Dedication

Superintendent

As the school year is about to end, we look back on the steady course that our education has taken.

Those in charge of this course, as partners in patience to see us through, have shown determination and courage.

Dedication

Principal

For that courage and determination to respect learning and to seek knowledge with confidence--a confidence that has developed and grown in each of us. And because of this, in our humility toward two who have guided us in our course in meeting our goals for 1965--we dedicate this annual to Mr. Anderson and to Mr. Brown.

Messages

Principal

Every young person needs a goal in life; each of us has need of a "mountain to climb." There would seem to be a growing tendency to subscribe to the philosophy of fatalism--whatever will be ; everything will turn out all right; have a good time, enjoy yourself or in the words of the vernacular, "have a ball." Yet, this philosophy destroys the dignity, the worth, the value, and the initiative of every individual who succumbs to it. Whatever will be in your life will be there because you put it there. That which you hope to become tomorrow, you are becoming today. The greatest endeavor of today is the search for individual excellence. We cannot, we must not settle for anything less. Set your goal, seek "your mountain to climb," and then strive everlastingly to attain it. Sincere congratulations on your past accomplishments and best wishes for all your endeavors in the future.

Raymond J. Brown.

Superintendent

Once again congratulations are to be extended to the Annual Staff, for the excellent job on the 1965 Year Book. Your work here, that calls for considerable effort beyond the normal academic demands placed on you, is to be highly commended. The giving of that second effort can often spell the difference between success and failure. This is a good thought to remember for the rest of your lives.

All in all, this year has been a good year and may it hold many cherished memories for all of you.

George Anderson
