SUMMATIVE EVALUATION REPORT 2025-2026

Eisenhower Elementary School in the Green Bay Area Public School District operated a 21st Century Community Learning Centers (21st CCLC) program during the 2025-2026 school year. The 21st CCLC program originated as part of Congress's reauthorization of the Elementary and Secondary Education Act of 1994 to provide grants to schools and to expand education services beyond the regular school hours. Since that time, the 21st CCLC program has been one of the fastest growing programs in the federal government, with a 2019 allocation of \$1.2 billion, serving just over 10,000 centers nationwide.

The focus of the program reauthorized under Title IV, Part B of the No Child Left Behind Act, is to provide expanded academic enrichment opportunities to children attending low-performing schools. Tutorial services and academic enrichment activities are designed to help youth meet academic standards in subjects such as reading and math. In addition, 21st CCLC sites provide program activities related to youth development; drug and violence prevention; technology education; art, music, and recreation programs; counseling; and character education to enhance the academic component of the program.

During the 2025-2026 school year, Eisenhower Elementary School contracted with Jenell Holstead, Ph.D., Director of the Consortium of Applied Research at the University of Wisconsin – Green Bay, to provide external evaluation of the after school program site. Dr. Holstead's evaluation activities included analyzing summative data regarding outcomes from the 2025-2026 school year. This report presents the summative results for the Eisenhower program site.

STUDENT CHARACTERISTICS

In total, 74 students attended the program during the 2025-2026 school year. Of those that attended, 16% had special education needs and 46% were English language learners. Of note, 86% of the students were receiving free/reduced lunch. The program consisted of roughly 51% Hispanic or Latino students, 16% white students, 19% students who are two or more races, 3% Asian students, 8% Black or African American students, and 3% American Indian or Alaskan Native students. About 53% of the participants were male, compared to 47% female.

Eighty-six percent (86%) of students who attended the program at least one day during the school year attended “regularly” (more than 30 days across the year). The majority of regular attendees (83%) attended 90 or more days during the school year. On an average day, 44 students attended the program.

Fifty-three students attended more than 90 hours of programming, with 38 students attending for more than 270 hours during the school year.

PROGRAM OFFERINGS AND STAFF

During the 2025-2026 school year, numerous activities were provided during the week. In total, students participated in 175 hours in STEM activities, 166 hours in healthy and active lifestyle activities, 145 hours in well-rounded education, 85 hours in cultural programs, 82 hours in academic enrichment, and 10 hours in literacy education. Students also spent 25 hours in various other activities. Eisenhower staff used state standards to guide 21st CCLC programming and aligned program activities with school day content.

The program partnered with 4-H, Artworks for Kids, Ashwaubenon Bowling Alley, Brown County Dairy Promotions, Children's Museum of Green Bay, Comedy City, Einstein Project, Evergreen Production, Girl Scouts, Gnome Games, GBASO, LimaLama, Ink & Splash, Jim's Music, Magic and Science Guy, National Railroad Museum, NEW Zoo & Adventure Park, St. Norbert College, Titledown Park, Tundra Lodge, UW-Green Bay, and the YMCA.

The program operated for 33 weeks during the 2025-2026 school year and was open for a total of 145 days. Typically, the program operated five days per week and served youth for approximately 10 hours each week.

In total, fifteen staff worked for the program including nine college students, one non-teaching school staff member, and five community members. Staff were recruited by partnering with community-based organizations, reaching out to local universities, targeting school personnel, and offering other incentives.

HOURS OF PROGRAMMING

SCHOOL ASSESSMENT

The school assessed the students’ performance in reading and math levels during the spring, as measured by the Numbers Corner (math) and school literacy (reading) assessments. In math, 49% of students met expectations by the end of the year. In reading, 72% of students met expectations by the end of the year.

WHAT STUDENTS SAY

Students have great things to say about the program. In total, 24 students in grades 3rd, 4th, and 5th completed a student survey at the end of the year. Sixty-seven percent (67%) of these students reported their identity was represented by at least one adult in the program, while 79% of students reported that program staff cared about them. Overall, 88% of children reported feeling safe at the program. Also, 79% reported that they felt like they belonged at the program. Seventy-nine percent (79%) of participants reported that there was at least one adult at the program they could talk to and trust.

WHY STUDENTS ATTENDED THE PROGRAM

WHAT FAMILIES SAY

At the end of the year, 37 families completed a family survey. Twelve families reported that they had two or more children in the program, representing 49 students that participated. The survey was available in English, Hmong, and Spanish.

In the survey, 100% of families reported that staff and program leaders cared about their child, with 84% strongly agreeing with this statement. At least 95% of families reported that program staff communicated with them about the program and, felt happy with the types of activities their child participated in. Ninety-five percent (95%) reported that because of the interaction with the after school program staff they felt more welcomed in the school.

Families were also asked to report whether the days and times the program was offered were adequate to meet their needs, and 100% agreed with that the days and times were adequate. Ninety-two percent (92%) of families reported that they were more engaged with their child(ren)'s education because of their participation in the program.

100% of families reported that staff and program leaders cared about their child(ren).

Percentage of families reporting CCLC program helped child:

- Get along better with others: 95%
- Improve their grades/do better in school: 89%
- Participate in activities they would not otherwise have had the opportunity to participate in: 95%
- Increased confidence in their abilities: 93%

WHAT TEACHERS SAY

Teachers were surveyed in Spring 2025 and asked to report the extent to which the CCLC program had helped students in a variety of categories. The results were overwhelmingly positive and are summarized in the table below.

What happened with the student's... over the course of the year?	Engagement in Learning	Enjoyment of Class Activities	Participation in Class Activities	Asking Questions	Completion of In-Class Assignments	Connecting Class Activities to Outside World	Willingness to Try New Things	Demonstration of Self-Directed Learning
It needed to improve and it did.	46%	46%	44%	40%	27%	46%	50%	46%
It needed to improve but it stayed the same.	10%	6%	12%	13%	21%	12%	8%	17%
It needed to improve but it got worse.	2%	2%	0%	0%	0%	0%	0%	0%
It did not need to improve.	42%	42%	42%	44%	50%	40%	40%	35%
Not Applicable	0%	4%	2%	2%	2%	2%	2%	2%

PROGRESS TOWARD GOALS & OBJECTIVES

Guiding Principles	Measurable Goals	Eisenhower
Programs will provide a stable, safe, and supportive environment to meet the needs of the target population	100% of students express that they feel safe on the end of program survey.	Some Progress Made (88% of students surveyed)
	80% yearly retention rate of staff at each site.	Goal met (92% of staff retained)
	100% of sites will develop a professional development plan that incorporates best practices to address staff learning needs.	Goal met (Professional development plan created)
Programs will develop youth as learners	Students who attend afterschool programming for 200+ hours or more will meet end of year grade level expectations in reading.	Some progress made (72% of all attendees meet expectation)
	Students who attend after school programming for 200+ hours or more will meet end of year grade level expectations in math as measured by NC.	Some progress made (49% of all attendees meet expectation)
	100% of schools include after school program into the school's continuous improvement plan.	Goal Not Met (Program not included in school's continuous improvement plan)

PROGRESS TOWARD GOALS & OBJECTIVES

Guiding Principles	Measurable Goals	Eisenhower
Programs will support the development of other skills necessary for success	100% of sites will provide voice and choice activities after school at least twice a week.	Goal met (Program provided voice and choice activities at least twice a week)
	90% of frequent program attendees (60+ days) will participate in a minimum of two rigorous Service Learning projects per year.	Goal met (90% of regular attendees participated in at least two service learning projects)
Programs will engage families and the broader community in support of student learning	90% of families of frequent program attendees (60+ days) will report that the CLC family engagement activities enhanced their ability to assist in their child's education based on end of year survey.	Some Progress Made (88% of family members surveyed)
	At least 4 events geared towards helping families support student learning in literacy or math will be offered each year.	Goal met (6 family events)
	Programs will engage a minimum of 5 Community Based Organizations as part of student programming each year.	Goal met (15 community partners)
	Programs will provide a minimum of 1 community-based field trips each year.	Goal met (8+ field trips)

SUMMARY

The CCLC program at Eisenhower Elementary School continued to flourish during the 2025-2026 school year. The program served 74 students, 86% of whom qualified for free or reduced-price lunch, and provided an additional 350 hours of academic and enrichment support beyond the regular school day. Recruitment efforts focused on students identified as academically at risk, ensuring that those with the greatest need had access to valuable learning opportunities. Feedback from families and students remained overwhelmingly positive, with 100% of surveyed parents reporting that program staff cared about their child. As the program prepares for the 2026-2027 school year, staff should celebrate the strong outcomes achieved while continuing to build on this success.

ABOUT CAR

The Consortium of Applied Research (CAR) at UW- Green Bay seeks to support local businesses, non- profits, community organizations, and educational entities by translating research into practical solutions. Through the collection, use, and dissemination of qualitative and quantitative data, CAR provides objective consultation to help organizations make informed decisions and measure impacts of programs and initiatives. CAR specializes in program evaluation, customized statistical analysis, grant writing services, data management, and training/technical assistance.
