Stackshot Studios

Dear Parents and Guardians,

Your student athlete's photos are almost ready to view!

📱 How to Register Using the QR Code

Step 1 — Scan the QR Code
At your child's photo session, they will be provided with a **QR code**. Using your smartphone camera, simply point your camera at the QR code.

A notification or link should appear on your screen. Tap the link to open the registration page.

Step 2 — Register
Once the page opens, follow the prompts to register. You are simply connecting your email to your child's personal viewing gallery.

Please make sure the information is entered correctly. This is the only way we can communicate with you once the photos are ready.

That's it! Your child's viewing gallery will be connected to your email so you can easily access them once the gallery is available.

📸 When Photos Are Ready

Once your photos have been processed and published, you will receive an email from us (**STACKSHOT STUDIOS**) with instructions for accessing your child's gallery.

From there, you will be able to view the available images and select the photos or packages you would like to purchase.

⚠️ Important

Please **register only once for your child**. If you have multiple children participating, each child should be registered separately.

If you have any questions or have trouble registering, please contact us and we'll be happy to help.

Thank you for allowing us to capture these special moments of your student athlete!

Best,

Chuck Stack
