

UNLOCK YOUR POTENTIAL

MAGNET & FUNDAMENTAL PROGRAMS

Pinellas County Schools' District Application Programs (DAP) offer families access to 89 magnet and fundamental programs designed to match students' unique interests, talents, and learning styles. Magnet programs provide innovative, theme-based learning experiences, such as STEM, arts, and world languages. Fundamental programs emphasize structure, academic rigor, and strong family involvement. Through these magnet and fundamental programs, families can choose schools across the district that best support their child's growth and future success. An online application and acceptance are required for any magnet or fundamental program.

MARK YOUR CALENDARS
