entrepreneurial pursuits (NEW)

3674 Lindell Blvd., St. Louis, MO (on the campus of St. Louis University)

Accepting: 12 | 8:45am – 2:00pm

Ideal Personal Attributes: Students who are driven, unafraid of risk, creative and great problem solvers.

Saint Louis University's Chaifetz Center for Entrepreneurship within the Richard A. Chaifetz School of Business helps entrepreneur-minded students combine their passion with business skills to produce high-performing organizations. Our mission is to deliver and develop world-class entrepreneurship education for all.

During this interactive and fun day at the CCE you will learn what entrepreneurship really means and what studying it involves. You will hear from and personally engage with successful entrepreneurs and current students and then try your hand at an ideation and development challenge to see if this exciting field may be a fit for you! Lunch will be provided.

Partners**

exp3: exposure, experience & exploration

THE CIGNA GROUP | Tech Careers in the Pharmaceutical Industry

8445 University Place Dr., St. Louis, MO | Accepting: 10 students | 8:45am – 3:00pm

Ideal Personal Attributes: Collaborative; Innovative; Open-minded

The Cigna Group is a global health company committed to improving health and vitality. We relentlessly challenge ourselves to partner and innovate solutions for better health. Our global workforce of more than 70,000 colleagues works to fulfill our mission to improve the health and vitality of the over 178 million customer relationships we serve world-wide. This day will primarily focus on technology in healthcare, so students should expect to gain insights into AI, cyber security, software engineering, and data/analytics/Cloud engineering. We will provide an overview of our internship and post-bachelor's degree track opportunities at Cigna, tour our on-site pharmacies, and challenge you with fun problem-solving and confidence-building activities, providing lunch and opportunities for networking and professional engagement throughout the day!

CIVIL DESIGN, INC (CDI) | Civil Engineering

5220 Oakland Ave., St. Louis, MO | Accepting: 12 students | 8:45am – 2:30pm

Ideal Personal Attributes: Attention to detail, excellent communication skills, knowing when to solve on your own and when to ask questions; Team-oriented

Come and visit Civil Design, Inc! CDI is a woman-owned, multi-disciplined civil engineering and land surveying firm working with clients across the Midwest. Throughout the morning, you will have the opportunity to hear from young civil engineers and land surveyors about their respective industries, check out our office space, and learn a bit about our services, some exciting projects we've done in the area, and our uniquely positive company culture. After lunch, the afternoon will be filled with engaging problem-solving activities—from a mock engineering project to fun-filled team-building exercises; you'll learn about some typical challenges our engineers face, and how your current math and science classes come into play. Lunch will be provided. We can't wait to share a glimpse of our day-to-day with you!

DJM ECOLOGICAL | Environmental Engineering

Meet at Cor Jesu campus and ride with professionals to visit sites around St. Louis
Accepting: 8 students | 8:20am – 3:00pm

Ideal Personal Attributes: Interest in applied biology, botany, ecology, geology or similar earth science discipline; Willingness to work outdoors in a variety of settings across a wide geographic range (If sweating, bug bites and general environmental discomfort aren't for you, this isn't your gig!); Interest in construction management, project management and personal/professional organization

DJM Ecological Services is a firm that specializes in ecological restoration, erosion control and stormwater infrastructure installation and operation and works on project sites across the STL Metro and Midwest to which you'd never have access unless trespassing! Our clients own green roofs, prairies, wetlands, woodlands and a variety of other natural resources integral to our economy but otherwise unseen. The sites you'll

visit are selected based on our current workload, but you'll see a variety of project types definitely worthy of a selfie or two! We'll provide lunch and questions/discussion about our work will go on throughout this fun day outdoors! Recommended for anyone interested in the great outdoors and in preserving the beauty of nature!

EDUCATION: Career Immersion Experience

Meet at Cor Jesu to carpool to various area schools | Accepting: 15 students | 7:45am – 2:00pm

Ideal Personal Attributes: Curious, Creative, Caring, Committed, Reflective

If you've ever thought about a role in the field of education or coaching or are curious about the idea, this experience will provide participants with an opportunity to learn more about careers in this rewarding field. The day will include visits to various area schools, representing a variety of educational careers and specialties. Lunch will be provided and opportunities for reflection, discussion, and questions with educators and leaders will be included throughout. Teaching professionals will chaperone and help guide students' learning during this fun and informational day.

EQUIFAX | Careers in Finance

7676 Forsyth Blvd, Clayton, MO | Accepting: 6 students | 8:00am – 2:00pm

Ideal Personal Attributes: Analytical/detail-oriented; Strong communicator; Collaborative

We are a leading global data, analytics and technology company leveraging cloud technology to drive the global economy forward. By acquiring data insights into individuals, we are able to provide clients with verification and employer background information to streamline their services. If you are considering majoring in finance or want to better understand the field, this is the day for you! During your time with us, students will engage in three main sessions, focusing on data analytics in finance. Session one will introduce students to expert women in the industry who will share both opportunities and challenges associated with the career. Next, students will learn about and explore data visualization and storytelling using actual historical data from CJ's Penny Queen. Lastly, students will apply their learnings, collaborating to identify opportunities and recommendations for the 2027 Penny Queens. Lunch will be provided, allowing time for relaxed conversation and Q&A.

CAREERS IN FORENSIC SCIENCE | Lecture and Demonstration

Held on the Cor Jesu campus Room 215 | Accepting: 30 students | 8:50am – 11:00am

Ideal Personal Attributes: Interest in Life Sciences; Honesty; Compassion; Attention to detail; Strong oral and written communication skills

During this session you will participate in interactive presentations from both an Autopsy Technician and a Forensic Death Investigator from the St. Louis City Medical Examiner's Office. These women professionals will share their backgrounds and show several case studies for review. This experience will also touch on various careers within the forensic science world including Forensic Anthropologist, Forensic Odontologist, Autopsy Technician, Crime Scene Investigator, Evidence Technician, Fingerprint Technician, DNA Analyst, Firearms and Toolmarks Examiner. Come prepared with questions for an interesting discussion and experience!

GOVERNMENT AND POLITICS: Career Immersion Experience

*Meet shuttle at Cor Jesu and visit various sites |
Accepting: 13 students | 9:15am – 2:30pm*

Ideal Personal Attributes: Interest in current and governmental news and the political process; adaptable to change; Excellent listening and communication skills; Open to diverse groups and a variety of viewpoints

This day will offer a rare insider view of careers in government and politics, from federal to local levels, as students visit various sites, including St. Louis City Hall. Leaders and staffers at each location will offer tours and explanations of how government operates on a day-to-day basis, and the various careers associated with those operations. Political staffers will discuss the campaign process and what happens after election. Interactive debate and student engagement will be woven throughout the day. We'll provide lunch at City Hall and will include a candid Q&A with a variety of professionals working in these fields and the chance for students to probe areas that piqued their interest. Whether or not a career in government or politics is in their future, this is information every student should know!

GRANT'S FARM | Veterinary/Animal Care, Education and Conservation

10501 Gravois Road, St. Louis, MO | Accepting: 10 students | 7:30am – 11:30am

Ideal Personal Attributes: Reliable; Hard-working; Good observation skills

This visit will provide a unique opportunity to learn more about what goes on behind the scenes at this popular tourist location and what animal-related careers are represented there. Students will learn about large animal care at deer park, spend time learning about medical care for smaller vs larger animals by meeting and hearing from the teams at both the goat department and the horse stables and end the morning with the animal program department who will provide information and insights about animal training. If you have considered working with animals, this is a great way to see a variety of career options.

INTERNATIONAL FOOD PRODUCTS Food Science: Distribution and Manufacturing

*150 Larkin Williams Industrial Court, Fenton, MO |
Accepting: 7 students | 10:00am – 2:00pm*

Ideal Personal Attributes: Curiosity and a willingness to explore new ideas; Passion for food, ingredients, and/or food science; Strong math and communication skills and attention to detail.

IFPC supplies the ingredients behind some of your favorite food and drinks! We develop and manufacture custom ingredient blends for products like flavored milk, eggnog, protein beverages, low/no sugar drinks, etc., and distribute them to food and beverage manufacturers and food service distributors across the country. Students will get a behind-the-scenes look at food science and ingredient manufacturing. You'll learn directly from our scientists how products like flavored milks, protein drinks, holiday eggnogs, and sugar-reduced options are developed — with plenty of hands-on activities and product tastings along the way. Lunch and time for questions are included. A fun and informative day of discovery and exploration into the exciting world of food science!

LAW: Career Immersion Experience

*Meet at Cor Jesu to board a shuttle for downtown |
Accepting: 20 students | 7:45am – 3:00pm*

Ideal Personal Attributes: Leadership skills; Problem solver; Logical thinker; Attention to detail; Excellent communication skills

This experience will focus on both law and leadership aspects of earning a law degree and associated careers. Interaction with leaders in

the law profession within the St. Louis area, observing cases at both the Circuit Court and the Court of Appeals, an overview of law school and the opportunity to both learn and network over lunch at SLU Law will all be part of this fun and informative dive into the wide world of law careers!

LOCKTON | Exciting Careers in the Insurance Industry (NEW)

Three CityPlace Drive, Suite 900, Creve Coeur, MO | Accepting: 15 students | 9:00am – 2:00pm

Ideal Personal Attributes: Collaborative and service-oriented, strong organization and problem solving skills.

Lockton operates as the world's largest privately owned, independent insurance brokerage firm. Services provided include: Risk Management & Commercial Insurance, Employee Benefits & Retirement, Specialized Industry Solutions and Strategic Consulting. Lockton has more than 140 locations worldwide with 13,100 associates and serves more than 65,000 clients in over 140 countries.

Have you ever thought of who steps in when big things go wrong? Enter the fast-moving world of insurance brokers, where every day is about solving real problems, helping people and businesses prepare for the unexpected, and making smart decisions that truly matter. Insurance brokers are part strategist, part detective, part negotiator, and part trusted advisor. We use creativity, teamwork, technology, and communication skills to help companies protect their people, manage risk, save money, and build better employee experiences.

During this hands-on session, students will get a behind-the-scenes look at how brokers analyze real-world challenges, compare options, build strategies and help clients make confident decisions. You may get to work through a business scenario, identify risks, brainstorm solutions, and see how insurance impacts everything from employee benefits to business success. If you enjoy problem-solving, working with people, thinking creatively and making a difference, the insurance industry may surprise you as a possible place to land!

LUCY WILLIS INTERIORS | Interior Design (NEW)

5933 Lindell Blvd, St. Louis, MO | Accepting: 6 students | 9:50am – 1:30pm

Ideal Personal Attributes: Confidently and boldly creative.; Strong executive function/ organization skills; Excellent communicator

Lucy Willis is a boutique interior and floral design firm focusing on luxury homes, private events, and interior styling. Students will spend the day with Lucy, touring a client project on site to review the renovation and design process, touring "to the trade" vendors around town, and enjoying lunch together. This experience is designed to provide students with a sense of what being a small business owner in this creative profession entails.

MACKEY MITCHELL ARCHITECTS | Architecture, Problem solving and Design

900 Spruce Street, Suite 500, St. Louis, MO | Accepting: 8 students | 8:45am – 3:00pm

Ideal Personal Attributes: Curious; Collaborative; Critical Thinker

MMA's mission is to Shape the Inspired. As design professionals, we believe that the strength of our practice comes from our people. We are curious, collaborative, and continually learn from each other and our clients. We strive to create inspiring buildings, including Student Housing, Learning Spaces (K-12, Higher Ed, Early Childhood), Health Sciences, and Civic & Cultural projects. During this day, students will have the opportunity to meet and learn from a variety of MMA employees, including both younger staff and principals, to gain a broad sense of the different skill sets required for roles within the firm. They will talk about some of our current projects, the academic path to becoming an architect or designer, tour the materials library and office, talk with a Project Manager, Interior Designer, and Marketing lead, and hopefully attend a completed project site visit. Lunch will be provided and include time for Q&A with professionals, followed by a design charette, through which students will have a hands-on opportunity to work on a design project.

MICROSOFT | Information Technology

4220 Duncan Ave., Suite 501, 5th floor, St. Louis, MO | Accepting: 20 students | 9:25am – 2:30pm

Ideal Personal Attributes: Curious; Problem-solver; Continuous learner; Interest in technology

Two divisions within Microsoft will participate in this day of learning: Microsoft Technology Center, solutions advisors who bring together collaborators to build creative solutions with advanced technologies and Azure Edge, collaborators who write code and solve problems using AI.

Experience various technology solutions through interactive stations. See AI in action, participate in a coding exercise, & learn how Microsoft brings to life our mission of "Empowering every person and organization on the planet to achieve more". Learn about various careers available at Microsoft (ex: manager, project manager, software engineer, security analyst, support engineer, UX design, AI engineer, and more), what the day in the life of a software engineer looks like, and a Q&A session with our professionals. Lunch will be provided during this fun, active and informational day!

MISSOURI DEPARTMENT OF TRANSPORTATION (MoDOT) | Transportation/Traffic Engineering (NEW)

15990 Woodlake Drive, Chesterfield, MO | Accepting: 15 | 7:45 – 11:00am

Ideal Personal Attributes: Interest in transportation, structural, and traffic movements, as well as in developing design plans, inspecting construction activities, and studying/modeling traffic operations.

MoDOT is responsible for building and maintaining the highway system in the state of Missouri. Students will hear what we do for the community and for transportation in the St. Louis region, explore the various engineering-related departments within MoDOT, visit the materials lab and traffic management center, and engage in hands-on activities to bring the discovery and learning to life.

MSMF Wealth Management | Financial Services

3660 S. Geyer Road, Suite 200, Sunset Hills, MO | Accepting: 3 | 9:00am – 3:00pm

Ideal Personal Attributes: Service-driven; Detail-oriented; Critical thinker; Drive to learn; Integrity focused

MSMF is a comprehensive financial services firm that provides individual wealth management services, employee benefit solutions, and insurance brokerage services. This day is designed to expose students to a cross section of the financial services that we provide to both individual and corporate clients. We will discuss various career opportunities that are associated with our work, including insurance, investment, portfolio and financial consulting and dive deeper into your area(s) of interest. This informative day will provide professional networking and is ideal for a student who is interested in a financial services career or exploring career options in the world of finance. Lunch will be provided.

NESTLE PURINA | Public Relations (NEW)

1 Checkerboard Square, St. Louis, MO | Accepting: 10 students | 8:45am – 2:00pm

Ideal Personal Attributes: Consumer of news and content; Excellent communication skills; Creativity; Effective Multi-tasker; Enjoy problem-solving, Be curious, tenacious, and collaborative

This day will include an explanation and discussion of what the various teams within Purina Corporate Affairs do (brand PR, influencer management, corporate communications, reputation management, community affairs, internal communications, crisis and issues, government affairs, etc.), a tour of campus, lunch, and fun interactive activities to bring the learning to life!

NISA Investment Advisors, LLC | Institutional Financial Investing

7676 Forsyth Blvd, Suite 1100, Clayton, MO | Accepting: 10 students | 9:30am – 1:00pm

Ideal Personal Attributes: Enjoy working in a collaborative environment; Have strong math skills; Enjoy learning and problem solving

NISA Investment Advisors, LLC (NISA) partners with world-leading organizations to develop and manage highly customized, risk-controlled investment strategies across fixed income, equities, and derivatives. With \$482 billion assets under management, NISA actively manages risk for investors, providing clarity to complicated challenges and stability in ever-evolving markets. At NISA we foster a collaborative culture that supports both personal and professional growth, providing opportunities to learn from experienced professionals while contributing meaningful work from the outset. During your visit with NISA, you won't just learn about finance, you will experience it! Dive into the fast-paced world of financial markets, investments, and fixed income trading as you spend the day immersed in the inner workings of an investment firm. You will have the opportunity to connect with inspiring women who work in Portfolio Management, Client Services, Investment Strategies, and Operations. You'll learn about their career journeys and the many paths that can lead to a rewarding career in finance. Whether you're a numbers whiz, a creative problem-solver, or simply curious about how the financial world works, there is a place for you in finance, and we can't wait to show you what it looks like! Lunch will be provided.

exp3: exposure, experience & exploration

OBP | Marketing Communications, Marketing, Advertising

4625 Lindell Blvd Suite 330, St. Louis, MO | Accepting: 10 students | 9:45am – 3:00pm

Ideal Personal Attributes: Desire to be challenged; Attention to detail; Interest in marketing and advertising; Interest in agriculture; Ability to build relationships; Enjoys having fun!

Osborn, Barr, Paramore is an independent, women-owned full-service marketing communications agency based in St. Louis with employees nationwide. For more than 30 years, we have served brands across a range of industries, including agriculture, food and tourism. Notable client partners include Bayer Crop Science, the United Soybean Board, Morton Buildings and the Missouri Division of Tourism. Students will spend their day engaging with women at OBP who are leaders in the marketing and advertising industry. By working on a project which utilizes the creative ideas and strategic thinking that are essential to our success, students will get a taste for what this exciting career and an agency environment are like. Lunch will be provided and there will be opportunities throughout the day to ask questions about our work and about associated careers, all in a fun, creative and informal setting.

PFIZER | Pharmaceutical Engineering

875 Chesterfield Parkway West, Chesterfield, MO | Accepting: 15 students | 9:00am – 3:00pm

Ideal Personal Attributes: Collaborator; Problem solver; Passionate about bringing new medicine solutions to patients

At Pfizer, we're in relentless pursuit of breakthroughs and revolutionary medicines that change patients' lives. We innovate every day to

make the world a healthier place. Your day with us will include hands-on activities that explore the use of bioreactors, separation techniques, the journey of a new medicine from formulation to market and much more. Lunch will be provided and you will have the opportunity to speak with scientists and engineers working on a multitude of new medicines during this informative and exciting day!

RANKEN JORDAN PEDIATRIC BRIDGE HOSPITAL | Pediatric Physical, Occupational and Speech Therapy

11365 Dorsett Road, Maryland Heights, MO | Accepting: 6 | 8:45am – 12:00pm

Ideal Personal Attributes: Compassion, good communication skills; Hands-on learner; Passion for working with children with a wide range of medical needs and disabilities; Playfulness.

Ranken Jordan Pediatric Bridge Hospital is a pediatric rehab hospital providing inpatient and outpatient therapy services (occupational, speech, physical) to children with complex medical needs ages 0-21 years. The day will focus on outpatient therapy in a pediatric setting. The students will receive a tour of the hospital with an overview of the inpatient services we provide. We will structure the day to cover the three disciplines of pediatric therapy; the academic path to becoming a therapist, and information on different diagnoses seen in a pediatric setting. Students will have the opportunity to trial different types of equipment used for therapy and to observe an outpatient therapy session within one of the disciplines.

RAWLINGS | Sports Marketing

111 Westport Plaza Drive, Suite 1100, Maryland Heights, MO | Accepting: 15 students | 8:45am -- 12:00pm

Ideal Personal Attributes: Strong communication skills; Adaptability; Problem solving

Established in 1887, Rawlings is an innovative leading global brand and manufacturer of premium baseball and softball equipment,

including gloves, balls, and protective headwear. Rawlings' unparalleled quality, innovative engineering and expert craftsmanship are the fundamental reasons why more professional athletes, national governing bodies, and sports leagues choose Rawlings.

Rawlings is the official glove, baseball, helmet and faceguard, and base of the MLB, the official baseball of Minor League Baseball, the official baseball and softball of the NCAA and NAIA, and the official softball of the NJCAA.

Beginning with a round table discussion with women in the company, we'll overview product development, social media, analytics, and brand/sports marketing and then deep dive into key principles of brand and sports marketing, including partnerships, product placement, digital and physical signage design and plans, event planning, press releases, and product launches.

After getting background on the consumers/market and industry, students will hear about our new Halo softball bat which will be coming out next year. After exploring the history and evolution of the project, students will take a marketing seat and try their hand at promoting the new bat and effectively engaging the best audiences. We'll conclude the day with a visit to the Rawlings Experience store, sharing the history of its concept and development, sampling some merchandise, and letting students get a taste of this fun venue!

SAINT LOUIS UNIVERSITY DEPARTMENT OF AVIATION SCIENCE | Careers in Aviation

Center for Aviation Studies 4300 Vector Dr, Cahokia, IL and McDonnell Douglas Hall, 3450 Lindell Blvd, St. Louis, MO | Accepting: 8 | 9:15am -- 2:30pm

Ideal Personal Attributes: Ability to stay calm under pressure, Attention to detail, Strong leadership and decision-making abilities

The mission of the Oliver L. Parks Department of Aviation Science is to actively engage in the fulfillment of Saint Louis University's mission, forming students as global citizens who are intellectually, technically and ethically prepared to be responsible leaders in the aviation profession and their community. During this exciting day of learning, students will start the day at SLU's airport in Cahokia, IL where, after briefings on pre-flight and flight information, will use the on-site flight simulator to virtually fly a plane. From there, the group will head to McDonnell Douglas Hall on SLU's main campus for lunch with Women in Aviation students followed by program information, a facilities tour and Q&A. If you're interested in aviation, you won't want to miss this fun and informational day!

SAINT LOUIS UNIVERSITY SCHOOL OF NURSING | Nursing

3525 Caroline St., St. Louis, MO
Accepting: 15 students | 1:30pm – 4:00pm

Ideal Personal Attributes: Compassion; Organizational skills; A heart for taking care of others

The Trudy Busch Valentine School of Nursing educates students through an innovative

approach to nursing education, diving deeper to discover the strength, spirit and compassion required to serve patients with unparalleled care. This day's activities will include several hands-on activities including CPR, injections, transfers, assessments and medical administration. Students will have the opportunity to meet some of our current nursing students and hear why they came to SLU, and also meet nursing faculty who will share why they chose their various specialties. This experience is designed to provide valuable insights into careers in nursing and the necessary steps to lead you there!

SAINT LOUIS UNIVERSITY SCHOOL OF SCIENCE AND ENGINEERING | Biomedical Engineering

McDonnell Douglas Hall, 3450 Lindell Blvd., St. Louis, MO | Accepting: 12 students
9:30am -- 2:00pm

Ideal Personal Attributes: Curiosity and creativity; Analytical skills; Teamwork

Founded in 1818, Saint Louis University is one of the nation's oldest and most prestigious Catholic universities. SLU is recognized for world-class academics, life-changing research, compassionate health care, and a strong commitment to faith and service. During your day with SLU's School of Science and Engineering, you'll enjoy an in-depth exploration into the field of biomedical engineering. You'll participate in interactive activities to gain hands-on experience with concepts related to tissue engineering and medical robotics through laboratory tours and demonstrations. Lunch will be provided and you'll meet and engage with current biomed engineering students and faculty to discuss college and career paths in this exciting and innovative facet of engineering.

SHANNA BRITTA | Fashion Design (NEW)

533 Purdue Avenue, St. Louis, MO | Accepting: 4 students | 9:00am -- 2:00pm

Ideal Personal Attributes: A good eye for fashion and proportions on a woman's body; A good understanding of business basics and financials; A passion and drive to be creative and great perseverance.

Shanna Britta is a luxury women's wear line focused on sustainability and positive body image. I use each woman's body measurements to create a polished fit and ensure she feels confident and beautiful in every piece of my clothing. Students will design a small collection and learn the basics of design and sketching. They will determine their target market and how they will market their designs. They will learn about costs, projections and manufacturing as we explore and discuss this exciting, fast-paced industry! Lunch will be provided.

SPIRE | Human Resources and Talent Development (NEW)

700 Market Street, St. Louis, MO | Accepting: 12 students | 8:55am -- 3:00pm

Ideal Personal Attributes: Strong relationship building and a curiosity about people: Genuinely wanting to understand how people think, learn, and grow.

Spire is the fifth largest publicly traded natural gas company in the nation and serves more than 1.7 million homes and businesses across Alabama, Mississippi, Tennessee and Missouri. We focus on the purchase, retail distribution, and sale of natural gas to residential, commercial, and industrial customers. We also engage in renewable natural gas initiatives and aim for carbon-neutral operations by 2050.

Not every business career is about numbers. Some are about helping people grow, develop their talents, and build meaningful careers. Spend the day stepping into the world of Talent Development and discover how companies help their employees learn, grow, succeed, and build meaningful careers. This interactive experience will give you a behind-the-scenes look at the people side of business and how human strategy shapes a business.

You'll start by taking a DiSC personality assessment, a tool used by many organizations to learn about your own communication style, strengths, and how you work best with others. Then, you'll participate in a hands-on workshop where you'll apply what you learned about yourself and see how these insights are used in real workplaces. Throughout the day, you'll get a glimpse into how Spire invests in their people. You'll explore how we:

- Develop future leaders through our learning and development programs
- Strengthen our bench through succession planning
- Listen to employee feedback through engagement surveys and turn those insights into action
- Support employee growth from day one through onboarding

To wrap up the experience, you'll go beyond the office and take a guided tour of our facilities, a truly unique behind-the-scenes look at the energy industry. Lunch will be provided.

SSM CARDINAL GLENNON CHILDREN'S HOSPITAL | Pediatric Medicine: Juniors and Seniors Only

1465 S. Grand Blvd, St. Louis, MO | Accepting: 25 students | 7:45am-- 12:00pm

Ideal Personal Attributes: Grit/Resilience--emotionally, mentally, physically; Teamwork/Leadership--this is a team sport involving every level of caregiver in which leadership skills are essential; Curiosity/Love for learning--medicine is ever-evolving and it is essential to ask questions, seek information and be curious in order to provide the best care.

SSM Health Cardinal Glennon is a non-profit inpatient and outpatient pediatric medical center located in St. Louis city. Since its founding in 1956, Cardinal Glennon has provided care for children regardless of ability to pay. Cardinal Glennon primarily serves children from eastern MO and southern IL but also treats children from across the nation and countries around the world, also serving as a teaching hospital, affiliated with the neighboring Saint Louis University Schools of Medicine and Nursing, and nine other education institutes. Step into the world of pediatric medicine! Join an inspiring team of women pediatric professionals for a dynamic morning filled with real-world experiences! Learn what it takes to become a doctor--from applying to and paying for med school to what life looks like as a female physician. Roll up your sleeves and try out exciting medical skills at our sim lab, including work with CPR, bag-mask ventilation/tubing, suturing, spinal taps, IVs and med prep. This is your chance to connect with some of the most experienced and respected women in healthcare. Ask questions, explore your future and get inspired!

exp3: exposure, experience & exploration

SSM HEALTH PHYSICAL THERAPY | Physical Therapy and Occupational Therapy

14015 Manchester Road, Ballwin, MO
Accepting: 20 students | 7:55am – 12:00pm

*Ideal Personal Attributes: Empathetic;
Inquisitive; Goal-oriented*

SSM Health Physical Therapy is a large health care provider in St. Louis offering inpatient

as well as outpatient rehabilitation services. We are excited to show students how rewarding a career in Allied Health can be! During their visit, students will spend time with professional staff experiencing all aspects of the Allied Health umbrella including occupational therapy, physical therapy and speech pathology. There will be activities to provide experiential learning, but no direct patient contact. Lunch will be provided and Q&A will happen throughout—a great way to explore if a career in Allied Health is a good fit for your future!

WILDWOOD INTEGRATIVE HEALTHCARE | Helping Patients Heal Naturally

16111 Manchester Road, Suite 202, Ellisville,
MO | Accepting: 8 students | 8:30am – 1:00pm

*Ideal Personal Attributes: Compassionate,
Detail-oriented, Open-minded*

Wildwood Integrative Healthcare is a nurse practitioner-owned clinic that specializes

in helping patients regain and/or maintain their health through gentle therapies including IV nutrition, hormone balancing and lifestyle interventions. Nurses at WIH also provide care for cancer patients who wish to augment standard care therapies with more natural options, maximizing their body's innate ability to heal. During your day at WIH students will get an overview of the clinic's work, touring the patient care rooms, the hyperbaric chamber and IV stations. Hands-on experiences will include lab formulations of ozone and high dose Vitamin C and IV bag prep, with explanations on innovative healthcare techniques, Q&A and healthy living guidelines throughout the visit. Lunch will be provided.
