Assessments

The Student Lexile Scores chart displays the student's Lexile score achieved on the CRCT/CRCT-M in Reading, the Milestones End-of-Grade test in ELA, and the End-of-Course test in 9th Grade Literature and American Literature, as compared to the stretch Lexile range for that grade level.

The Assessment Scores section displays all of the student's statewide summative assessments, including retests. Assessments are listed in descending order by administration date.

**A single assessment tells you about one point in time.
Your student's history can help you see how learning and
progress develop over the years.**
