

Pflugerville ISD Elementary Campus Capacity: Methodology & District Summary

Rezoning Committee Handout | September 8, 2026

How Capacity Is Calculated

Capacity in Texas public schools is not a fixed number of students per classroom. Under Texas Education Agency Rule 19 TAC §61.1040, capacity is determined by instructional square footage, program-specific space needs, and the safety and functional use of space — so it reflects how learning actually happens, not just how many desks fit in a room.

Established Capacity

What the architecture firm calculated based on the number of rooms in the building.

Established Functional Capacity

A standard calculation: 95% of Established Capacity.

Maximum Instructional Capacity (650+ sq ft)

Counts only rooms 650 square feet or larger — the minimum needed for a regular classroom — divided by 36 square feet per student.

Adjusted Maximum Instructional Capacity (Program Capacity)

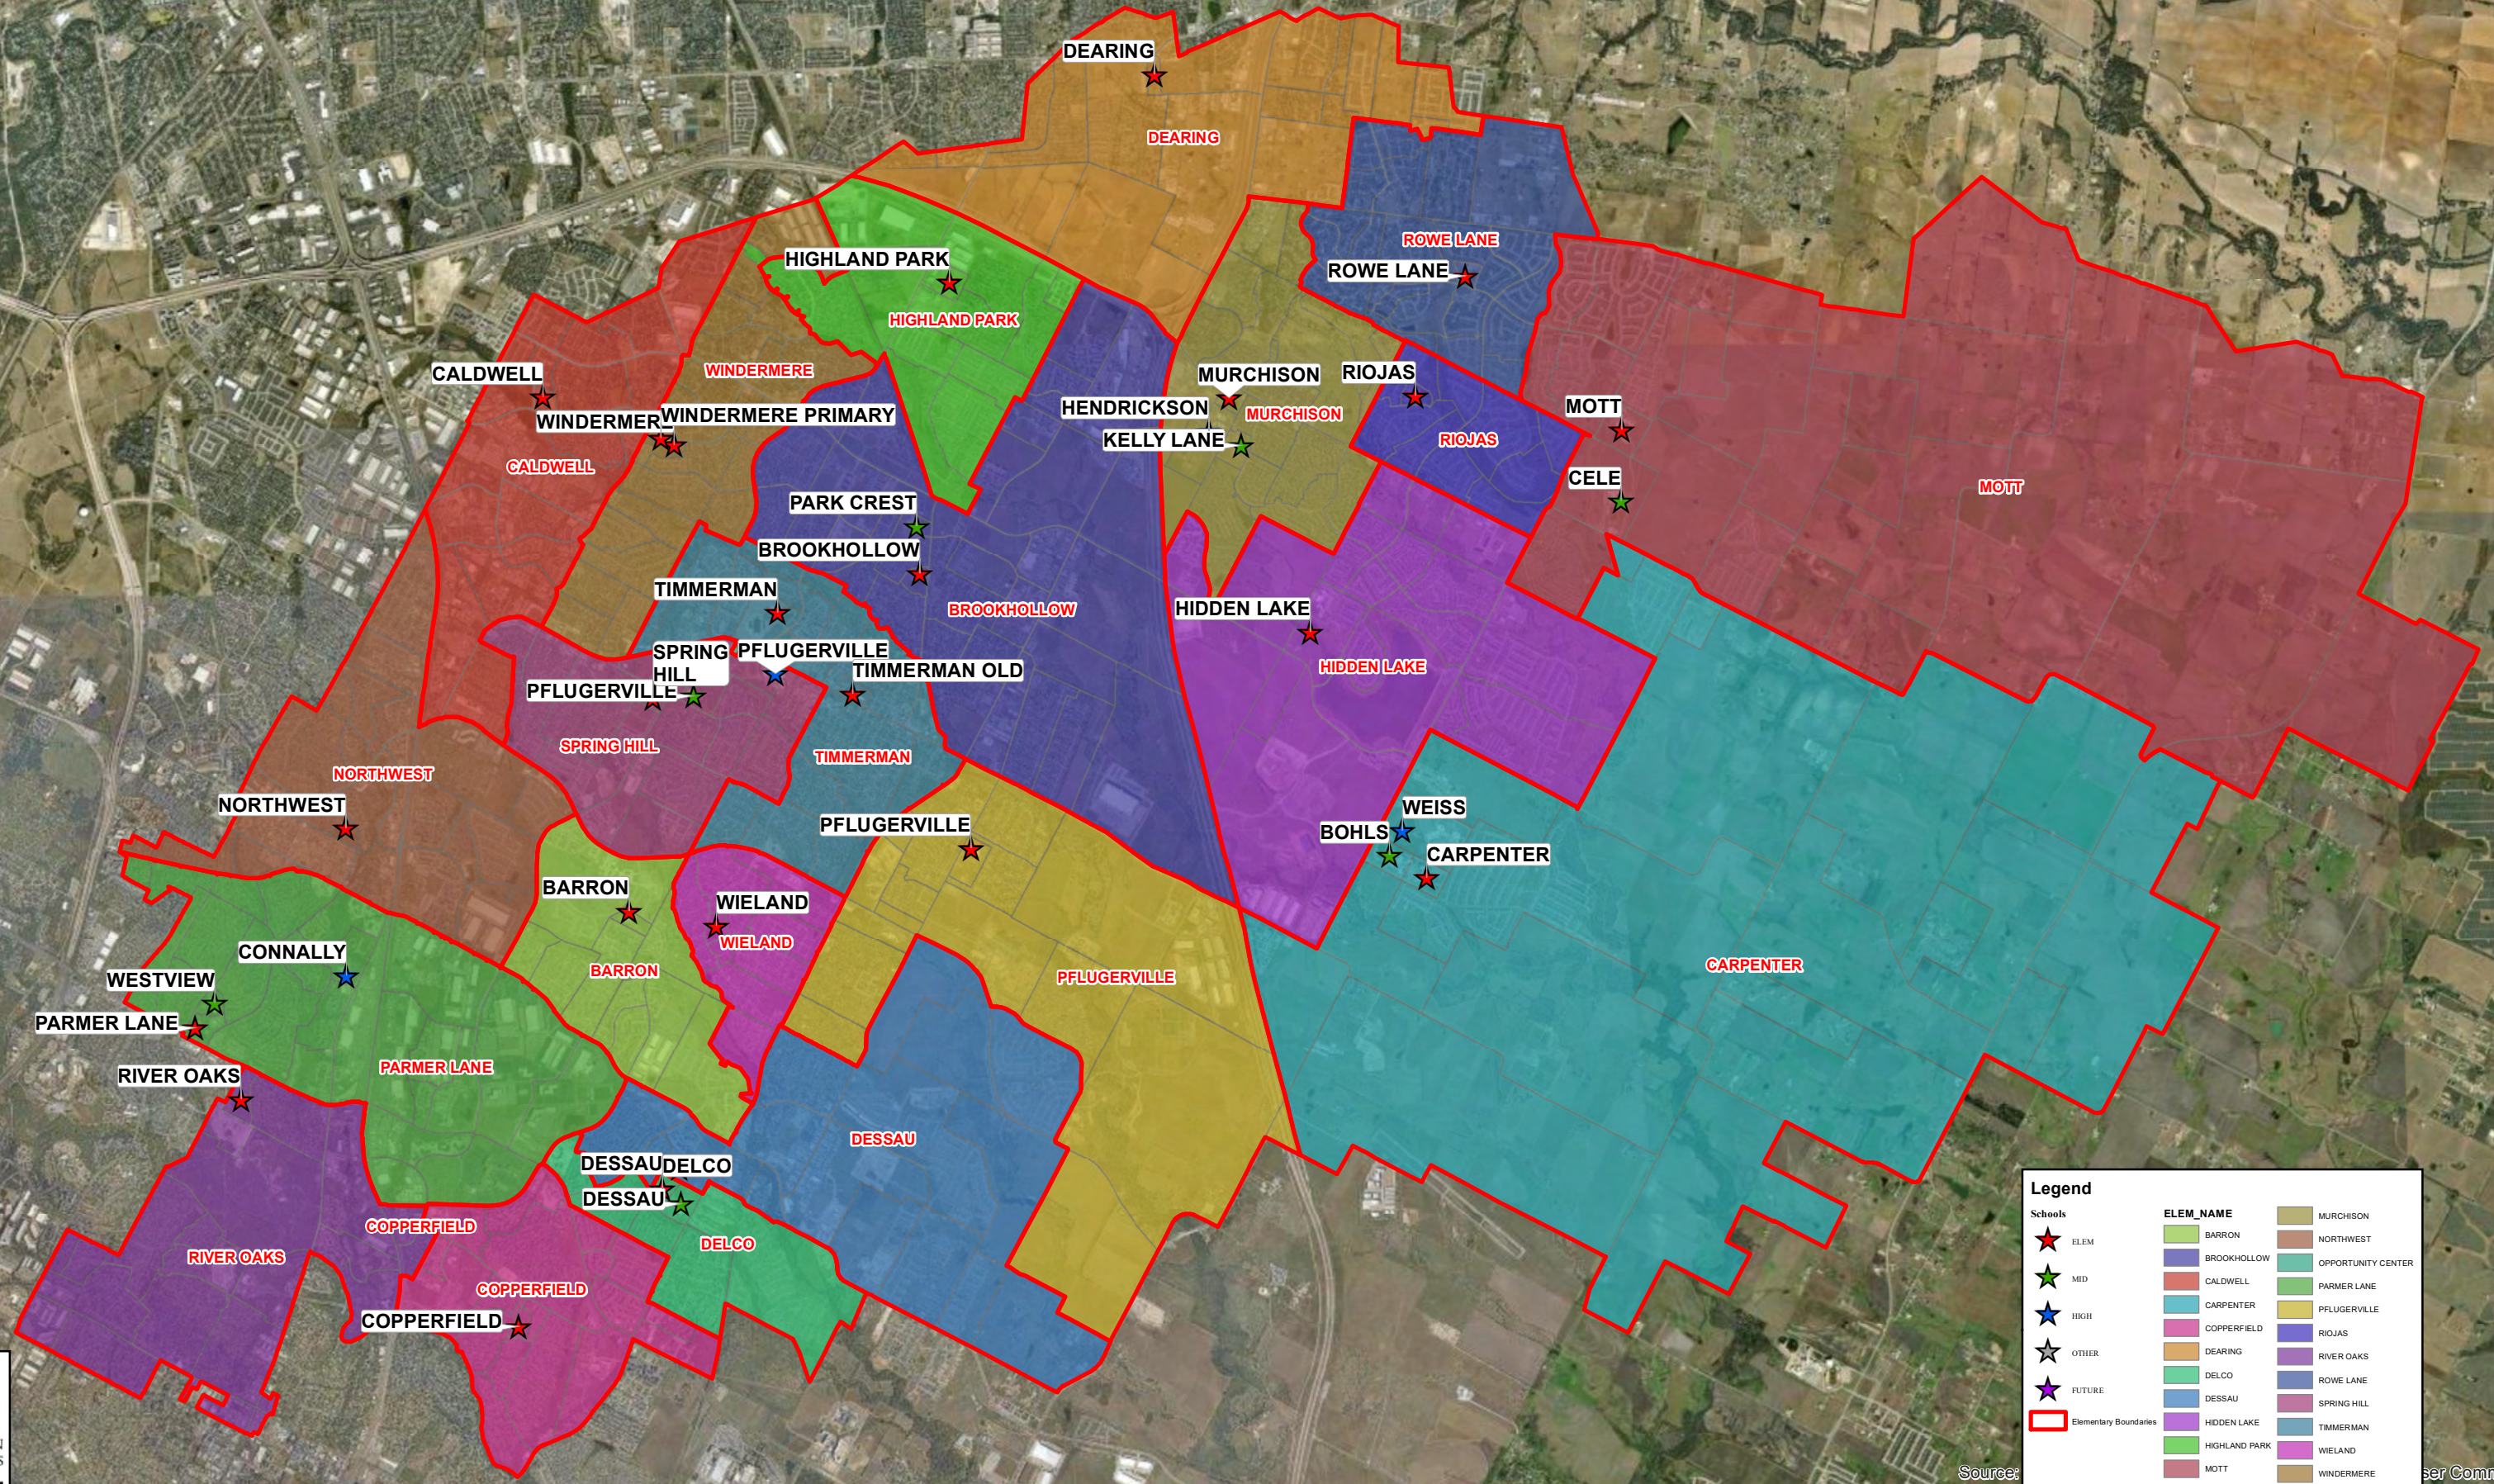

The realistic number of students a campus can serve, based on a physical walkthrough of the building. In Pflugerville ISD, we exclude rooms not used for homeroom instruction all day (art, music, computer lab, library, gym, special education rooms, and other small/non-classroom spaces), and applies class-size caps: K–4 capped at 22 students (TEC 25.112), Grade 5 capped at 25 students (PfISD).

The district aims for 85% capacity. This preserves space for special education, intervention, art, music, and other programmatic needs.

Elementary Campus Capacity Summary — District 2026

Campus	Established Capacity	Established Functional Capacity	Max Inst. Capacity (650+)	95%	90%	85%	Adjusted Max Inst. Capacity (K–84)
Brookhollow Elementary	750	713	737	700	663	626	654
Caldwell Elementary	800	760	890	846	801	757	777

Wieland	656	473	72.1%	WLES	207	31.6%	123	18.8%	Bilingual Campus

Notes

- Data Source: Demographer File January 2026. Bilingual and ODD added to enrollment count.
- Bilingual count reflects combined enrollment under program codes 043 (Transitional), 044 (Dual Language Two-Way), and 045 (Dual Language One-Way). The Bilingual Campus column is the feeder/service campus for those students.
- The Bilingual Status column reflects current bilingual-campus designation.
- Under Plan 5,
 - Attendance zones do not remain the same for all campuses that were not closed.
 - Northwest Bilingual program numbers are low. Boundary adjustment would be needed.

Notes

- Bilingual count reflects combined enrollment under program codes 043 (Transitional), 044 (Dual Language Two-Way), and 045 (Dual Language One-Way). The Bilingual Campus column is the feeder/service campus for those students.
- The Bilingual Status column reflects current bilingual-campus designation.
- Percentages reflect each figure's share of that campus's enrollment; not calculated for Out of District, where enrollment and count figures are not directly comparable.
- Under Plan 6,
 - Attendance zones remain the same for all campuses that were not closed.
 - Caldwell ES, Northwest ES, and Wieland ES are designated as Bilingual campuses.
