DELAWARE VALLEY HIGH SCHOOL
GUIDANCE OFFICE
256 ROUTE 6 & 209
MILFORD, PA 18337

To Whom It May Concern,

Congratulations! You and your child have made a valuable decision in preparing for higher education by choosing to take one or more AP courses this upcoming school year.

AP courses give students the chance to get a head start on college while still in the supportive environment of a high school classroom. Students may earn college credit by taking the AP exam at the end of the school year, while at the same time attaining a higher level of learning and expanding their knowledge. AP courses teach students to challenge themselves, to study topics in greater detail, and to improve reasoning and analytical skills. In addition, AP courses prepare students for the rigorous demands of college.

At Delaware Valley, we encourage our students to challenge themselves on this lifelong journey of education. We also want to make sure you are aware of some of our school policies in regards to the AP courses and exams as we begin the school year. **When a student is enrolled in an AP course, it is expected that they will take the subsequent exam in May otherwise he or she will lose the weight of the course.** We will be registering our students in their AP courses and ordering AP Exams by October. If a student has a B+ (87) or higher cumulative average in their AP course at the end of the 3rd quarter, the school district will pay for the exam. The *projected* AP Exam Fee for 2027 is $90 per exam and $53 if a student qualifies for free or reduced lunch. If a student does not have a B+ cumulative average or higher in the AP course at the end of the 3rd quarter, the child *is required to pay for the exam at this time*. If a student registers for an exam and cancels after the October ordering deadline, he/shewill be charged a cancellation fee of $40. Once the student has taken the exam, if he/she achieves a score of a 3 or higher on the exam which the child paid for, the school district will reimburse the child in the fall. Please see the AP Exam schedule on the reverse side of this letter to plan accordingly.

Once again, we applaud you in preparing your students for success as they not only complete high school but look forward to what comes next. If you have any questions about the AP exams in general, (exam schedule included in this letter),please do not hesitate to contact me at any time.For specific course requirements, please contact the AP teacher directly. We hope you have had a good summer and look forward to assisting you and your child in this process.

Sincerely,
Jessica Favorito
AP Exam Coordinator
