THE EDUCATIONAL SERVICES COMMISSION
of NEW JERSEY

A Message from the Educational Services Commission of New Jersey

Dear ESCNJ Community,

It is my pleasure to welcome you to the 2026-2027 school year!

This year is especially meaningful as we celebrate the 50th Anniversary of the Educational Services Commission of New Jersey. For five decades, ESCNJ has grown and evolved with the focus always remaining on creating opportunities for students, delivering innovative educational programs, and providing cost-saving purchasing opportunities for our members.

As we reflect on this milestone, we also look ahead with excitement and energy to continue building an even stronger future. This year, that includes:

- Our Adult Community Services Program moved into its own dedicated space on Park Avenue, a long-term goal that provides the adults we serve with a dedicated space that better meets their needs while creating opportunities to increase participation in the program among individuals and families from surrounding communities.
- The central office spaces are under renovation to make room for all of the ESCNJ Business Office Support Staff and Administration. Once the work is complete, it will allow classroom space to be returned to instructional programming, returning the valuable space to the students. This investment reflects our commitment to ensuring that every available square foot supports teaching and learning.
- At our Piscataway campus, we continue to modernize our facilities and learning environments. Construction will begin this fall on a multi-phase transformation of our playground and outdoor learning areas, creating fully accessible recreational spaces and outdoor classrooms that will provide engaging learning opportunities for students of all abilities.
- At the same time, we are making significant investments in our technology infrastructure to better support instruction, communication, and operations.

As we celebrate our past and embrace the future, I remain deeply grateful for the dedication of our teachers, aides, staff, administrators, and partners. Your passion makes a lasting difference in the lives of our students and families every day.

Thank you for everything you do to make ESCNJ a special place. Together, we will continue building on our proud legacy while creating new opportunities for the next generation of students.

I wish you all a wonderful and rewarding 2026-2027 school year!

Best regards,

Nadia Romano

The Academy Learning Center (ALC) provides specialized, classroom-based instruction that is aligned with the principles of applied behavior analysis, including verbal behavior techniques and compassionate care practices.

ALC offers two specialized programs that foster the delivery of intensive and individualized programming: The Program for Students with Autism, established in 1996; and the Program for Students with Multiple Disabilities, established in 1992.

With a low student-to-staff ratio, both programs emphasize the development of functional skills in language, academics, socialization and vocational areas, including community-based instruction. Staff strive to develop a collaborative partnership with families and home-service providers, emphasizing a consistent and supportive approach to each student's educational and behavioral needs.

Future Foundations Academy (FFA) is home to a new 55,000-square-foot, state-of-the-art facility. FFA offers academic, functional, and independence-driven instruction based upon the principles of applied behavior analysis, including verbal behavior techniques.

With a faculty led by board certified behavior analysts and comprised of BCBA candidates, registered behavior technicians, state certified structured learning experience staff, and job coaches, FFA focuses on middle and secondary-level students with a wide breadth of cognitive skills. Students receive intensive, individualized coursework with a minimum of a 2:1 student-to-staff ratio. FFA is committed to academic skill-building and behavior management strategies for students through small group instruction and related services based on each student’s individualized education plan. Along with core academic and curriculum offerings, students participate in STEM activities, hands-on culinary and horticultural experiences, vocational training, and physical fitness instruction.

The NuView Academy is a therapeutic school for students ages 5 - 21 with behavior challenges. NuView Academy offers a supportive school environment for students exhibiting severe symptoms or diagnosis of depression, attention deficit hyperactivity disorder, as well as conduct, thought, and anxiety disorders.

NuView Academy programming includes full-day educational services and onsite therapeutic services for students and their families. Rutgers University Behavioral Health Care administers the clinical services at NuView, including a full-time psychiatrist. Clinical services provide students with the support needed to address behaviors so they may succeed academically. Academic instruction at NuView Academy is delivered in a self-contained setting by certified educational staff, with a strong focus on individualized education plan goals.

The academic and clinical teams work in close collaboration to implement behavioral strategies that support each student's emotional and social development. This integrated approach ensures that students are better equipped to engage with and access their academic curriculum, fostering both personal growth and educational success.

(732) 777-9848,
Ext. 3220

Dr. Nandieta Itwaru,
Director

The Department of Nonpublic School Services supports students attending hundreds of nonpublic schools statewide. The department also manages programs made available through the federal government’s Individuals With Disabilities Act (IDEA). The Department of Nonpublic School Services is also responsible for the statewide support services received by charter schools.

All Nonpublic School Services employees and consultants are certified and professionally trained in their field, and regularly participate in professional development opportunities.
