

OKCPS RISK MANAGEMENT

Treatment of Work-Related Injuries

Below is a list of approved medical facilities that treat employees who have incurred an injury. Risk Mgmt will notify the employee of which facility they will be sent to.

For non-emergency injuries occurring during normal working hours, the supervisor and injured employee will need to complete the employee injury & illness report and contact the Risk Management Office at 405 -587-0833. If authorized, the employee will be sent to one of the facilities listed below for treatment. The facility can be contacted directly for directions if needed. After treatment, injured employees cannot return to work without a medical release; a copy of the release must be forwarded to Risk Management.
