Alumni: Log in to your SchooLinks Alumni Account

This article will show alumni how to log into their account for the first time after their student account has been rolled over.

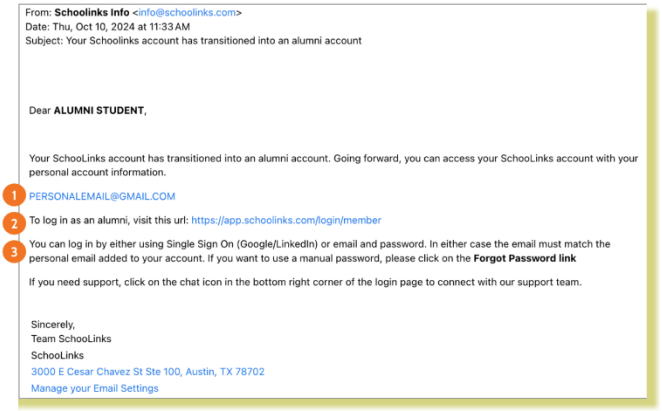

‼ The directions in this article are meant for students who used SchooLinks in high school and provided a personal email address before graduating to obtain alumni access to the platform.

If after following the directions below you **cannot** access your account, please **do not** create a member account, instead reach out to SchooLinks support via the chat bot in the bottom right hand corner of the SchooLinks login page OR by contacting support@schoolinks.com

One of the benefits of using SchooLinks in high school is that upon graduation your student account will be transitioned over to an Alumni account, providing you with lifetime access to the resume builder, career and opportunity search, and other post-secondary tools.

Once your student account is rolled over to alumni status, you will receive a welcome email from **info@schoolinks.com** containing information about how to access your alumni account. The email will include:

1. The personal email address you will use to access your alumni account,
2. a login URL, and
3. login directions.
