We Want to Hear from YOU!

Pasadena Unified School District's Facilities Team invites parents, families, educators, staff, neighbors, and community organizations to **Community Meeting #1: Conditions for Success Workshop** at San Rafael Elementary School. This conversation builds on the feedback and ideas shared during the Listening Session we hosted in May and through the Listening Survey, which was open through July. Come help shape real solutions for the modernization of San Rafael Elementary School. Join us to review what we learned, ask questions, and share your ideas!

WHAT TO EXPECT:

- ✓ Reflection on what we heard during the May Listening Session and through the Listening Survey
- ✓ Discussion of planning and design ideas for a safe, welcoming campus, including arrival and access, learning and support spaces, a school library, outdoor play and learning, community gathering, and school identity
- ✓ Interactive activities to identify what matters most for the modernization of San Rafael Elementary School
- ✓ Opportunities to explore and respond to possible facility and campus improvements
- ✓ Opportunities to meet and engage with Pasadena Unified Facilities Team

Let's shape a campus that supports learning, safety, belonging, and the San Rafael community.
