

Green Flag 2026

Eton Porny C of E First School

Award Level:
Distinction

Focus Topics:

Your Greatest Overall Success:

We at Eco Schools are so proud of your work with Eton College in teaching and running sessions around Eco Awareness and making the world a nicer place. You should all be so proud of yourselves for the excellent work you have done towards informing and involving the wider community especially through contacting your local MP to request more cigarette bins.

We Also Loved:

- We are so proud of you all for your brilliant work towards improving biodiversity at your school through building a large bug hotel and planting new wildflowers. These actions will really help out the local pollinators and make your school a wonderful place for invertebrates to live. Keep up the amazing work!
- Well done on your brilliant work doing litter picks during Keep Britain Tidy week! All the litter you collected and hard work you put into promoting the event shows the dedication you all have to making your school and local community a nicer place to live. Keep going!
- It's lovely hearing about your wonderful work in year 2 around habitats. The more pupils know about the world around them and where each thing thrives the more conscious and environmentally aware they will be in the future when building projects of their own and voting for projects in their local community. Keep up the amazing work guys!
- It was wonderful reading about how you got your school involved with a sustainability competition as well as the updates you are sending home in your newsletter. The more students know and get involved with sustainability at a young age the better developed their understanding of how to be a good citizen of the globe will be and the more environmentally aware they will be going into their teens and adult life. Super work all!
- It was lovely seeing how you used the school name as an acrostic poem for your Eco Pledge. We especially loved "Only use what we need - save energy and water." And "You can make a difference every day!" as it reaffirms to all children that if they do their part and only use the resources they need then we can all make the world a better place one step at a time.

Next Year, Why Not Try...

You should all be so proud of the outreach work you have done this year and all the work you have put into informing and involving the wider school community. Next year you might consider running a whole school litter pick once a week during school street time and ask for support from your local council in shutting down your road during school drop off time so all students and parents can get involved in the litter-pick without having to assign extra time than they already might to drop off.
