

GT UPDATES

Please note that this is the final application cycle in which HISD will accept previous GT identification for students who are no longer enrolled in or receiving GT services through HISD.

HISD no longer provides GT testing to students **who are not currently enrolled in an HISD school**. Therefore, if your child attends a non-HISD school and has not already been identified as GT, the student is not currently eligible for admission to CVHS.

Students who reside **outside HISD** boundaries and submit GT documentation from another district may apply; however, their applications will be placed at the end of the waitlist.
