ELO Descriptions:

ELO Name	Description
Choir	Students build literacy skills as they apply to music, and participate in school and community performances to showcase Madison.
Drama Club	A fun, creative space where students write and perform their own sketches and plays. Theater games, improvisation, and group activities build teamwork, communication, and confidence speaking in front of others.
Organization, Planning & Study Skills	Helps students organize their backpack, binder, and folders, manage their planner, and build time-management and study skills before diving into homework. Supplies provided; homework help also available.
Gaming Club	Supports numeracy through counting resources, tracking scores, managing time, and calculating strategy, and builds literacy through reading rules, discussion, and collaboration during gameplay.
Hot Cocoa Club	A casual space for students to get help completing assignments in any subject.
Math Tutoring	Extra help in math for students in grades 6-8.
Basketball Conditioning	Students build basketball skills and conditioning, gaining confidence and measurable improvement ahead of team tryouts. Open to all 6th-8th grade boys and girls.
Breakfast Club / Homework Club	A morning space to get help with homework or classwork, make connections, finish assignments, and keep up with grades.
Crochet Club	Students learn basic crochet skills while building numeracy (counting stitches, measuring yarn, recognizing patterns) and literacy (reading instructions, new vocabulary).
Tutoring — All Subjects	Individualized and small-group academic support across ELA, math, science, and social studies to strengthen foundational skills and build confidence.
Craft & Crochet Club	Builds literacy through reading and interpreting patterns and following multi-step directions, and numeracy through counting, measuring, and sequencing while creating projects.
MBC Rehearsal	Students finalize scripts, set up cameras and equipment, and run a full dress rehearsal for the MBC show.
Creative Corner	Hands-on creative activities (slime, fidgets, diamond art, painting) build reasoning, spatial awareness, and creativity, plus numeracy (measuring, counting, patterns) and literacy (following directions, reflecting on work).
Math Tutoring (PM)	Extra help in math for students in grades 6-8.
Cheer	Fitness and fun — students cheer for Madison flag football.

ELO Name	Description
STEM Lab	A hands-on STEM lab exploring physics, astronomy, engineering, and robotics through challenges and collaborative projects, reinforcing numeracy (measurement, data, graphing) and literacy (technical reading, academic vocabulary).
Lego Robotics	Using LEGO Spike Prime kits, students analyze challenges and build and program robots, applying calculations and measurements.
Self-Care Club	Students practice literacy through journaling and discussion, and numeracy through counting, patterns, and measuring during hands-on self-care activities like mindfulness coloring and bracelet making.
Hasley & Mills Tutoring	Academic tutoring building literacy (reading comprehension, vocabulary, writing) and numeracy (problem-solving, reasoning, calculations) to support success across subjects.
Homework Help	A quiet place to focus and get work done, with support available for anything students are working on.
Crochet Club & Games Club	Builds manual dexterity, reading and following complex directions, and math skills through stitch counting, while game challenges build logical thinking and problem-solving.
Study Hall	A quiet space to catch up on homework and get help with classes — open to all grades and subjects.
Cricut Club	Come to Cricut Club to make items like stickers, tumblers, holiday cards or gifts for family and friends, clothing items, jewelry and many other projects! This course will help to develop digital literacy and familiarity with the Cricut Design Space software, as well as utilizing geometry when determining the size of the items being cut out. Additionally, if a student is interested, they can receive support in learning the skills to start a small business selling items made with Cricut machines and assist them in starting an Etsy shop. This will begin 9/9.
Ballet Folklorico	Come learn the traditional folk dance with students at various levels. It,s fun, great exercise and culturally rich!
