Thank You, Ottmar!

On July 3, 1886, in the composing room of the *New York Tribune* an historic event took place. Seated at the keyboard of his new machine, Ottmar Mergenthaler handed to Whitelaw Reid a slug of metal. Reid exclaimed, "It's a line-of-type!" Thus was christened the forerunner of today's modern line-casting machine: the Linotype.

Here at Portland Lithograph Company, this machine plays an important part in yearbook production and careful, accurate typesetting is always a leading factor for an outstanding annual.
