

Private Tutors – Roswell High School maintains a list of private tutors available in the local community who have expressed an interest in tutoring Roswell students. RHS does not endorse any one particular tutor and only provides this list as a resource for parents; it is not to serve as a specific referral source. The tutors on this list charge a fee for their services and RHS is in no way obligated to cover this fee for any of its students. Any fees and related costs for tutoring are the responsibility of the student and parent.
