

Apex Athletics Center and Apollo High School Project Updates

St. Cloud Area School District 742
Prepare. Engage. Educate. Empower. Inspire.

Project Updates

- Work on Apex Athletics Center began in June
- Last week the footings for the project were completed
- This week the steel structure of the building has been started

Steel Structure at Apex

Ambulance Bay and Classroom

Shed Relocation for Storm Shelter

Collaboration Spaces

- In the 400 and 600 areas of the building there are lecture halls
- These areas are being remodeled to be more functional for day to day classroom use
- Work on this area began last week and has temporary walls around the construction area so it cannot be accessed

Weight Room

- The current weight room will be in the same space, but adding square footage from the lounge area next to it
- Work on this area began last week and has temporary walls around the construction area so it cannot be accessed

Building Stain (Next Summer)
