Construction across the district continues to move forward steadily.

CTE Project

At CHS, the CTE project is progressing with stormwater work underway near 55th Street.

Roofing Projects

Our “FANO” (Freeman / Nelson) roofing projects remain on schedule, with Freeman expected to be completed in mid-September and Nelson by late September.

At Oatville, roofing is planned to begin at the end of September, while larger long-term roofing work at CHS is being planned for the summer 2027 through early 2028.

Interior Renovations

Interior renovations are also progressing. Flooring work is underway at CHS, with B Hall and storm shelter flooring work being completed during the school closure over the next few days.

Wall tile and locker room renovations are moving forward, and are on schedule.

At Nelson Elementary, restroom designs are being revised to improve functionality.

Athletics and playground projects are in the planning and design stages, and the Freeman kitchen renovation is being developed.

Overall, projects remain active and are continuing to move forward with a focus on safety, budget, scheduling, and minimizing disruption to students and staff.
