Introduction to the Puyallup School District Fee and Price Schedule

The Puyallup School District ("District") is committed to ensuring its facilities are available for community use while safeguarding public education funds. In accordance with **District Policy 4260**, district facilities are publicly owned and maintained for the benefit of our patrons. Community access is encouraged, provided that use does not divert resources from educational purposes.

General Principles

- School facilities may not be used for private gain without charge, regardless of purpose.
- Certificated staff may use facilities without cost when activities enhance or extend the regular school program.
- Activities must not interfere with the building's school schedule, and final approval rests with the building principal in consultation with district administration.
- The Superintendent sets rental rates, supervision, restrictions, and security requirements.
- All users must maintain appropriate accident and liability insurance.
- Community athletics programs must comply with non-discrimination laws.

Scheduling & Agreements

- District-sponsored activities always have first priority.
- Scheduling priority follows class order (A through E), then by application date.
- No group is granted perpetual use; agreements are limited to two years and require reapplication.
- The district may cancel agreements with 30 days' notice.
- Facility use does not imply district endorsement of the group or activity.
- Special board-approved agreements may be made for programs benefiting students and families, such as before/after-school care or community health services.

Facility User Classifications & Priorities:

Class A: Non-profit organizations whose purpose is solely to support the District. To qualify for use of a district facility at no rental cost, the facility use must be for the organization itself and its own activities, not the unrelated activities of individual members of such organizations and not for events or activities of third parties affiliated with, promoted by, or sponsored by the organization. This group includes parent-teacher organizations, school booster clubs, WIAA district, league and state tournaments, associated student body, Communities in Schools, staff unions/associations, school site councils, and district convened advisory groups or committees, professional development for district staff which is managed by district staff.

Class B: Local youth non-profit groups with 90% or more participation from students residing within District boundaries. These are social, recreational and athletic groups. This group includes, but is not limited to, local youth athletic teams, Girl and Boy Scout groups, Campfire, 4H Club, YMCA and YWCA and religious related youth groups.

Class C: Local youth non-profit groups with less than 90% or more participation from students residing within District boundaries. These are social, recreational and athletic groups. Examples include, but are not limited to, area (select) or traveling youth teams/clubs and other private/public school districts.

Class D: Community betterment groups, public agencies or other local groups formed to address community issues, and post-secondary institutions and community organizations: (cultural, political, sectarian, adult/social recreation clubs or teams, HOA organizations, community clubs, religious and other adult non-profit organizations).

Class E: Commercial or profit-making groups shall include all other groups or individuals not defined as Class A, Class B, Class C, or Class D users.

For more information on student fees, fines or charges please refer to District Policy 3520 & 3520 R
