

Shapes

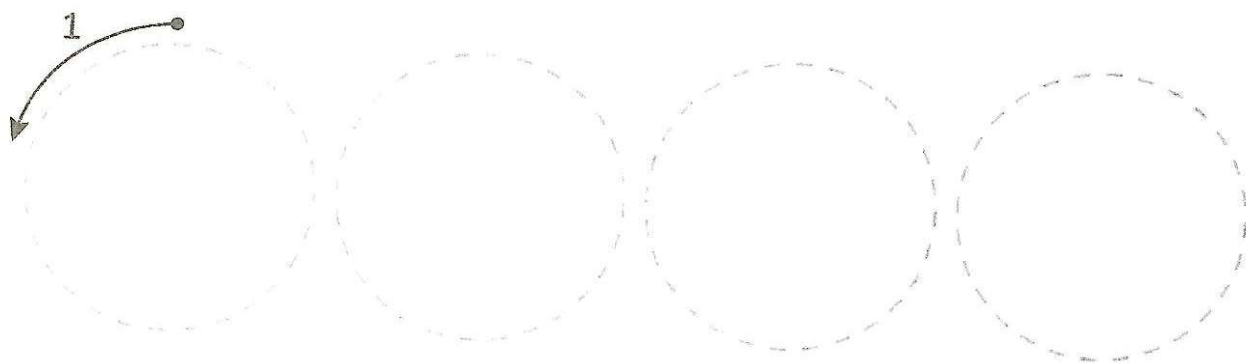

Tracing, drawing, and matching basic shapes
introduces early math concepts.

Circle

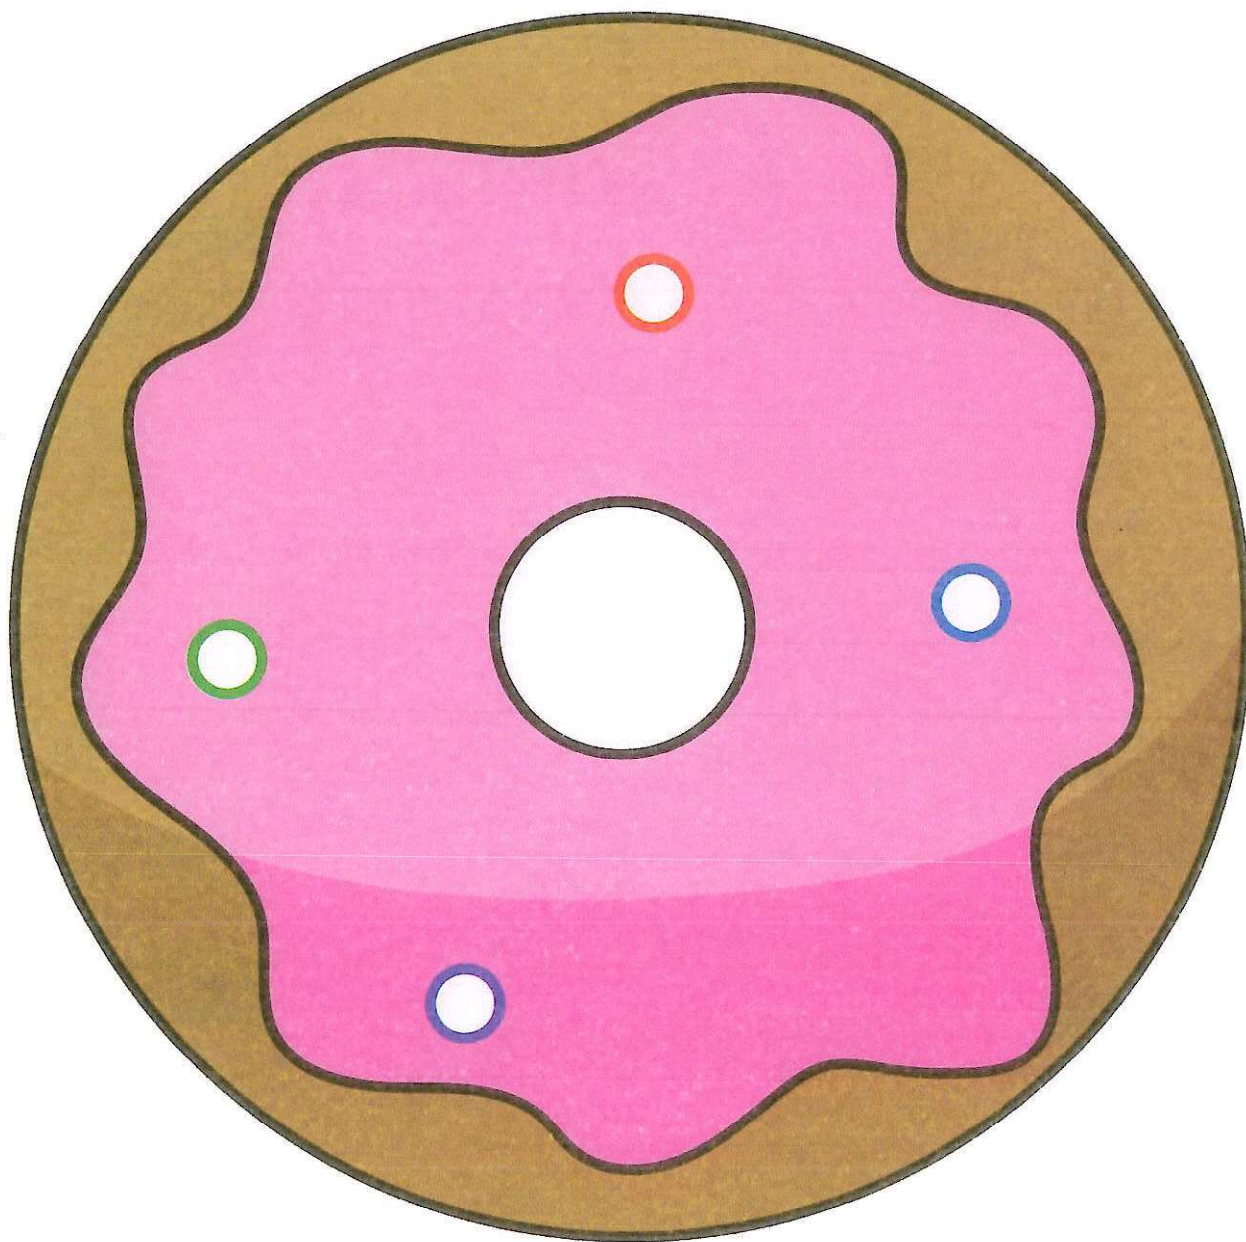

Trace the circles to make wheels.

Trace the circles.

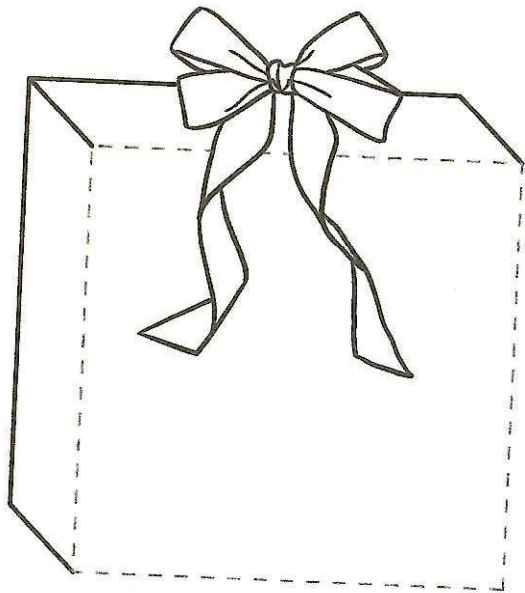

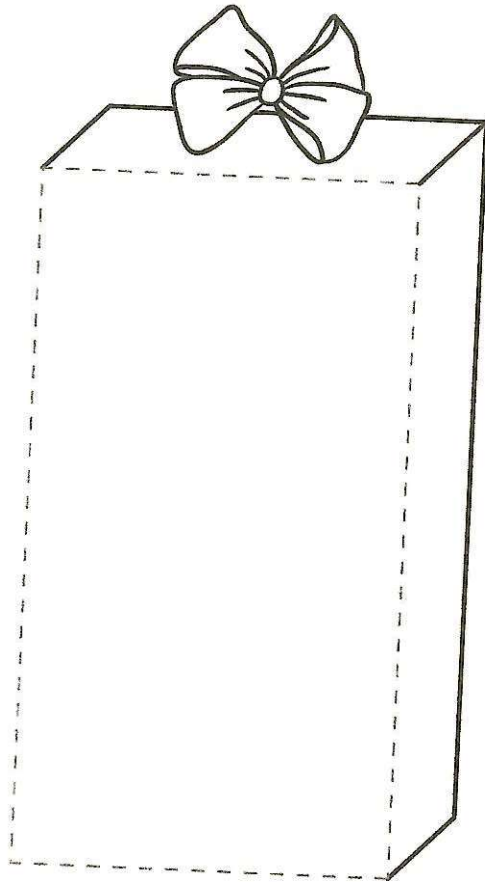

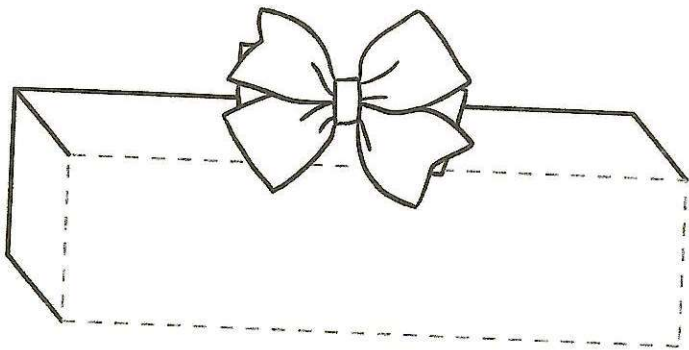

Draw **circles** to add more sprinkles to the donut.
Color the circles different colors.

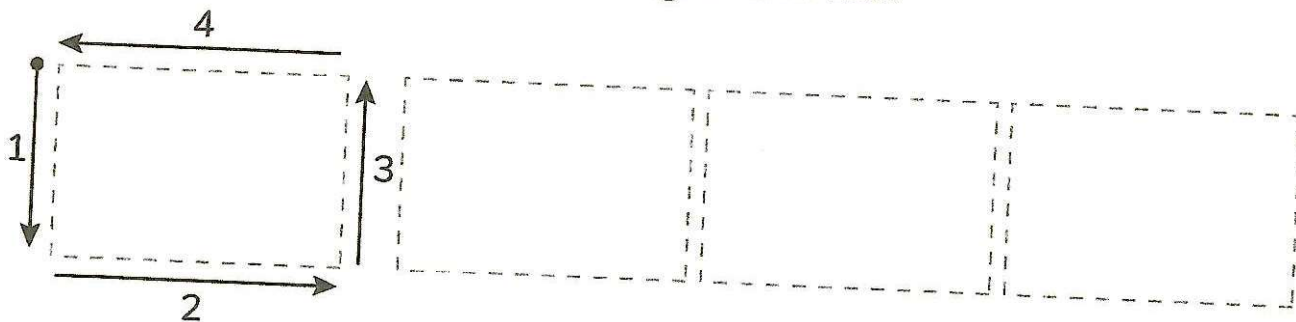

How many sprinkles
did you draw? _____

Rectangle

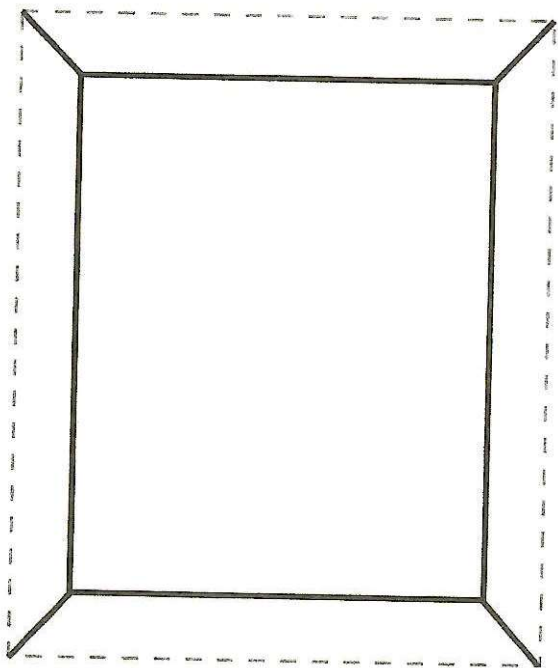

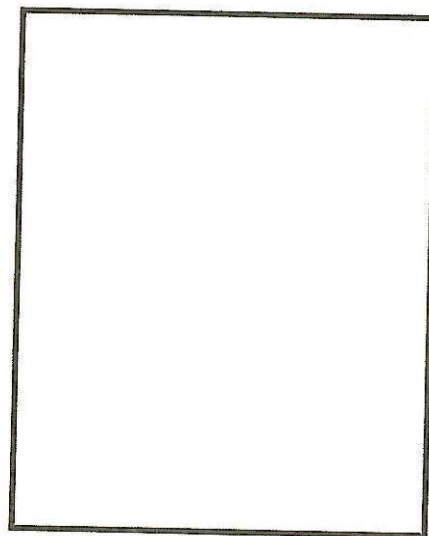

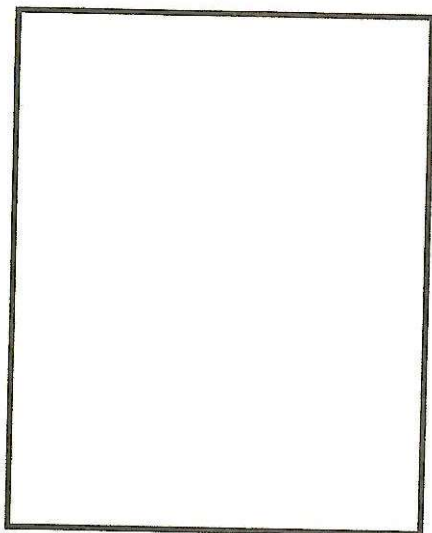

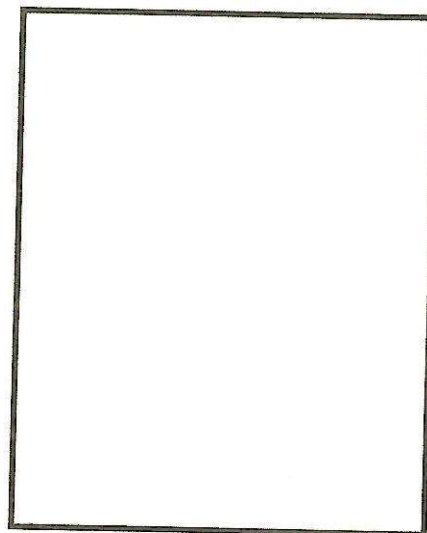

Trace the **rectangles** to complete the gifts.
Color the gift boxes.

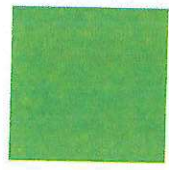

Trace the rectangles.

Trace the first **rectangle** frame.
Draw rectangles to add frames around the pictures.
Color the frames and add pictures.

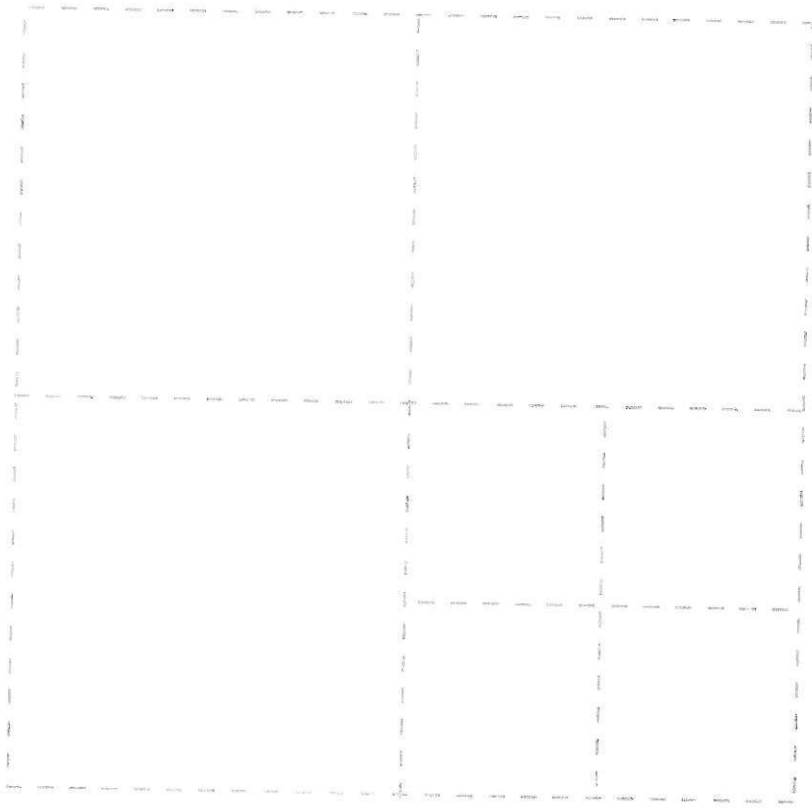

How many rectangles
did you draw?

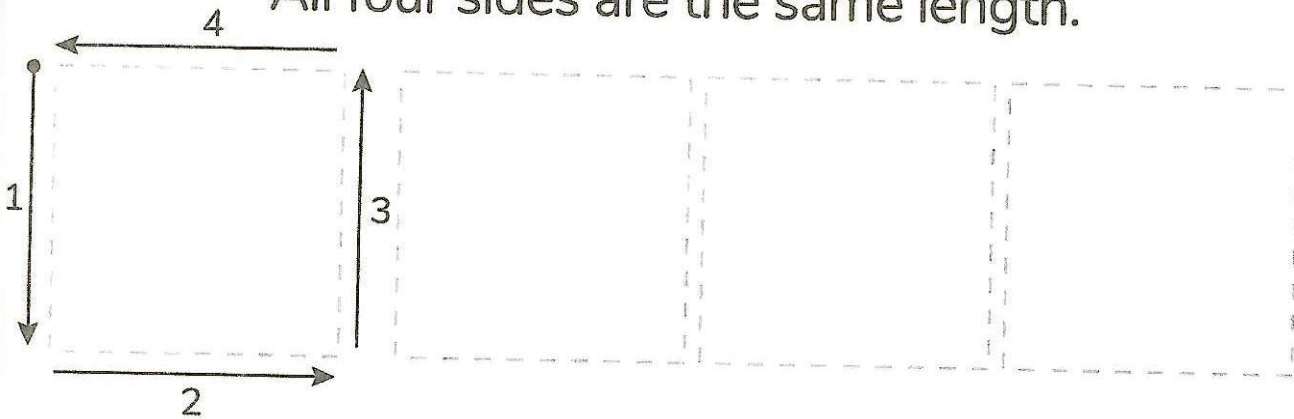

Square

Can you find 9 squares?
You may need an adult to help. Trace them all.

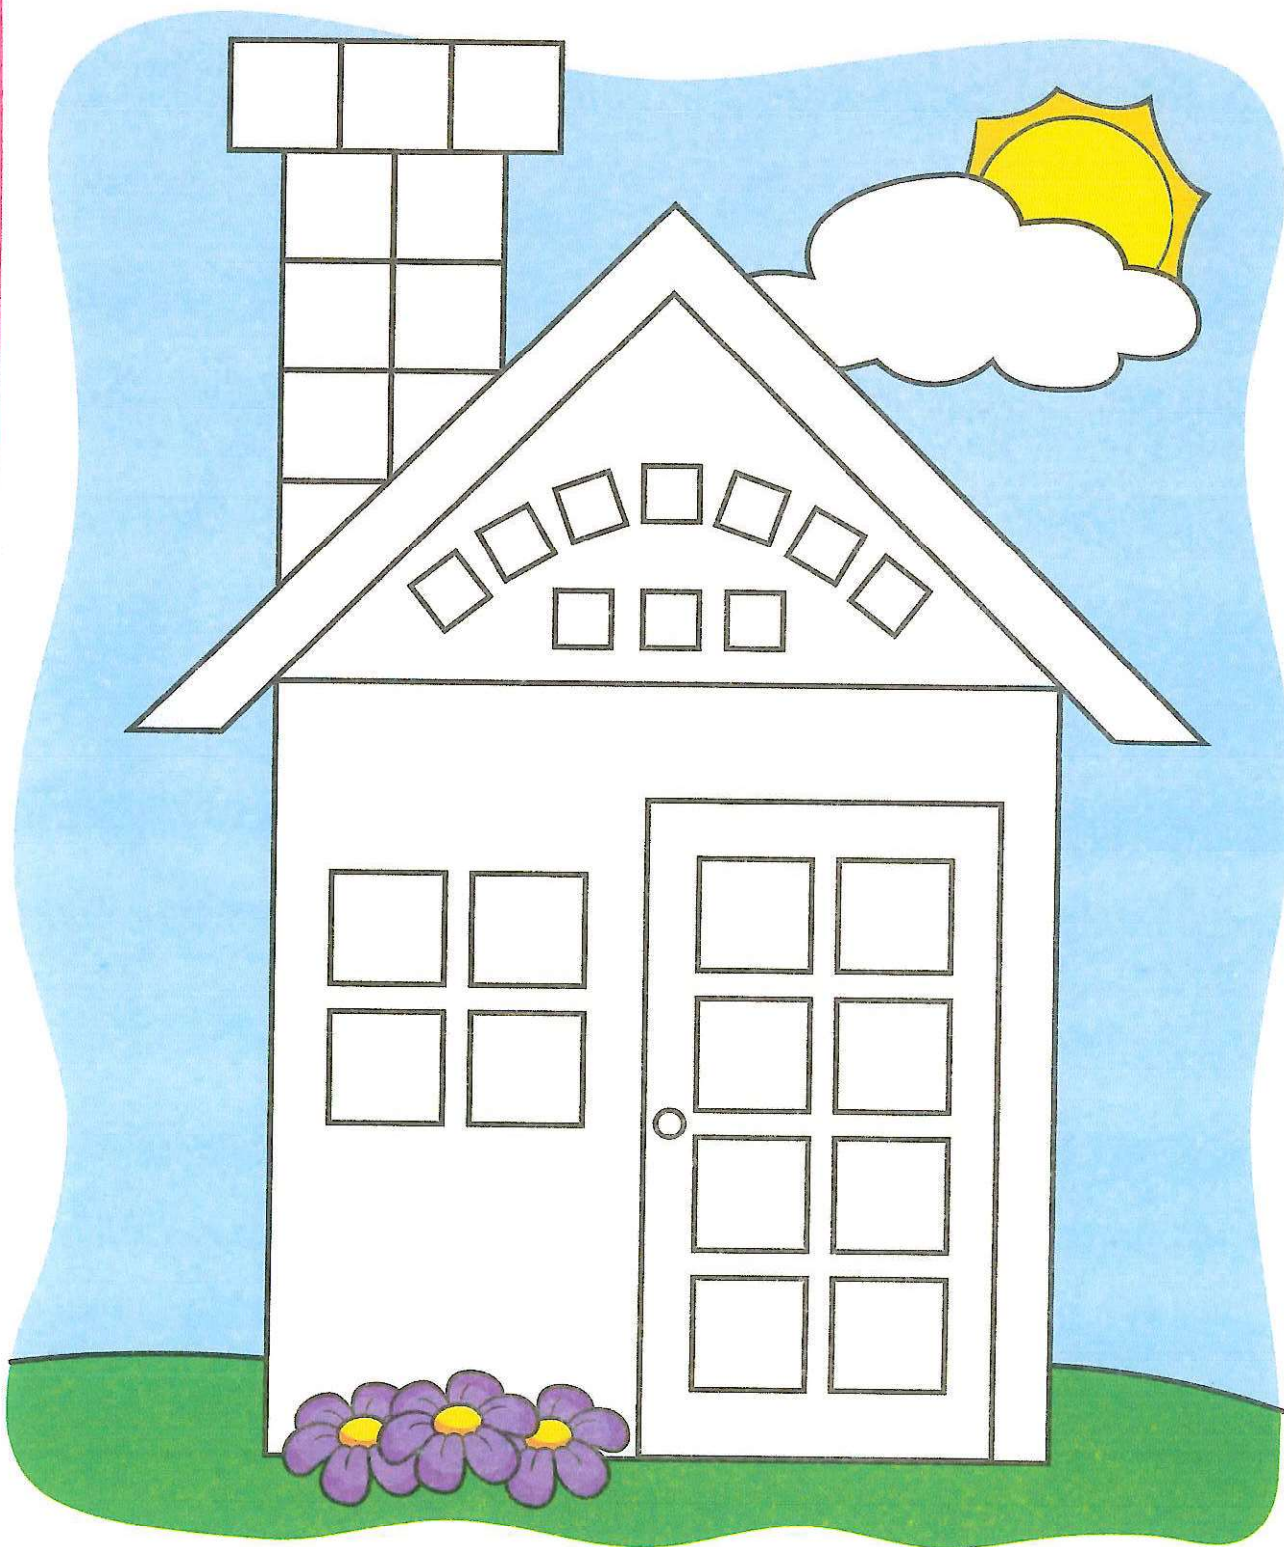

A square is a special kind of rectangle.
All four sides are the same length.

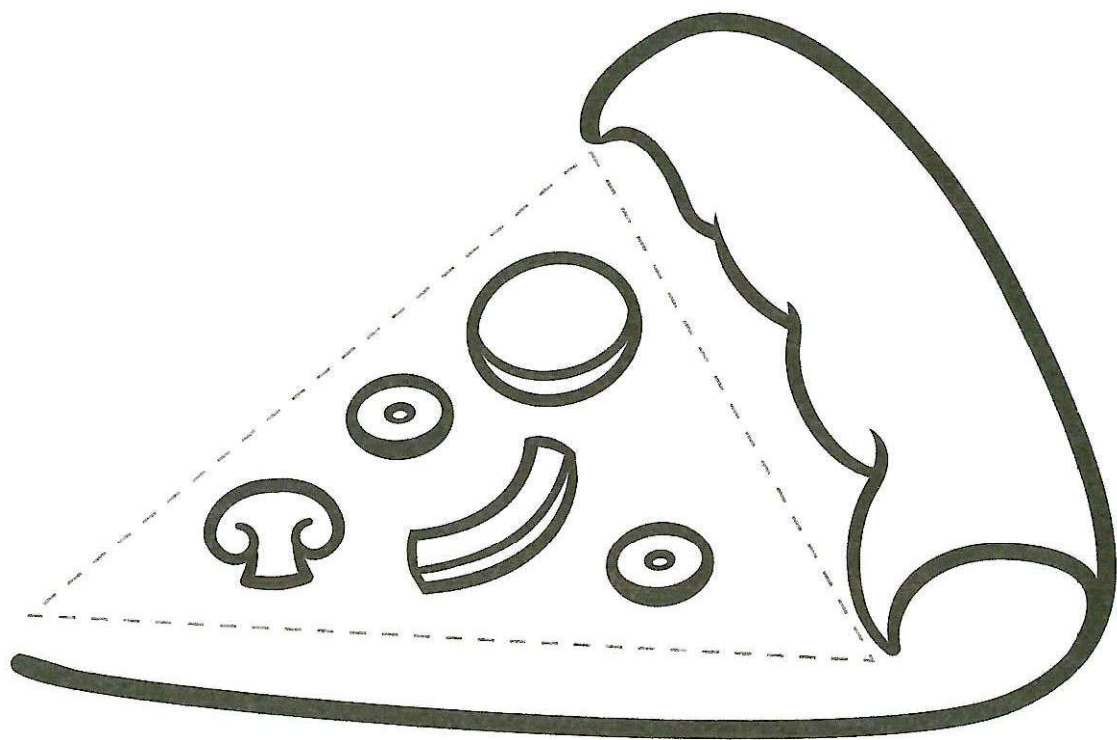

Trace the squares.

Color the house.

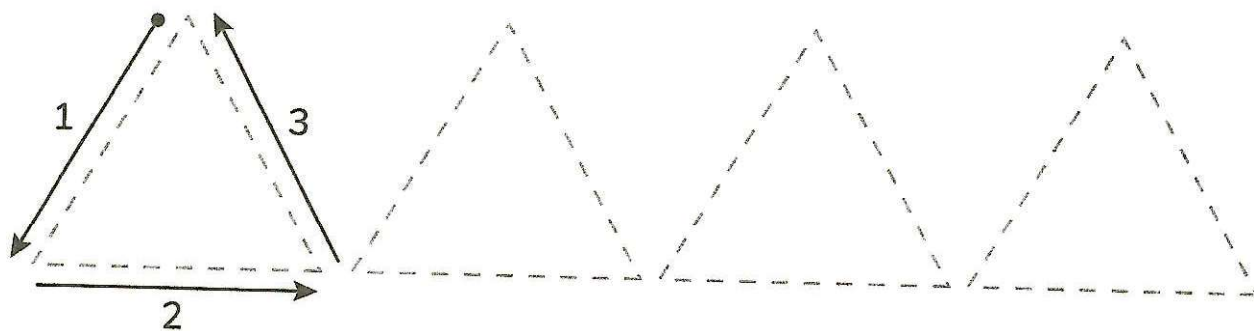

How many squares
did you color? _____

Triangle

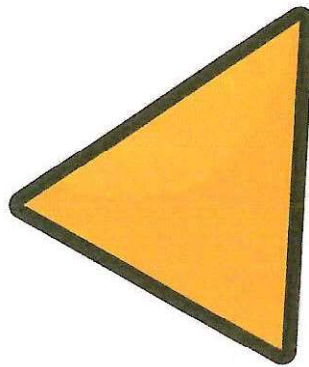

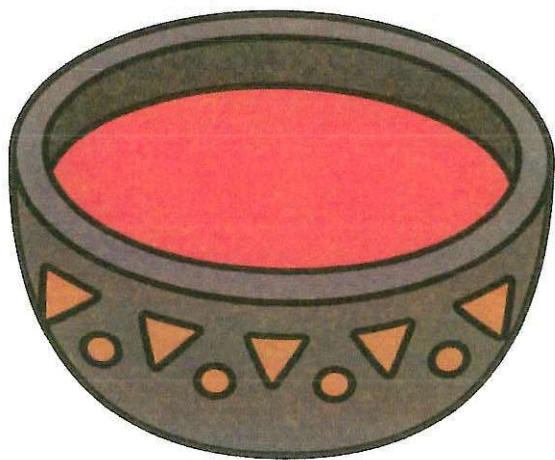

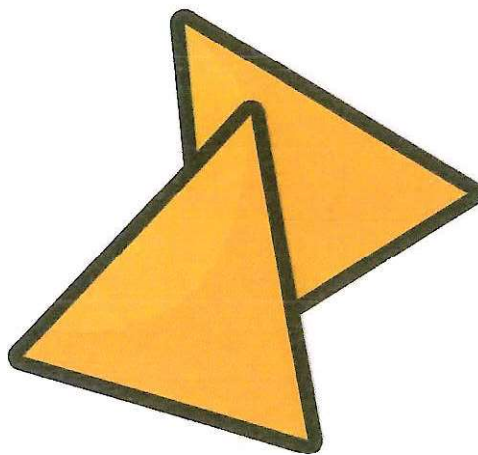

Trace the **triangle** to make a pizza slice.

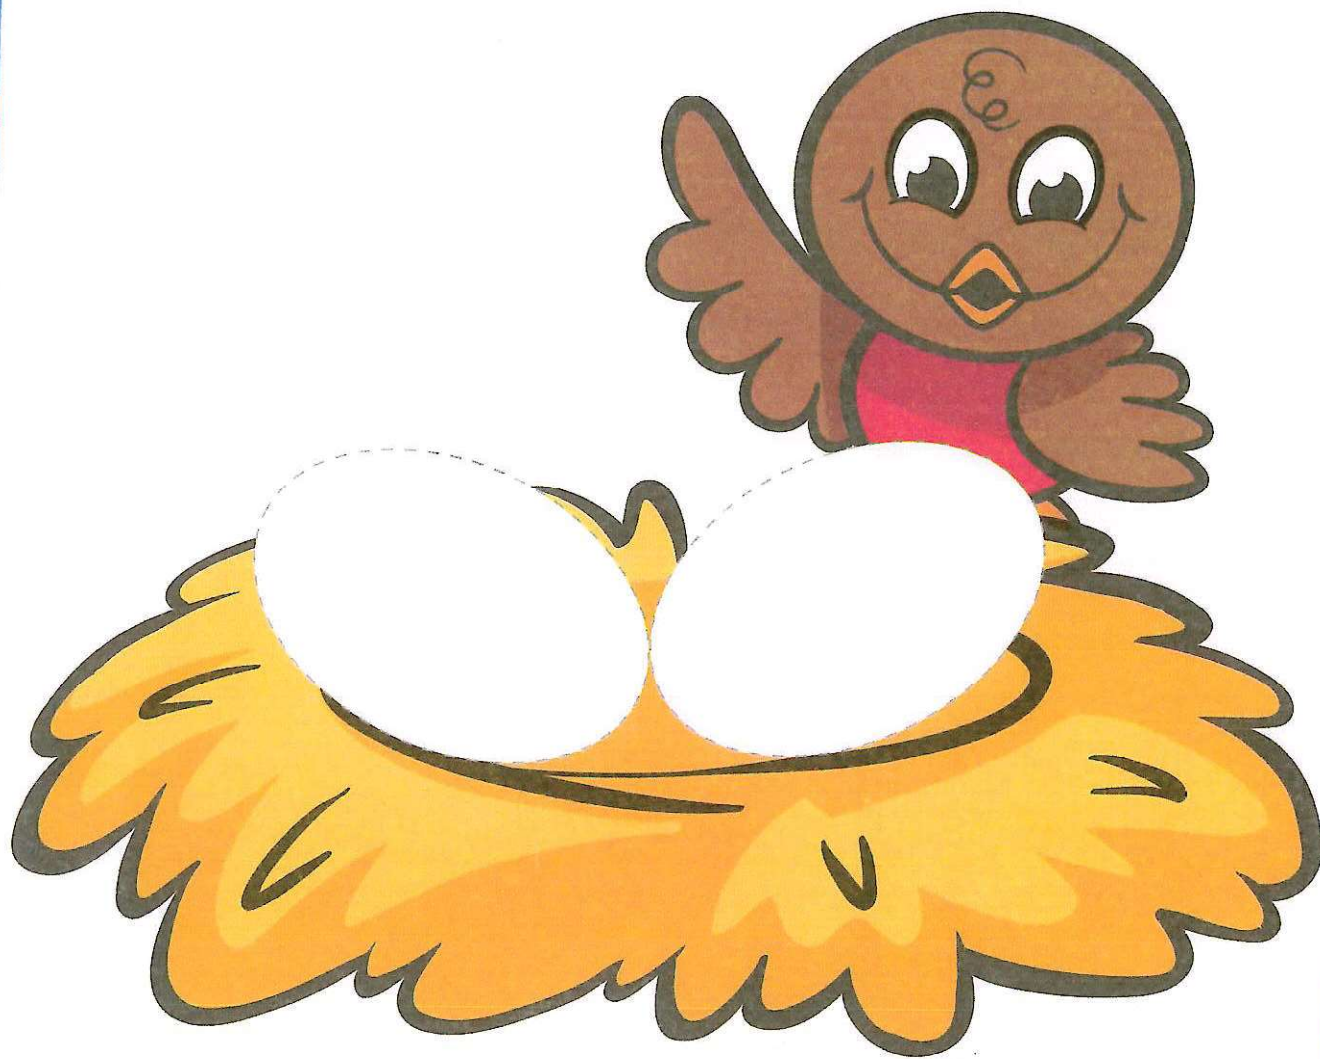

Trace the triangles.

Yum! Tortilla chips and salsa!
Draw more **triangles** to make chips.

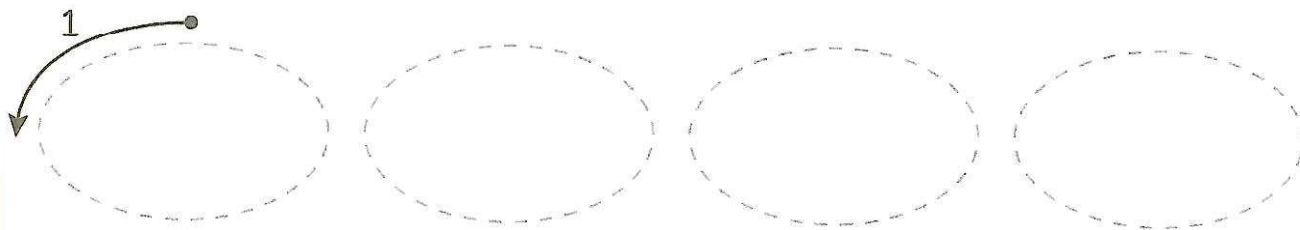

How many chips
did you draw?

Oval

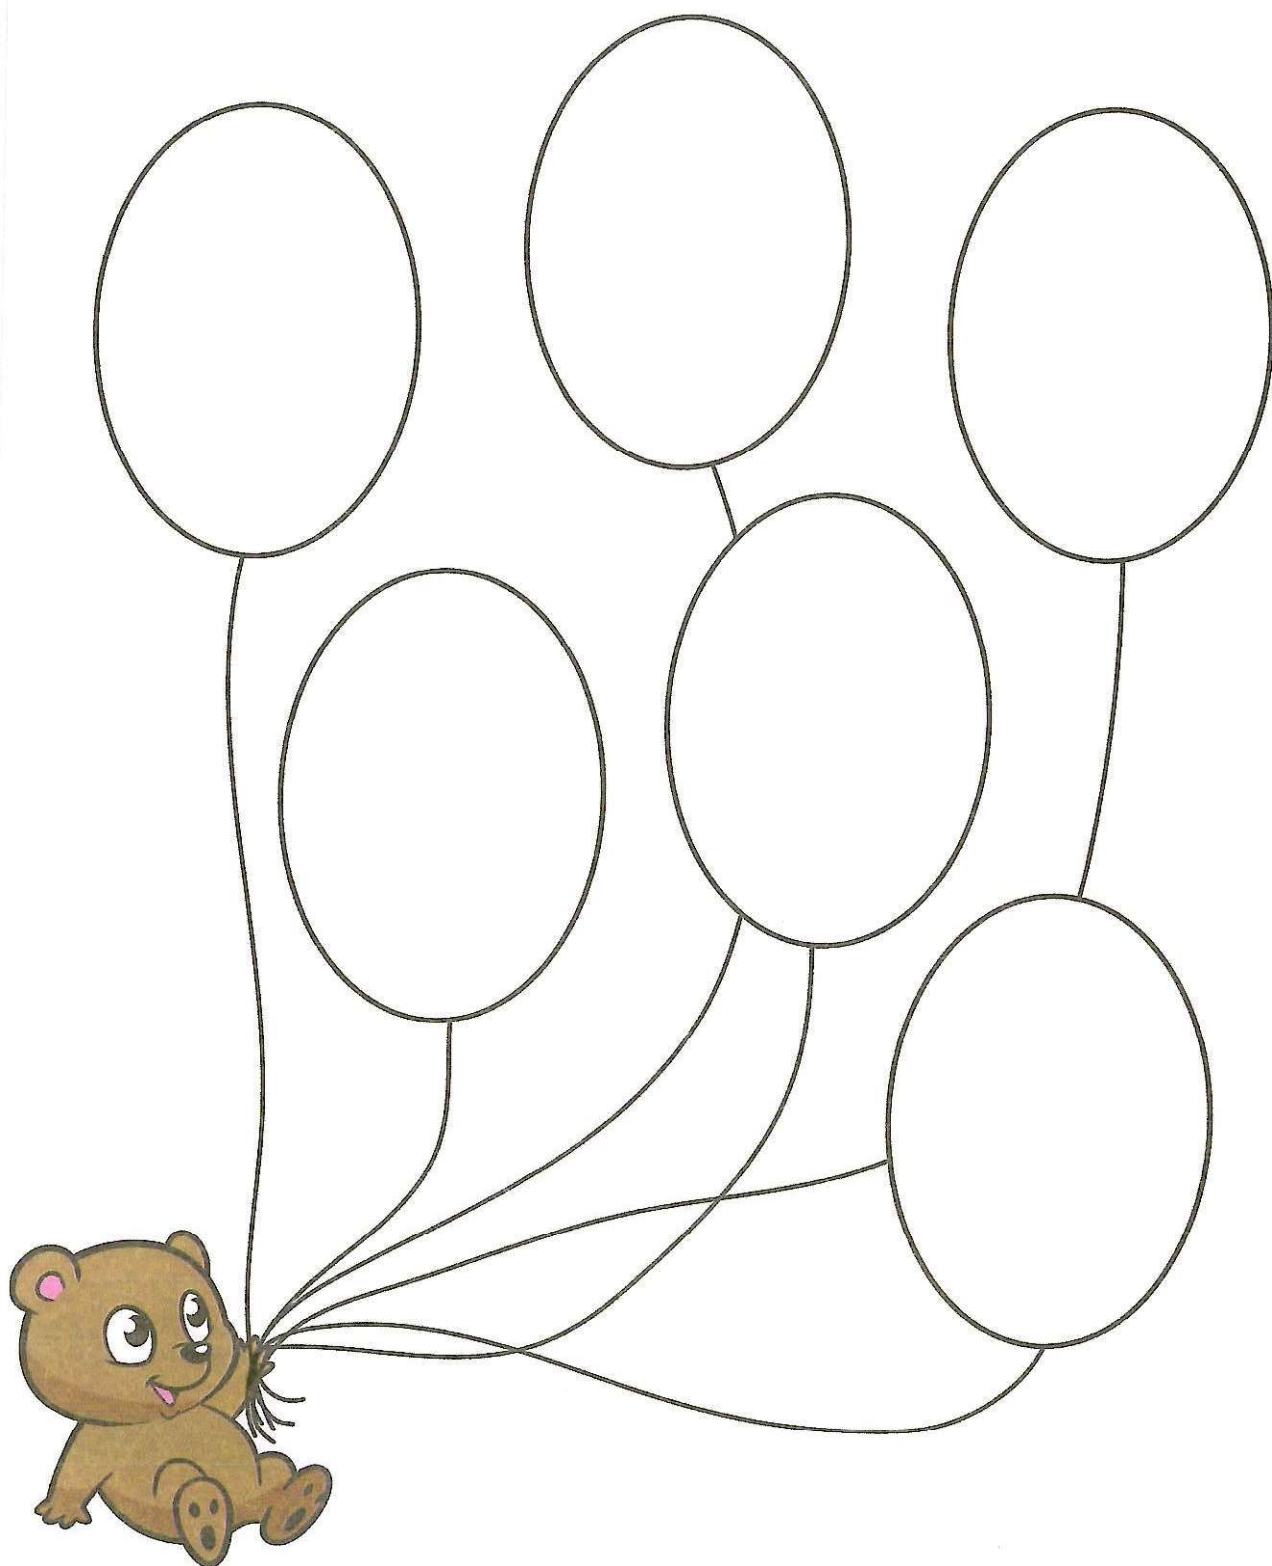

Trace the ovals to make eggs. Color the eggs blue.

Trace the ovals.

Color each **oval** balloon a different color.

How many balloons did you color? _____
