ABOUT ME

- This is my second year at IA and I love it!
- Previous experience was at a STEM Magnet School focusing on Research and Science Fair participation.
- I encourage students to leverage the project-based work that they have done at IA to compete Pinnacle Projects that reflect their passion and they can be proud of.

COURSE CONTENT

- The students are responsible for conducting and creating an original project that expresses their interests.
- This should leverage the work done in Pinnacle Prep, the skills gained in the Pathways, and the knowledge obtained in core classes.
- All content and instruction can be found on the class Canvas Page.

COURSE EXPECTATIONS

How to be successful

- Be curious
- Be creative
- Have a positive attitude

This is a course of individualized exploration. The expectation is that the student will seek knowledge and be able to convey this in a summative Pinnacle Project

COURSE SUPPORT

- Talk to your teacher in class
- Connect with experts in the school.
- Tutoring is available on Flex Friday mornings

If there is a need for support, please reach out.
We have student mentors and sources to help.
