

FAMILY CARE PLAN SURVEY

FOR

PROFESSIONALS/ PROVIDERS

This survey is part of a statewide effort to improve the care of pregnant and postpartum individuals with substance use, and substance-exposed infants. This initiative seeks to increase participation in substance use treatment for pregnant and post-partum individuals, and to reduce families' involvement in the child welfare system, while maintaining child safety. Your responses on this survey will contribute to decisions regarding training, resources, and services provided by public and private organizations statewide.

Use the QR code on the right or click the link below to complete the survey.
It should take 10 minutes of your time. Thank you!
