

A SEASON OF PARTNERSHIP

Quality. Value. Service.

Growing together to meet the changing needs of New Jersey's schools.

Stronger Together, Greater Value

As school districts face increasing financial and operational pressures, MOESC remains focused on a straightforward goal: deliver high-quality services while helping members manage costs and reduce administrative burdens.

Our strength comes from the breadth of our programs and the people and partnerships behind them. By sharing resources, coordinating services, and expanding successful programs, we help districts respond to needs that can be difficult to manage independently.

SHARED SERVICES

Working together. Making more possible.

Regional coordination helps districts stretch resources and simplify operations.

Purchasing Power That Works for Members

As participation and purchasing volume grow, the MOESC Cooperative Purchasing Program connects over 325 public entities with competitively procured products and services. The Co-op also reduces the time and administrative work associated with individual procurement processes.

MOESC is actively addressing the purchasing requirements established under S-3041 (P.L. 2025, c. 180), while following the development of related New Jersey Department of Community Affairs regulations.

As requirements evolve, MOESC will work to communicate changes to members and vendors and adapt operations while preserving the efficiencies and savings that make cooperative purchasing valuable.

Smarter Routes, Shared Savings

As a Coordinated Transportation Services Agency, MOESC combines and aligns transportation routes whenever possible. Coordinating students from multiple districts and schools on common routes helps reduce costs, improve efficiency, and lessen administrative responsibilities for members. Our shared special education routes save districts \$13 million annually! To further illustrate this savings, a district utilizing MOESC's cooperative routing saved an average of \$1,281 per student in 2025-26 compared to the previous year.

With transportation costs and driver availability creating ongoing challenges, regional coordination remains an important resource for districts.

The shared-service advantage

Coordinated purchasing • More efficient routes • Reduced administrative work

ACCESS & CONTINUITY

Responding to change. Keeping students first.

A Steady Partner for Nonpublic Schools

Changes to Chapter 192/193 services resulting from A4854 have created new funding and payment challenges. MOESC is carefully managing expenditures and reimbursements while continuing services for eligible nonpublic school students.

Working with partner public districts and nearly 75 nonpublic schools, MOESC has maintained existing programs and expanded to additional schools as other organizations have reduced or ended these services.

Full-time and part-time professionals, strong partnerships, and regional capacity help keep the focus on the students and schools relying on this support.

NJVS Expands Flexible Learning Options

The New Jersey Virtual School is evolving to meet changing district and student needs, with a focus on high-quality virtual education at a competitive cost.

Building on traditional asynchronous courses, NJVS is expanding synchronous virtual courses, tutoring, and home instruction. The expanded model is intended to give districts more options for complete courses, live teaching, individualized support, and qualified home instructors.

Bringing these services together within NJVS can provide a dependable resource and reduce the need for districts to manage multiple outside providers.

PEOPLE & SUPPORT

The right expertise. Responsive service.

Helping districts meet student needs while managing staffing and benefit costs.

APPS: A Staffing Partner for Districts

Rising healthcare and employee benefit costs make it essential to review how programs operate. Through the APPS paraprofessional program, districts can access qualified staff while realizing savings compared with many alternative staffing models.

APPS can also reduce recruitment, hiring, and administrative responsibilities. For 2026–2027, several new districts have partnered with MOESC, and conversations continue with others about staffing models, current costs, and possible support.

Let's look at your district's needs

Every district is different. MOESC welcomes conversations about paraprofessional staffing and any other opportunity to create operational or budgetary savings while preserving student support.

Special Services: Expertise Within Reach

MOESC provides occupational therapy, physical therapy, speech-language services, BCBA services, and other specialized professionals. Dedicated staff focus on understanding and filling district needs.

With a fill rate approaching 100 percent, MOESC continues to review pricing for competitiveness. Recently reduced rates for certain long-term placements offer additional support for districts managing costs while meeting students' IEP needs. To find out more, visit moesc.org/support-services or contact Dr. Gabriella Hall, Director of Special Services, at ghall@moesc.org.

Dedicated attention to matching specialized professionals with district needs.

STUDENT OPPORTUNITIES

More pathways to possibility.

RAA: Programs That Adapt to Students

The Regional Achievement Academy (RAA), MOESC's public out-of-district placement program, provides supportive, student-centered alternative education for students in grades 4-12 who benefit from an individualized approach to learning. We serve both classified and non-classified students whose academic, behavioral, social, emotional, or mental health needs are best supported in a specialized educational setting.

Regional Achievement Academy continues to expand programming to serve our partner district's needs. This year, we are offering Multi-Language Learner instruction and a literacy intervention program.

RAA works with districts to address a variety of student needs. Contact us today!

Mrs. Annemarie Hanley, Director
ahanley@moesc.org

The Shore Center, MOESC's partner school, serves students with autism and other complex needs through a specialized PreK–12+ program.

Significant enrollment growth reflects continued program enhancements and staff dedication to individualized educational, therapeutic, and life-skills opportunities.

This school year, our goal continues to be the implementation of our ACE (ABA) software program, expanding our Community-Based Instruction Program (CBI), and prioritizing the Person-Centered Approach to Secondary Transition (PCAST)

Did You Know?

BRIDGES, The Shore Center's Transition Hub, located just down the street, is dedicated to our 18-21-year-old students. This space allows our adult students to transition from a traditional school building to a community-focused, independent-living environment. Our program was developed in collaboration with the Rutgers Boggs Center.

Make It Matter

A Message From Our Superintendent

MOESC Administrative Team

Dr. William O. George III

Superintendent
wgeorge@moesc.org

Mr. Christopher Mullins

Business Administrator
cmullins@moesc.org

Dr. Wendy Gray Morales

Assistant Superintendent
wmorales@moesc.org

Colleagues,

Welcome back. I hope you had time this summer to rest, recharge, and enjoy time with the people and things that matter most to you.

As we begin a new school year, I want to share a simple theme: Make It Matter. Every day, each of us has opportunities to make something matter for a student, a colleague, or a family. It may be a conversation that helps someone feel seen. It may be patience during a difficult moment. It may be a creative lesson, a kind word, a problem solved, or simply showing up with care and consistency. With this mindset, we can continue to build the collective culture of commitment to the students, families, schools, and districts we serve that our stakeholders have come to value and respect.

Our work is important because the small things are often the things students remember most. They remember the adults who believed in them, listened to them, challenged them, and made them feel that they belonged.

This year, let us make our work matter by continuing to support one another, communicate openly, solve problems together, and keep students at the center of every decision we make. We will have busy days and challenging moments, but we will also have countless opportunities to make a meaningful difference.

Thank you for the commitment, talent, and care you bring to our school community. I am grateful to begin another year with all of you.

Sincerely,
Bill

MOESC's Mission

Monmouth-Ocean Educational Services Commission (MOESC) is a public educational agency, established under New Jersey Statute Title 18A, providing programs and services to school districts and collaborating with other Commissions throughout the state of New Jersey.

Founded in 1979, MOESC offers affordable and high-quality programs and services geared to local school districts' individual educational and administrative needs. We are governed by a board of directors elected by a representative assembly of one representative from each of our member districts.

Our goal is to provide support services, programming, and staffing to public and non-public schools so they can support their students and communities. We assist public and non-public schools in numerous areas, including cooperative purchase programs, cooperative transportation, grant compliance and management, staff development, alternative school placement (Regional Achievement Academy), child study team services (CST), NJ Virtual School (NJVS), paraprofessional staff for public schools (APPS program), McKinney-Vento Homeless Services, home instruction, nursing services, and more.

Our staff is fully certified by the State of New Jersey and meets federal and state highly qualified requirements.
