Subject: Important AES Car Rider Drop-Off & Pick-Up Changes – Beginning September 8

Dear AES Families,

Beginning Tuesday, September 8, following the Labor Day weekend, Austintown Elementary School will make several changes to our car rider drop-off and pick-up procedures.

These adjustments are being made to improve student safety, building security, and traffic flow around AES and AIS. One of the most significant changes is the use of the shared parking lot between AIS and AES for some of our Grade 2 families.

Beginning September 8, our car rider zones will be:

- **Zone A – Door 7: Grade 1 – Idaho Road parking lot**
- **Zone B – Main Door: Falcon Fives – no change**
- **Zone C – Door 20: Kindergarten – no change**
- **Zone D – Doors 19 & 16: Austintown Local Preschool and bus students – no change**
- **Zone E – Door 8: NEW Grade 2 drop-off/pick-up location in the shared AIS/AES parking lot**

For families with children in multiple grade levels, please follow these procedures:

- If you have a Kindergarten student, all siblings should be dropped off and picked up in Zone C.
- If you have First and Second Grade siblings, all siblings should be dropped off and picked up in Zone A.

Nothing will change for Kindergarten, Falcon Fives, Austintown Local Preschool, or our bus students.

Please carefully review the map below and information before Tuesday morning. The map identifies each drop-off and pick-up zone and will help families become familiar with the new traffic pattern.

We understand that changes to arrival and dismissal procedures can take a few days to become familiar. We appreciate your patience, cooperation, and attention to staff directions as everyone adjusts to the new procedures.

Our goal is to reduce congestion and create a safer and more efficient arrival and dismissal process for all AES students and families.

Thank you for your continued partnership and support.
