Morning Drop-off and Capital Project Work

Dear Haldane Community,

It's been so nice to have everyone back on campus this week. We're off to a great start! Please note the following:

Morning Drop-off

During arrival and dismissal, all cars carrying students must enter the back of campus via Cedar Street and continue to the playground drop-off area. Families may not enter campus via Route 9D during arrival and dismissal.

Please also note that all numbered parking spaces and **all Bell Lot spaces** are assigned to faculty and staff. Visitor spots are available on upper Craigside Drive along the playground. Please do not park in a numbered spot.

Thank you for helping us maintain safe traffic flow on campus.

Upcoming Drilling & Temporary Classroom Relocations

Work on our Capital Project continues to make steady progress. As we enter the next phase of construction, crews will be drilling five piers on **Tuesday, September 8th and Wednesday, September 9th.** This work is expected to take a few days to complete.

To ensure a smooth transition, please keep the following operational adjustments in mind:

- **Noise & Vibration:** Expect higher-than-usual noise levels and noticeable vibrations near the work zone throughout the day.
- **Classroom Relocations:** Four high school classrooms will temporarily move to the main building to minimize disruption to learning.

We appreciate your ongoing patience, flexibility, and cooperation as we complete these necessary facility upgrades safely and efficiently. We will continue to share updates as construction moves forward.

Sincerely,
Gail Duffy, EdD
Superintendent of Schools
