Dear Parent/ Carer,

I am pleased to share a new service that is being provided to Southam College from the Warwickshire Child and Family Well-being Team, formerly the Connect for Health team. This service is provided to schools through the Warwickshire School Nursing Team. This academic year the nursing team will offer our students opportunities to talk to them in school, as students feel appropriate, on a fortnightly basis.

These sessions will commence on a Day 7 of the school timetable (every other Tuesday) and are currently scheduled to run between 9am and 11am. Students can talk to the school nursing team around any concerns they may have, examples of this can include physical health concerns, mental health and wellbeing, stress, anxiety, sleep, relationships and friendships amongst any other concerns which may be worrying them.

Appointments are scheduled for 15 minutes via your child's Head of Year. This is a confidential service, hosted in school, that does not require parental consent for students to attend, however, parents would be contacted by the nursing team if their child were to raise a concern that required any form of referral or further suggested health care actions. This service is being provided to the College free of charge and is provided by an external agency. If this is a service which appears popular for our students, then we have the option to expand our offer for students throughout the academic year.

We hope that this will provide an additional avenue of support for students as they navigate their development towards adulthood.

Kind regards,

Mr J Johnson
Assistant Headteacher
