"We Are Family"
The Bruin 2003-2004

Cassie Turbin - Co Editor
Krystal White - Chief Editor

The theme for our yearbook is "We Are Family." 'We Are Family' has many meanings. One of its meanings is strength. You could say that school is like our extended family. We look to each other in times of hardship for strength. When someone is suffering the whole family feels the pain. This year has been an outstanding year filled with wonderful people that made it feel like a true family.

Mr. Perin

We all appreciate the dedication Mr.Perin has put forward
or the Newport High School yearbook for many years. He's spent
many long hours working on yearbook and taught it for at least 15
ears. Not only did he spend a lot of time on the yearbook, he also
pent large amounts of money on it. This year he has stopped teaching
earbook, but he still stays after school and helps students work on
he yearbook. If the yearbook didn't get done during school, he would
ork on it during the summer. When the school district had asked
im to be a yearbook teacher, he didn't know a thing about the
rocess therefore he had to learn how to do everything on his own
me. Now he is a wonderfully knowledgeable person when it comes to
utting a yearbook together. On behalf of the Newport High School
earbook, there is not really a way to say thanks but we'll give it a try.
hank you so much for doing what you have done Mr. Perin.

Mitch Stratton

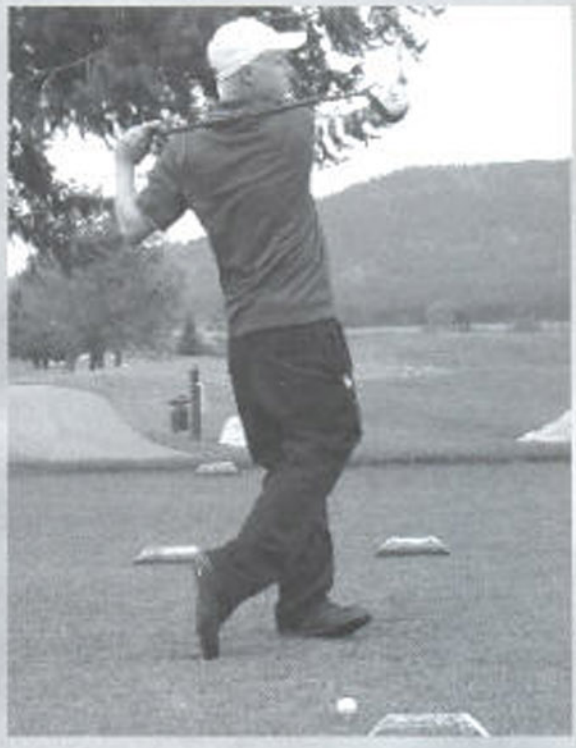

Newport High School teacher and coach, Mitch Stratton discovered during ate September that he had a skull based tumor, about the size of a golf ball. The umor affected his vision, causing him to see double. (Following a doctor's visit t the University of Washington Medical Center in Seattle, his surgery took place on October 17, 2003.) Stratton visited doctors in Newport and Spokane who recommended that he see a specialist at the University. Stratton said that his doctor was 95 percent sure it's a low grade, skull base tumor. Stratton said he felt confident about the surgery because his doctor performs these surgeries almost everyday. After the surgery he spent about one week recovering in the hospital. His doctor said, if necessary, he would send Mitch to undergo follow-up treatments at a facility in California that has one of a few photon ray radiation treatment systems in existence. In May of 2004, Mitch decided that he needed to go and have radiation treatments. Stratton said he continues to be thankful for all the thoughts and prayers he has received. It has helped so much, that has really gotten me through a lot of it." Mitch has played a big part in this community and the school as well.

"I didn't know how hard it was to write my feeling down in just two sentences until yearbook class had asked me to. I had come up with about five pathetic ideas. Then I found the right one. It has been an outstanding year, with such wonderful people that became my friends. I know that I will never forget them and always stay in touch. Thanks to all my friends for such a successful year."

Student Life

To all Newport High School Students and Parents

The yearbook staff would like to apologize for the exceptionally late delivery of the 2003-04 annual. Due to unforeseen circumstances, not the least of which was trying to complete the annual without an advisor or teacher, we were unable to complete all the pages last year.

We hope that we did not leave anyone out, but sincerely apologize if we did. The 2004-05 book is already under construction, and will be delivered in September, as it has in the past. In addition, it will be in full color book, which we are really looking forward to publishing.

Thank you for your patience and understanding. We hope you enjoy this book.
