

Dear Parents,

Clever is an application portal that allows your child to log in once and access district instructional software without needing to enter additional passwords. In addition to automatically signing students into these educational applications, the platform features a dedicated section with quick links to frequently used websites and classroom resources.

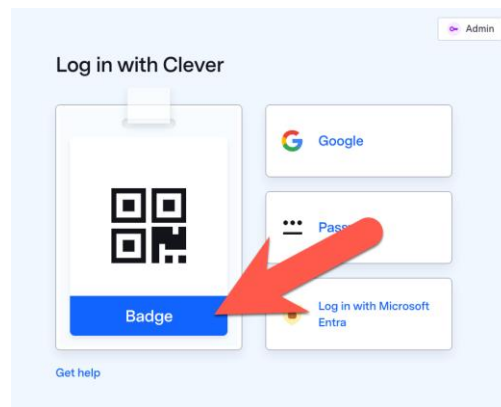

Clever Sign In

To access Clever at home, go to baldwinschools.org and select Clever.

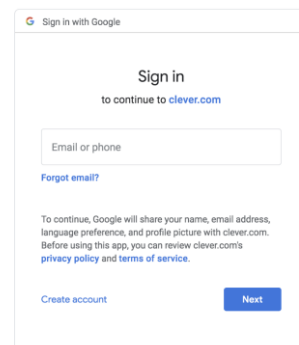

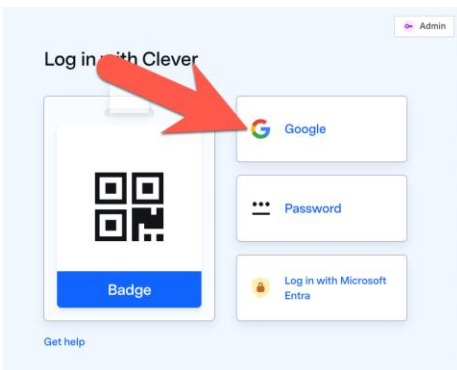

K-2 Students

Students in grades K–2 can log into Clever using their Baldwin Google account (see 3-12 students below) or a physical Clever Badge. To use a badge, your device must have a webcam. Simply click Clever Badge Log In and hold the badge up to the camera until a green checkmark appears on the screen, confirming your child is signed in.

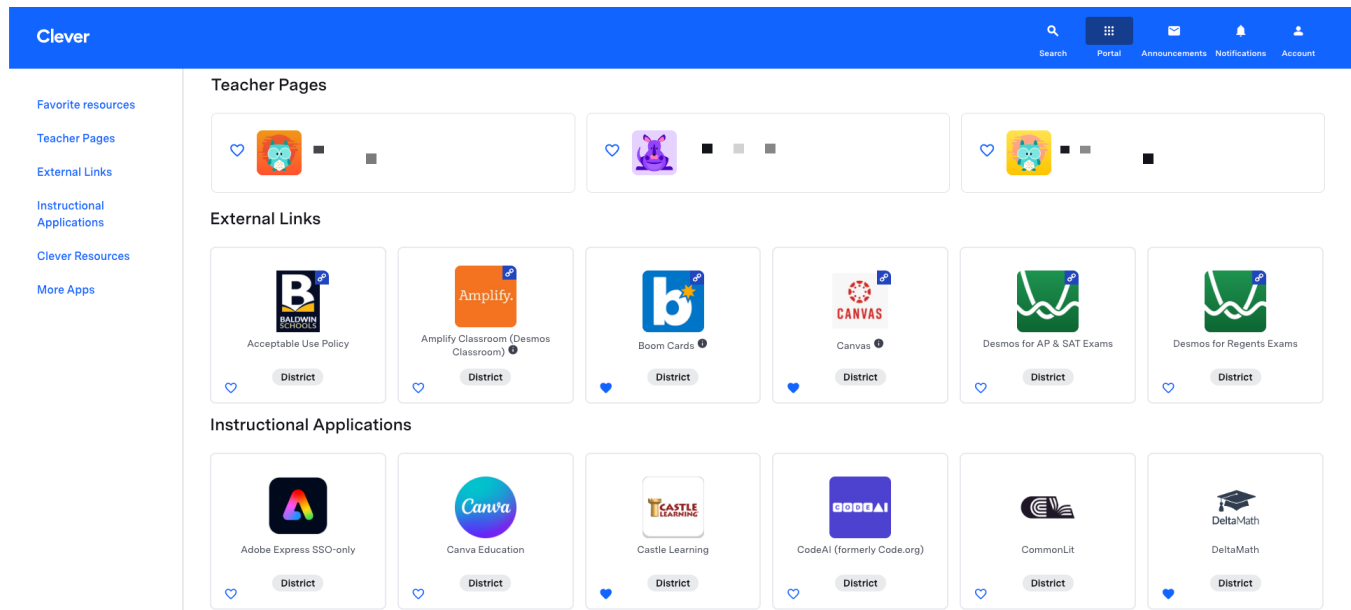

3-12 Students

Students in grades 3-12 will use their Baldwin Google account to sign in to Clever. Your student's Baldwin Google account will end with @baldwinschools.org. If you do not know your student's Baldwin Google account username and password, please contact your student's school.

Clever Dashboard

After your child has successfully logged in to Clever, they will see the following screen with access to External Links and Instructional Applications.

- **External Links:** These icons take you directly to outside websites, but they do not sign your student in automatically. Students will still need to log into each app manually, usually by selecting the Sign in with Google option.
- **Instructional Applications:** These icons will automatically sign your student into the application.

If you have a computer or tablet with internet access, we encourage you to support your child's learning by exploring these online resources together at home. Using these tools at home offers a great opportunity for students to reinforce classroom concepts and share what they are learning with you.

Student's Name: _____

Below is the information needed to log into Clever.

Your child must log in with the district provided credentials below – it will **NOT** work with a personal email account. (ex: *gmail.com*)

*** This email address will **NOT** send or receive any emails...this feature has been disabled for student accounts.

Your child's credentials for Clever are:

Your child's username is: _____@baldwinschools.org (no spaces or capital letters)

Your child's password is: _____
