McKenzie Keator	4	18
Eva Stockhauser	5	21

Total Students: 150

July 6 - August 6
8:00 am - 11:30 am
5 Weeks

<u>STAFF:</u>
10 Classroom Teaches
2.5 ELA Teachers
1.5 Math Teacher
3 TA's
1 Secretary
1 Nurse

Staff Feedback

1. Every one I work with is amazing. I feel supported by everyone. It is a laid back atmosphere, where learning occurs naturally.

2. This is my 3rd year teaching summer school and I have loved it so much each year. Kelly is so present and supportive! Everyone has great mindsets and is excited to be there.

3. It was another fun year! It is an amazing program and I look forward to give them more freedom to explore their interests while also making fun projects! I am grateful to be apart of the team!!

4. It was a great summer and I did not face any challenges this summer. I had a great group, and packed in a lot of learning in a short period of time.

5. Summer school is a great opportunity for students, and a great break from the grind of the school year. I feel everything went smoothly from bussing , to snacks, to academics, to behaviors. We are a well-oiled machine!!!!

Staff Feedback

1. One suggestions would be maybe holding the students for 15 minutes at the start of the day to allow for a small planning window.

2. I wish we could get in more swim time, but know the logistics would be difficult.”

3. I think it would be really fun to have a "carnival" day again!

4. Offered to new students entering the district and register at the end of June

5. “There is a lot of waste with the breakfast bags for the littles. Not sure how to solve, but is there any possible way to split up or somehow give choices?”

Parent Feedback

1. The opportunity. The schedule was great The laid back feel kept our child engaged as well as reminded her how much she truly enjoys school.
2. My boys got to be around friends they wouldn't normally get to see throughout the summer .
3. They looked forward to attending and enjoyed their classes and activities.
4. It all went well - from bussing to/from home, being with friends, having fun and staying active with learning through the summer. Swimming week was so fun!
5. The schedule, the love and support by the staff and the structure it provided. Everything!

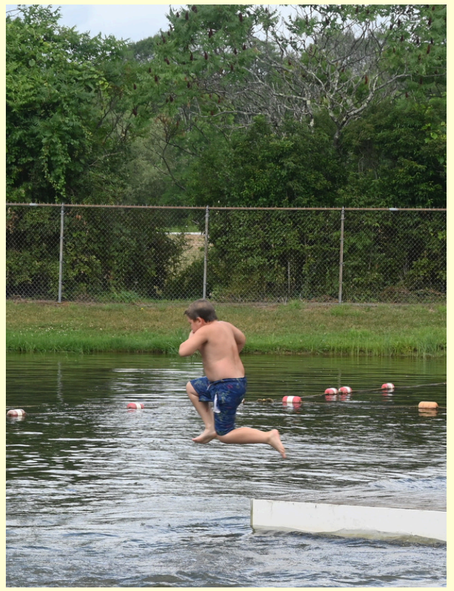

Parent Feedback

1. The hours this year were difficult to make work. The 11:30 dismissal being so early was a challenge and my child truly needed to go to keep up on skills and routine.
2. My children’s only complaints were the meals.
3. My child had a wonderful experience with the summer program.
4. My child loved the swimming program and fun activities between her math and reading skills. It broke up the day for her
5. Bridging academics to the next grade level

Thank You to Mr. Reilley and TTP for the Summer Swim Program

Student Feedback

It's all about the SMILES!!

More Student Feedback

A Very Special Thanks to:

~ Our Students and their Families
~ HPCSD Board of Education
~ HP Administrative Staff including Dr. Richard, Mr. DeAngelo, & Mr. Panuccio
~ Connected Community Schools: Sarah Smith and Michelle Smith
~ Sarah Vergis and the HPE Staff
~ Cliff Casab and the Cafeteria Staff
~ Chris Roberts, Robin Vienneau and the Transportation Staff
~ Ken Smith, Joe Bessmer and HPE Custodial Staff

This says it all.....

“The summer school program worked especially well because it balanced academics with engaging, hands-on activities. Students responded positively to structured routines, collaborative learning, and opportunities to build friendships. Weekly enrichment experiences, such as swimming, crafts, and outdoor games, helped keep students motivated while reinforcing social-emotional skills. The consistent schedule, supportive staff, and positive classroom environment encouraged student participation and growth throughout the program.”

~ Summer School Teacher

THANK YOU
