Help is there when your student needs it – no appointment

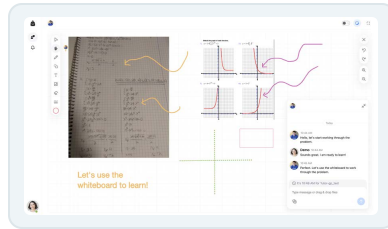

Every GRAVA student can reach a live tutor from inside their course, at no cost to your family. Imagine Learning's tutors work one-on-one with your student through a secure chat and a shared whiteboard – right on the activity they are stuck on, in the moment they are stuck on it.

HOW YOUR STUDENT GETS HELP

1 FIND THE BUTTON

6–12: the button sits in the bottom-right of the screen inside an activity. **K–5:** scroll down the feed page to find it.

2 START CHATTING

A tutor answers and helps with the activity your student is working on. They may open a whiteboard to work through it together.

WHAT TUTORS CAN HELP WITH

- **K–5** – math, English language arts, science, and social studies
- **6–12** – the same four, plus French and Spanish (weekdays only)
- National test preparation courses

Tutors are subject-matter experts who work through the concept together with your student, using a shared whiteboard when it helps. Past chats stay saved, so your student can re-read a session later to review what they learned.

See it before you need it

A short demonstration video shows exactly what a tutoring session looks like. Watch it on our tutoring page:
