| <i>Custodial fees are charged only if the Custodian is not already scheduled to work as part of their regular duties or if additional staff is required for the event. These rates represent the break-even cost to the district and can not be negotiated since these are costs that the district would otherwise not incur. Whenever possible, the district will absorb personnel costs associated with rentals occurring during regularly scheduled work shifts. Please note, there is a 2-hour minimum charge for Custodial Services due to the CSEA Bargaining agreement.</i> |                                                      |                  |
