

Pharmacy Operations & Fundamentals

Amandeep Chann, M.D., B.S., CPhT, WFED

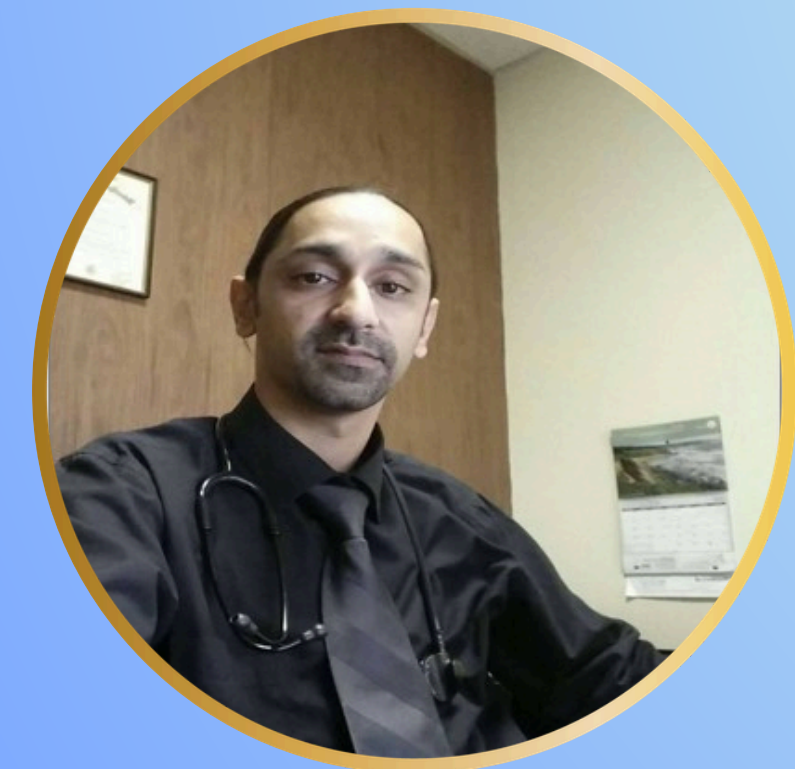

About Me

- **Education**

- Doctor of Medicine (M.D.)
 - B.S. in Biochemistry
 - Certified Pharmacy Technician (CPhT)
 - Certified BLS/CPR Instructor
- Second year teaching at IA
 - I enjoy bringing my healthcare experience into the classroom and giving students opportunities to learn through hands-on experiences.

Course Content

- **Students learn the foundational knowledge and skills needed to understand pharmacy operations and pharmacy professionals' roles.**

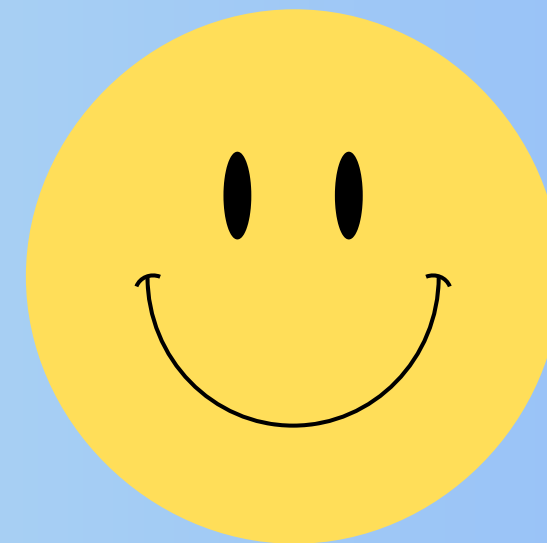

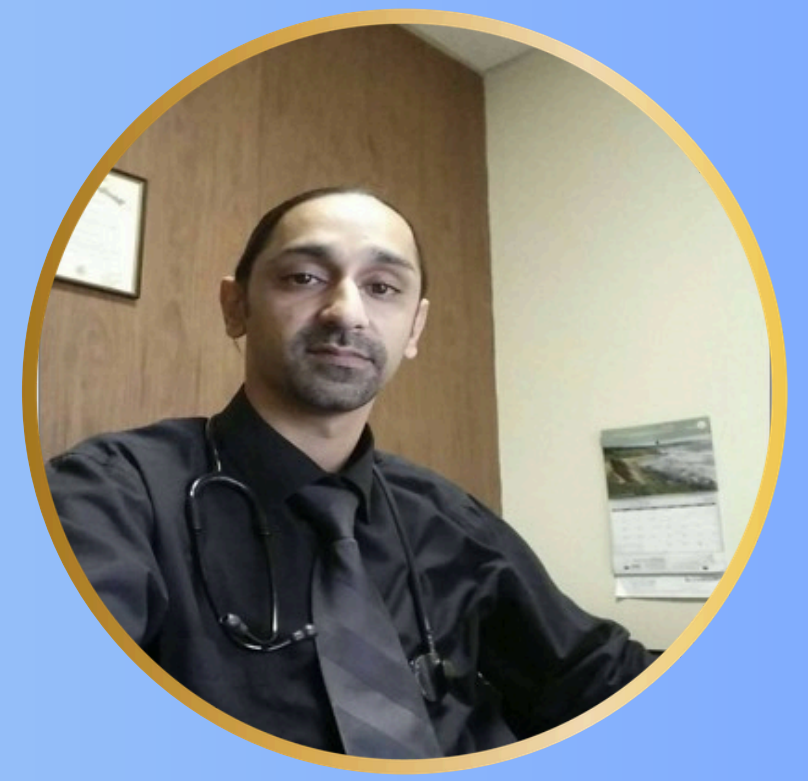

- **The course combines pharmaceutical science with hands-on practice in areas such as medication dispensing, calculations, compounding, and pharmacy law.**

- **Students will apply what they learn through skills practice, simulations, case studies, projects, and real-world pharmacy scenarios.**

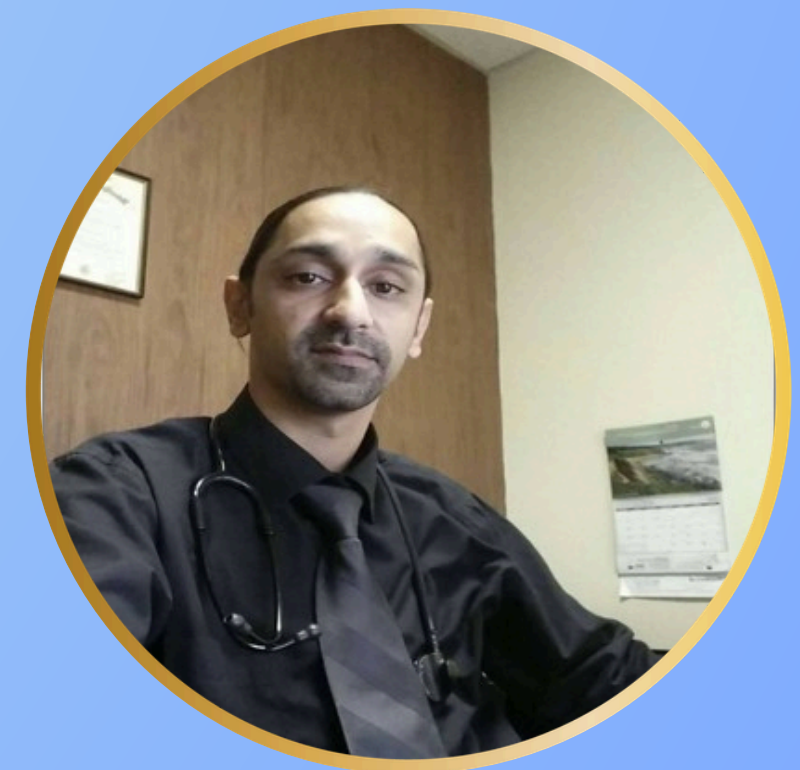

Course Expectations

- **Be engaged**
- **Actively participate**
- **Have a positive attitude!**
- ***This is a hands-on course where students build both knowledge and practice technical skills. Students must also complete their PharmaSeer coursework and apply what they learn in realistic pharmacy situations.***

Course Support

- **Communicate with me**
- **Tutorting is available on Flex Friday in the mornings**
- **If you need extra support, please reach out!**
