BULLYING- FREEDOM FROM BULLYING AND CYBERBULLYING

TLPS prohibits bullying as defined by this section, as well as retaliation against anyone involved in the complaint process.

Bullying is defined as a single significant act or a pattern of acts by one (1) or more students directed at another student that exploits an imbalance of power and involves engaging in written or verbal expression, expression through electronic means, or physical conduct that:

- Has the effect or will have the effect of physically harming a student, damaging a student's property, or placing a student in reasonable harm to the student's person or of damage to the student's property;
- Is sufficiently severe, persistent, or pervasive enough that the action or threat creates an intimidating, threatening, or abusive educational environment for a student; or
- Materially and substantially disrupts the educational process or the orderly operation of a classroom or the School; or
- Infringes on the rights of the victim at school.

Cyberbullying is defined as bullying that is done through the use of any electronic communication device, including through the use of a cellular or other type of telephone, a computer, a camera, electronic mail, instant messaging, text messaging, a social media application, an Internet website, or any other Internet-based communication tool.

The school's bullying policy applies to:

- Bullying that occurs on or is delivered to school property or to the site of a school sponsored or school-related activity on or off school property;
- Bullying that occurs on a publicly or privately owned school bus or vehicle being used for transportation

of students to or from school or a school-sponsored or school-related activity; and

- Cyberbullying that occurs off school property or outside of a school-sponsored or school-related activity if the cyberbullying:

- o Interferes with a student's educational opportunities; or

- o Substantially disrupts the orderly operation of a classroom, school, or school sponsored or school-related activity.

Reporting Procedures

Any student that believes that he or she has experienced any form of bullying or believes that another student has experienced bullying should immediately report the alleged acts to a campus administrator, a teacher, counselor, or other school employee. A report may be made orally or in writing, and may be submitted anonymously. Any school employee that receives notice that a student has or may have experienced bullying shall immediately notify the principal or assistant principal. The principal or assistant principal will notify the victim, the student who engaged in bullying, and any student witnesses of available counseling options.

The principal or assistant principal shall provide notice of incident of alleged bullying to:

- A parent or guardian of the alleged victim on or before the third business day after the date the incident is reported; and
- A parent or guardian of the alleged bully within a reasonable amount of time after the incident

Students and parents will be given information about an anonymous reporting system (Stopit) where they can report threats and behaviors that are concerning to them.

Investigation of Report

The principal or assistant principal shall determine whether the allegations in the report, if proven, would constitute prohibited harassment and, if so, proceed under the harassment policy instead. The principal or assistant principal shall conduct an appropriate investigation based on the allegations in the report, and shall take prompt interim action calculated to prevent bullying during the course of an investigation, if appropriate.

The principal or assistant principal shall prepare a written report of the investigation, including a determination of whether bullying occurred. If the results of an investigation indicate that bullying occurred, the school shall promptly respond by taking appropriate disciplinary or corrective action reasonably calculated to address the conduct in accordance with the Student Code of Conduct. TLPS may take action based on the results of an investigation, even if the school concludes that the conduct did not rise to the level of bullying under this policy.

Discipline for bullying of a student with disabilities shall comply with applicable requirements under federal law, including the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 et seq.). TLPS may not impose discipline on a student who,

after an investigation, is found to be a victim of bullying, based on that student's use of reasonable self-defense in response to the bullying.

The principal, or the assistant principal, may make a report to the police department of the municipality in which the school is located or, if the school is not in a municipality, the sheriff of the county in which the school is located if, after an investigation is completed, the principal or assistant principal has reasonable grounds to believe that a student engaged in conduct that constitutes an offense under Section 22.01 (Assault) or 42.07(a)(7) (Harassment), Texas Penal Code.

Confidentiality

To the greatest extent possible, TLPS shall respect the privacy of the complainant, persons against whom a report is filed, and witnesses. Limited disclosures may be necessary to conduct a thorough investigation.

Appeal

A student or parent/guardian who is dissatisfied with the outcome of the investigation may appeal through the TLPS grievance procedure.

Health Screenings

Physical Fitness Assessment: TLPS shall annually assess the physical fitness of students in grades 3 or higher using an assessment instrument adopted by the Commissioner of Education. TLPS is not required to assess a student for whom, as a result of disability or other condition identified by rule, the assessment instrument is inappropriate. Individual student results are confidential.

Vision and Hearing Screenings: As soon as possible after admission and within the period set by the executive commissioner of the Texas Health and Human Services Commission, a student required to be screened shall undergo approved screening for vision and hearing disorders and any other special senses and communication disorders specified by the Texas Department of State Health Services (TDSHS).

Children enrolled in prekindergarten and kindergarten must be screened each year within 120 days of enrollment. Children enrolled in the first, third, fifth, and seventh grades must receive vision and hearing screening in each of those grade years.

Spinal Screening: Students will be screened for abnormal spinal curvature in accordance with TDSHS rules. Parents will be notified of the results of any abnormal screening.

Acanthosis Nigricans Screening: Students will be screened for acanthosis nigricans (a skin marker associated with high insulin levels and risk for type 2 diabetes) in accordance with state requirements.

Parents may request exemption from screenings by submitting an affidavit stating that the screening conflicts with the tenets and practices of a recognized church or religious denomination of which the student is an adherent or member.

Decision Making and Planning Process

Texas Leadership Public Schools uses a collaborative, data-driven process to develop its Comprehensive Needs Assessment (CNA) and improvement plans. Representative stakeholders review multiple sources of quantitative and qualitative data across key areas, including student achievement, demographics, curriculum and instruction, school culture and climate, staff quality, parent and family engagement, school organization, and technology. The team identifies strengths, trends, achievement gaps, and barriers to student success, then develops prioritized problem statements and examines the underlying, district- or campus-controlled root causes.

The prioritized needs identified through the CNA serve as the foundation for the District and Campus Improvement Plans. Each priority need is addressed through measurable, time-bound goals and performance objectives supported by evidence-based strategies, clearly assigned responsibilities, appropriate resources, implementation timelines, and evaluation measures. Plans are aligned with district priorities, federal and state program requirements, and the needs of specific student groups, including Emergent Bilingual students, students receiving special education services, and other populations experiencing achievement gaps. Implementation is monitored throughout the year using student-performance data, walkthroughs, coaching and PLC evidence, curriculum-fidelity measures, attendance and discipline data, and other identified progress measures. District and campus teams periodically review the results, document progress, and revise strategies as needed to support continuous improvement.

[§1304 [20 U.S.C. 6394](d)].

The *Priority for Service Report on Texas – New Generation System (TX-NGS)* must be used to determine who to serve first and foremost with MEP funds. Students are identified as PFS if they meet the following criteria:

Priority for Service (PFS) Criteria	
Grades 3-12, Ungraded (UG) or Out of School (OS)	- Who have made a qualifying move within the previous 1-year period; AND - Have a received grade level of “approaches or not meet” on the state assessments (STAAR), were Absent, Not Tested or were not enrolled in a Texas school during the state assessment testing period for their grade level.
Grades K-3	- Who have made a qualifying move within the previous 1-year period; AND - Have been designated EL/EB (English Learner/Emerging Bilingual) in the Student Designation section of the TX-NGS Supplemental Program Component; OR - Students in grades K-2 or students in grade 3 who have not taken the STAAR assessment, who have been retained, or are overage for their current grade level.
Pre-K ages 3-5 (Not in Kindergarten)	- Who have made a qualifying move within the previous 1-year period; AND - Students whose data in TX-NGS shows <i>No Other Preschool Support</i>.

The **PFS Action Plan** template is provided by TEA to assist districts document efforts that are being conducted on behalf of Priority for Service students.

The **PFS Action Plan** template includes:

- (1) the required components included in the ESSA Consolidated Federal Grant Application (Part 2 – Priority for Service);
- (2) the Program Specific Provisions and Assurances on Priority for Service; and

TEA - Federal Program Compliance Division

(3) provides districts an opportunity to list additional activities for each component.

Reporting Abuse or Neglect

The law requires that any person who believes that a child is being abused or neglected to report the circumstances to the Texas Department of Family and Protective Services (DFPS) abuse hotline within twentyfour (24) hours of the event that led to the suspicion.

Abuse is defined as and includes the following acts or omissions:

- Mental or emotional injury to a student or minor that results in an observable and material impairment in the student's or minor's development, learning, or psychological functioning.
- Causing or permitting a student or minor to be in a situation in which the student or minor sustains a mental or emotional injury that results in an observable and material impairment in the student's or minor's development, learning, or psychological functioning.
- Physical injury that results in substantial harm to a student or minor, or the genuine threat of substantial harm from physical injury to the student or minor, including an injury that is at variance with the history or explanation given and excluding an accident or reasonable discipline; or
- Sexual conduct harmful to a student's or minor's mental, emotional, or physical welfare.

To report suspected child abuse or neglect, call the toll free phone number at 1-800-252-5400 or electronically at: <https://www.txabusehotline.org/Login/Default.aspx>. Call or report 7 days a week, 24 hours a day.

State law specifies that an employee may not delegate to or rely on another person or administrator to make the report. Under state law, any person reporting or assisting in the investigation of reported child abuse or neglect is immune from liability unless the report is made in bad faith or with malicious intent. Failure to make the required report may result in prosecution as a Class A misdemeanor. Reporting the concern to another school employee does not relieve the employee of the requirement to report it to the appropriate state agency. Employees must cooperate with child abuse and neglect investigators. Interference with a child abuse investigation by denying an interviewer's request to interview a student at school or requiring the presence of a parent/guardian or school administrator against the desires of the duly authorized investigator is prohibited.
