

2026-2027 LCAP Input Cycle

The 2024-2027 Local Control Accountability Plan is a 3-year plan built on our mission, vision, and goals for students. Together, these guide the overall direction for district programs and operations. Each year MCSD reviews the progress in meeting students' needs by examining data, gathering feedback from students, families, staff, and community. We meet with our educational partners regularly to discuss data, progress, and needs. This timeline is designed to demonstrate some of the touchpoints throughout the year with our educational partners.
