What is Career & Technical Education?

The key to a successful and productive society is found in maintaining a highly qualified, skilled, and educated workforce. Forbes Road CTC provides students the education and skills they need to be successfully employed and to advance to postsecondary education.

For high school students who desire a unique learning experience, Forbes Road CTC may be a great fit. Our career and technical education programs can prepare students for a job right out of high school, while students also complete their academic core requirements. Students can still play sports and go to any high school functions just like any other student, but we can help you get MORE out of your high school experience.

Over half of the jobs on the market today require technical training. According to the Bureau of Labor Statistics, over 50% of America's jobs require "Middle-Skills" (more than a high school diploma, but less than a 4-year degree), and over 30% of the jobs available require "High-Skills". Forbes Road CTC can help you attain these skills and obtain a career.

What we have to offer

Forbes Road CTC provides quality education that enables all individuals to achieve their fullest potential in pursuit of employment and/or educational skills. Our goal is to provide a variety of quality learning experiences, which will enable students to compete successfully in today’s workplace. We strive to equip students with experiences that will enable them to strengthen family foundations, positively influence the community, and participate as an enlightened and informed member of society. Forbes Road CTC provides many educational courses and programs that can help you obtain the certification and skills you need to move forward in today’s competitive job market.

Mission Statement

The mission of Forbes Road Career and Technology Center is to provide a quality educational program that enables all individuals to achieve their fullest potential in the pursuit of high skill employment and advanced education. Each student shall be equipped with the technical, academic, human relation, and life-long learning skills necessary to adapt in a changing economy and to compete in the global marketplace.

Nondiscrimination Policy

Forbes Road Career and Technology Center does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs or activities and provides equal access to the Boy Scouts and other designated youth groups. For information regarding civil rights, grievance procedures, or access, contact the Title IX Coordinator/Assistant Director at 607 Beatty Road, Monroeville, PA 15146 or 412-373-8100.

About Us

Our school was founded in 1959 to provide quality career and technical education to high school students and adults in our area which is east of Pittsburgh, PA in Allegheny County. For over six decades, our mission of providing students with the knowledge and skills needed to be successful in their chosen career remains the same.

Partner Schools

Allegheny Valley | East Allegheny | Franklin Regional | Gateway | Highlands | Penn Hills | Plum Borough | Riverview | WPSD | Wilkinsburg | Woodland Hills

All students in grades ten, eleven, and twelve from our partner schools can attend on a half-day basis. Interested students should fill out the online registration form.

NOCTI

NOCTI is the National Occupational Competency Testing Institute. Senior completer students must take the comprehensive exam during the spring of their senior year. The test has two components, a performance and technical assessment. Students must successfully complete both parts in order to receive a PA Skills Certificate and be a Program Completer

National Technical Honor Society

The National Technical Honor Society is an educational non-profit that exists to honor, recognize, and empower students and teachers in Career & Technical Education. As the honor society for Career & Technical Education, NTHS serves over 100,000 active members annually in both secondary and postsecondary chapters across the country.

Free College Credits

Increasing numbers of high school technical courses are linked to two-year college programs. These programs can give you a head start on college and prepare you for jobs offering some of the greatest career opportunities for the future.

Articulation Agreement/SOAR

A Career and Technical Education (CTE) Articulation Agreement is an agreement written between two institutions that permit skills and tasks learned at one institution (in this case, Forbes Road Career and Technology Center, which offers the PDE Approved SOAR Program) to be accepted and applied toward a degree or certificate at a postsecondary institution. Statewide articulation occurs when a specific Perkins Allocated Postsecondary Institution agrees to award college credit opportunities to any qualifying graduate of a PDE approved secondary school offering the SOAR Programs of Study across the entire Commonwealth of Pennsylvania, hence a statewide articulation.

For Eligibility Requirements, students must:

- Earn a high school diploma, achieve a minimum 2.5 GPA in the technical courses and complete the secondary school component of the approved PDE Program of Study
- Achieve competent or advanced level on the Secondary School end-of-program assessment that is appropriate to the approved PDE Program of Study.
- Achieve proficiency on all of the approved PDE Program of Study Secondary Competency Task List
- Furnish documentation to Postsecondary Institution upon written request.

In addition, FRCTC has a number of direct college credit articulation agreements with many post-secondary institutions.

Resources

Forbes Road CTC has two Resource Rooms that are staffed by certified special education teachers. Any student that needs help with their academic and /or technical work can go to the Resource Room for help. The staff also provides accommodations for testing.

Student Assistant Program (SAP)

The Student Assistance Program at FRCTC helps to identify students who are experiencing problems that are interfering with their success. The SAP team helps students remove barriers that may be interfering with schoolwork and their overall wellbeing. The SAP team consists of general ed teachers, special ed teachers, counselors, administrators, and outside agencies. Students can be referred to the SAP team through someone at school, families, friends, or students can refer themselves! Negative symptoms that could lead to a SAP referral include: poor academic performance, showing disinterest in school, poor attendance, mental/emotional distress, loss of a loved one, trouble with the law and/or drug/alcohol use. To make a referral to our Student Assistance Team or for more information, please contact Dr. Megan Tomley, Student Services Coordinator at 412-373-8100 x221.

School to Work

100% of students can gain real-world experience while in high school through Co-Ops, Job Shadows, Internships, and Apprenticeships.

Cooperative Education (Co-Op)

This is a method of instruction of technical education for individuals who, through written cooperative arrangements (Training Agreement and Training Plan)between the schools (FRCTC and home school), employers, parents/guardians, and the students. Students will “cap off” their training and receive instruction by integrating academic and technical instruction with job training in their career field. The paid training experience must be planned and supervised by Forbes Road CTC and employers to enhance the students’ education and employability. Students will attend their home school for academics Monday-Friday in the am. During the PM, students will attend FRCTC Monday-Tuesday-Friday and work Wednesday-Thursday.
Academics: Students must take the required academic classes through their home school.

Internships

Eleventh and twelfth-grade students in our technical programs may have the opportunity to be involved with various local employers at an off-campus worksite. An Internship is a maximum of one-semester unpaid work experience.

Job Shadow

Tenth and eleventh-grade students are highly encouraged to spend one to three days total, at a worksite directly related to their chosen career and technical field. The purposes of such visitations are to gain insight into the real-world of work. These first-hand experiences provide the tools, products, and talents of personnel within their desired career pathway through the sponsoring business.

Student Organizations

Students that join Student Organizations have the opportunity to participate in any or all of the following as it pertains to their technical class.

SkillsUSA is a student organization that is very active at Forbes. It is a national student organization solely for students in technical, skilled, and service careers. Students involved in SkillsUSA develop technical, academic, employability and leadership skills. Students get involved in community service projects, competitions, leadership conferences and fundraisers.

FBLA (Future Business Leaders of America) is the largest business career student organization in the world. Students at Forbes who have an interest in business, computers, public speaking and leadership FBLA can participate in career activities, competitions, community service, and leadership conferences.

BAMP (Builders Association of Metropolitan Pittsburgh) is an organization for the students in the construction cluster. This organization provides students with opportunities to get involved with professionals in the industry and exposes them to hands-on experiences they would otherwise not encounter.

ADVERTISING DESIGN

CIP Code: 50.0402 **CIP Code Name**: Commercial & Advertising Art
Instructor: Brandon Jennings **Email:** brandonj@forbesroad.com **Phone:** 412-373-8100 ext 269

The field of advertising and commercial art requires a person who possesses a wide range of creative skills. The curriculum includes the foundation for all creative/design fields. Today's graphic designer must be familiar with many forms of production, illustrative techniques, desktop publishing, and photography. From simple line drawings to computer-generated imaging, the students create art that requires them to apply technical theory to an advertising agency. Students apply the design principles to create a variety of products and printed materials on state-of-the-art equipment including digital printers, laser engravers, vinyl cutters, a sublimation system, and embroidery machines to reach and compel the target audience to purchase products and services.

ASPIRING EDUCATORS

CIP Code: 13.0101 **CIP Code Name**: Education, General

Instructor: Ms. Cherie O'Neal **Email:** cherieo@forbesroad.com **Phone:** 412-373-8100 ext. 285

This program is geared toward students interested in becoming educators, preparing them for a career at the elementary and/or secondary school building levels. This course facilitates teaching candidates the ability to apply leadership, ethics, communication, and decision-making skills from various settings to contemporary challenges in building-level educational situations. It also serves as the platform that initiates development by planning lessons based on national and state teaching standards and the program task list outlined by the Pennsylvania Department of Education. Relevant and contemporary educational literature will be used to accomplish course goals and frame our classes.

Courses of Study

Orientation to the Education Profession
Planning & Preparation
Learning Environment & Classroom Management
Human Growth & Development
Clinical Experience
Culturally Relevant & Sustaining Education & Inclusion
Professionalism, Ethics & Reflective Practice

AUTO BODY REPAIR TECHNOLOGY

CIP Code: 47.0603 **CIP Code Name**: Auto Body/Collision Repair Technology/Technician

Instructor: Josh Krentz **Email:** joshk@forbesroad.com **Phone:** 412-373-8100 ext 239

The Auto Body Repair Technology program provides the skills necessary to transform a wrecked vehicle into a masterpiece. Students receive instruction with state of the art equipment for replacing or repairing auto body parts. Students personalize and customize vehicles by learning refinishing/painting techniques. Today's auto body technicians must be trained in the construction of the automobile body and framework. Automobile production uses materials and manufacturing techniques that demand that the auto body repair technician be competent in metalworking, welding, uni-body construction, surface preparation, spray painting, and accurate repair estimating. Students use safe and modern repair equipment in all phases of their training.

Courses of Study

Dent Repair/Removal
Collision Related Detailing
Replacement of Body and Trim
Refinishing/Painting
Structural Repair, Basic
Mechanical Repair, Basic
Estimating/ I-CAR
Welding Procedures
Diagnosing Collision Damage
Corrosion Protection
Vehicle Surface Protection

DIESEL TECHNOLOGY

CIP Code: 47.0613 **CIP Code Name**: Medium/Heavy Vehicle & Truck Technology/Technicians

Instructor: Dominic DeLuca **Email:** dominicd@forbesroad.com **Phone:** 412-373-8100 ext 290

Diesel technology is part of virtually every aspect of today's transportation, construction, and manufacturing industries. Oil rigs, power plants, hydraulic systems, cargo ships, locomotives, construction vehicles, farming equipment, mining equipment and diesel trucks – most of these vehicles are powered by diesel engines. Students are trained in the repair and servicing of diesel-powered equipment. Emphasis is placed on the needs of local business and industry. Skills are enhanced by "hands-on" work involving actual maintenance of school owned vehicles and equipment. While the emphasis is on diesel engines, gasoline powered equipment and vehicles are also included as part of the program.

Courses of Study

Orientation & Safety
Tools & Fasteners/Hardware
Suspension & Steering Systems
Preventative Maintenance
Air Brake Systems
Diesel Engines
Air Intake & Exhaust Systems
Cooling & Lube Systems
Fuel Injection System
Electrical/Electronic System
Drive Line
Welding Basics

EARLY CHILDHOOD EDUCATION

CIP Code: 19.0708 **CIP Code Name**: Childcare & Support Service Management

Instructor: TBD **Email:** TBD@forbesroad.com **Phone:** 412-373-8100

Early Childcare Education encompasses all phases of early childhood development including physical, social, emotional, and intellectual. The curriculum also includes nutrition, guidance, discipline, the value of play, and the science of child development. Participants receive practical experience at local daycares in the community.
Students study all the phases of child development.
They study how to help the child develop daily living skills and about the value of play, literature, music, art, math, and science in child development.

HEALTH SCIENCE TECHNOLOGY

CIP Code: 51.0899 **CIP Code Name**: Health/Medical Assisting Services Other

Instructor: Patrice Cormier **Email:** particec@forbesroad.com **Phone:** 412-373-8100 ext 194
Instructor: Darren Stenger **Email:** darrens@forbesroad.com **Phone:** 412-373-8100 ext 292

With today's fast-growing medical profession, now is a great time to consider a career in health. This program will assist in getting a jump start in a financially rewarding health career, and give you an edge in your post-secondary health field studies. Health Science provides students with the hands-on training necessary to offer care to patients while working alongside other qualified health care professionals. Students explore multiple content areas including basic nursing skills, anatomy & physiology, and medical terminology. Many Forbes Road students continue their education and pursue careers in Medical Assisting, Nursing, Radiology, Physical Therapy, Occupational Therapy, and various Medical Office areas.
