

A KITE TAKES FLIGHT!

Inspired by the joy, movement, and imagination of childhood, Bracher ES is taking flight with a Kite-inspired design. The butterfly roof of the new MPR rises like a kite catching the wind, while the new TK and Preschool classrooms extend behind it like a kite's tail. Together, these playful forms create a welcoming gathering place for the entire school community and a special place for Bracher's youngest learners. The campus improvements are designed to bring more opportunities to gather, learn, play, and grow -- creating a school that feels as joyful as the childhood it supports.
