BRUIN

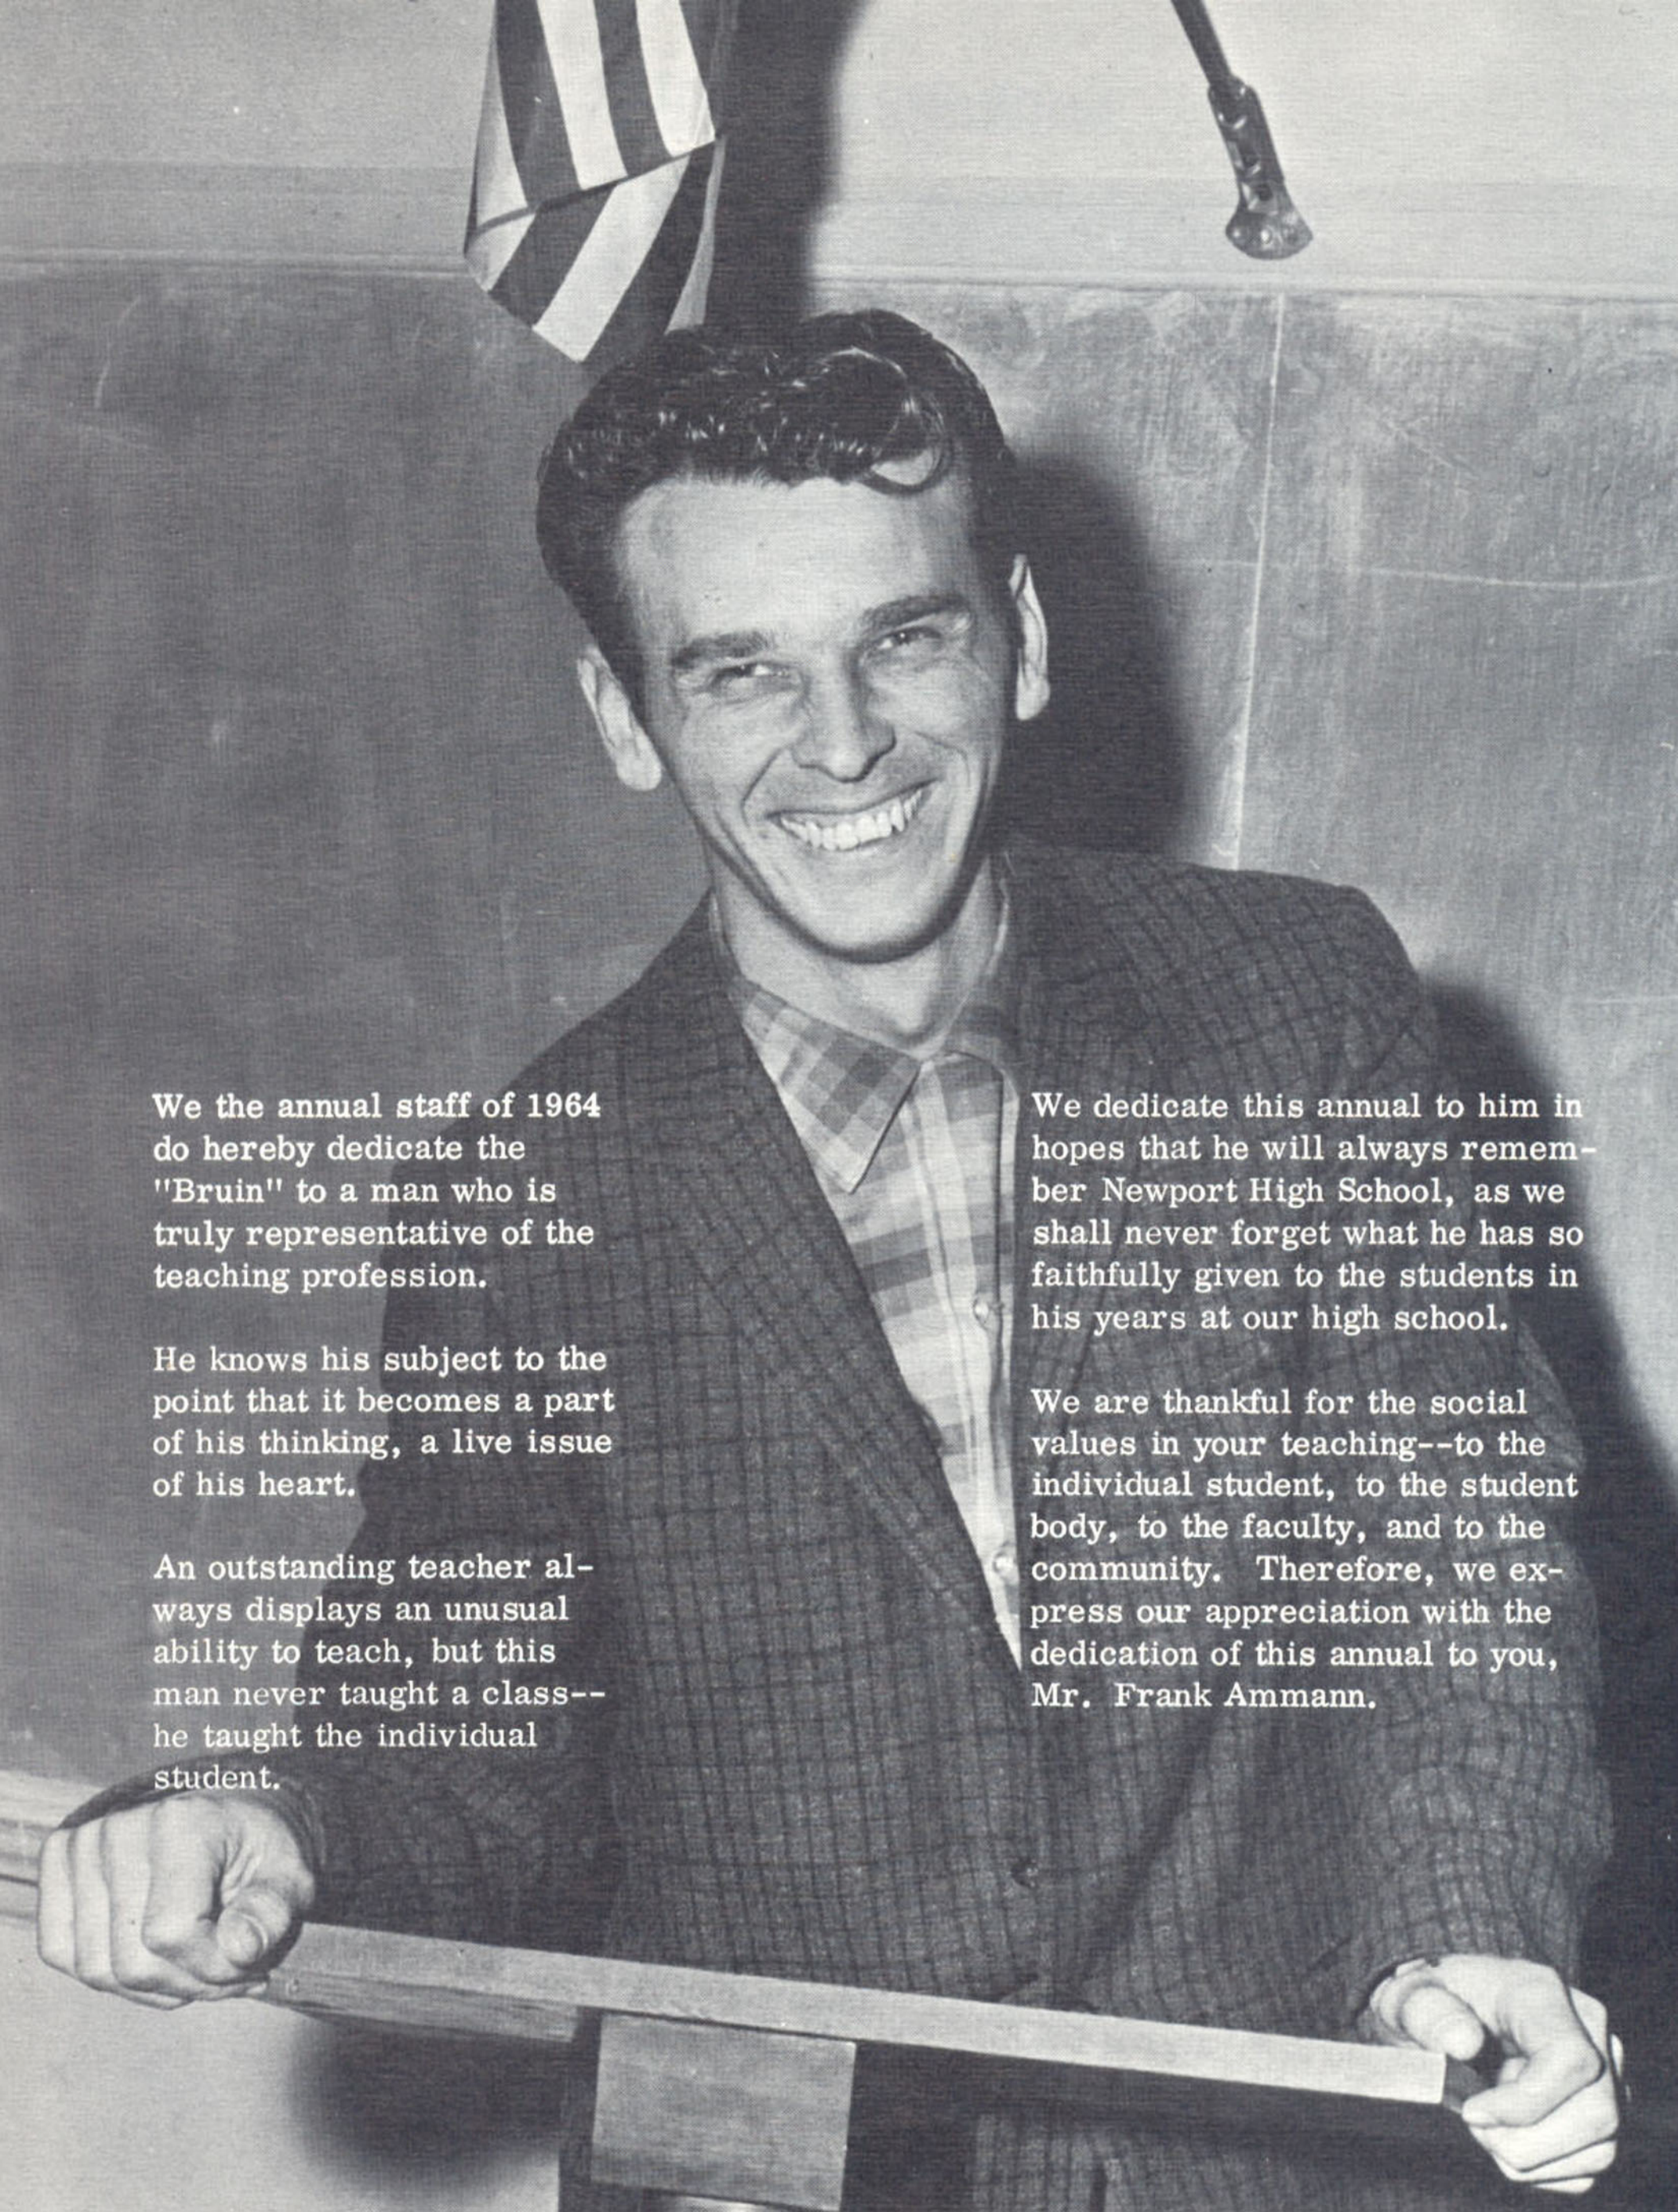

the BRAIN

DVISOR . . . MR. ROBERGE

EDITOR . . . STEWART DAVIS

Dedication

We the annual staff of 1964 do hereby dedicate the "Bruin" to a man who is truly representative of the teaching profession.

He knows his subject to the point that it becomes a part of his thinking, a live issue of his heart.

An outstanding teacher always displays an unusual ability to teach, but this man never taught a class--he taught the individual student.

We dedicate this annual to him in hopes that he will always remember Newport High School, as we shall never forget what he has so faithfully given to the students in his years at our high school.

We are thankful for the social values in your teaching--to the individual student, to the student body, to the faculty, and to the community. Therefore, we express our appreciation with the dedication of this annual to you, Mr. Frank Ammann.

Superintendent

It's hail and farewell! You have achieved a mile stone on your journey through life. These years have been fruitful and happy. You will look back on them as some of your fondest memories.

Congratulations to you on your splendid success with your annual. Your editor and staff have done excellent work, an accomplishment brought about by co-operation. A wonderful life's lesson is given here. Pull together and wonders will be done.

My personal wishes for happiness and success to each of you. Please regard me and all of your instructors as your friends--friends in the true sense of the word, ready to be of help should you need us.

Good luck,
George H. Anderson
Superintendent

Principal

The present and the future present many difficulties for us as individuals. To be the types of men and women we want to be; to achieve the kinds of things we want to accomplish are, indeed, monumental tasks for our undertaking.

We have entered a new age, an age of satellites circling the globe; an age of monstrous missiles, poised to destroy life and limb at the flip of a switch; an age of awesome responsibility and terrible challenge. We must be prepared to meet and to resolve problems never before conceived by man.

Will future generations look backward to ours and marvel at the imprint we have left behind? No longer can we look to our difficulties and offer them as excuses. Rather, we must meet these problems, and resolve them with dispatch. Are we willing to accept this challenge of responsibility?

Our most sincere best wishes to each of you on your past achievements, and our hope for greater accomplishments for all of you in the years that lie ahead.

I participated and found myself having the time of my life running for offices, campaigning for offices, making speeches etc. I ran for State Auditor and won the privilege of being in the center of the activities.
