

ASVAB

ARMED SERVICES VOCATIONAL
APTITUDE BATTERY

10.29.26

Deadline to Register: 10.16.26

What is the ASVAB?

The ASVAB (Armed Services Vocational Aptitude Battery) is a standardized, multiple-aptitude test developed by the U.S. Department of Defense. It measures skills in areas such as math, reading, science, and technical abilities.

The ASVAB can help you discover your strengths, explore career options, and plan your next steps after high school. It is especially useful for students considering a career in the military, but you do not have to join the military to take the ASVAB.

Who should take the ASVAB?

Thinking about joining the military after high school?

The ASVAB is the military entrance exam and can help your recruiter match you with the right career field.

Not planning on the military?

You can still take the ASVAB! It measures your strengths and aptitudes and can give you valuable insight into college and career options as you plan your next step after high school.

Current 10th-12th graders can register to take the ASVAB

Test Day Details

When: October 29, 2026
