

Get on ParentSquare

It takes about five minutes — please do it today

This is how GRAVA reaches you, and how you reach us

GRAND RAPIDS AREA
Virtual Academy
Resilience ♦ Readiness ♦ Excellence

ParentSquare is how GRAVA, the district, and your building reach you — announcements, attendance notices, schedule changes, and school news. If you are not registered, you are not getting any of it. Please take five minutes and set it up.

HOW TO REGISTER

- 1 Go to parentsquare.com/signin
- 2 Choose **Register** — not Sign In. This is the step most people miss.
- 3 Use **the email address or phone number the school already has on file for you**. That is what connects you to your student automatically.
- 4 Download the **ParentSquare** app and **turn notifications on**.

If registering doesn't work

It almost always means the email or phone number you tried is not the one we have on file. **Call the GRAVA office at 218-327-5700, option 6** and we will check your contact information and get you in. Please don't just give up on it — this is the one thing that keeps you connected all year.

WHAT PARENTSQUARE IS FOR

- School, building, and **district announcements**
- **Attendance notices** and schedule information
- **Replying back** — you can answer right in ParentSquare
- **Reporting an absence** without having to call
- Reminders and important dates

Students have their own app **GRADES 6-12**

Middle and high school students get **StudentSquare** — the same school, building, and district news, sent straight to them. It does not come to your account, so please make sure your student downloads it and turns notifications on.

TEACHERS ARE NOT HERE

All messages to and from teachers happen in the Learning Portal — the Imagine Learning Virtual Portal, where your student's courses live.

For anything about a teacher or a class — assignments, due dates, grades, feedback, or messaging the teacher yourself — use your own **guardian account** in the portal.

grava.isd318.org/families/guardian-portal

ParentSquare is the school talking to you. The Learning Portal is your teacher. You want both.

We would rather help than have you miss something

If any part of this is confusing, call us. We will walk through it on the phone. Five-minute fix, matters all year.
