Spring Legacy Event Activity

During meeting 2, campus tables were asked to generate ideas for planning the spring legacy event at their campus. The idea was to allow each campus to brainstorm and plan for their individual campus events, share their work with the larger group and look for similarities between the 4 campus events. These similarities would lead to a proposal from the committee to cabinet members regarding a spring legacy event. The similarities were captured on the slide presentation. Below is the brainstorm for each campus.

PES Spring Legacy Event
