2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2025-26 School Description and Mission Statement

Live Oak High School (LOHS) is a comprehensive high school in the Morgan Hill Unified School District that serves students in grades nine through twelve. LOHS is located in a fast-growing suburban area that has managed to retain the aura of a small town. Students come from the cities of Morgan Hill and San Jose as well as the unincorporated areas of San Martin and Coyote Valley. The student population, of approximately 1,040 students, reflects the rich ethnic and socioeconomic diversity of the community.

LOHS is committed to meeting the needs of its diverse student body. LOHS is proud of its excellent academic programs, including 21 Advanced Placement courses in the curricular areas of English, mathematics, science, social studies, world languages, visual arts, computer science, and AP Capstone program. In addition, LOHS offers 28 Career Technical Education (CTE) courses within 13 career pathways, providing many opportunities for students to acquire academic and technical skills, knowledge, training and work-based learning experiences within the community. Currently, four CTE courses are offered as dual enrollment providing students the opportunity to earn high school and college credit from a local community college, Gavilan College. In the area of language studies, LOHS is the designated district high school for dual immersion students to continue their advanced studies of Spanish. For students with disabilities, LOHS offers inclusion courses in English, mathematics, and science; resource classes in all core curricular areas as well as being the designated district high school for a special day class program for students requiring extensive supports.

LOHS continues to provide academic support to all students as part of the school day through a daily tutorial session. Students have the ability to self-select each day the course for which they need additional support. Extra support is available after school via peer tutors, volunteers from the National Honor Society members, as well as a homework center with staff support in different curricular areas. LOHS also provides opportunities for students who need to remediate courses in which they were unsuccessful through an online class, assigned as a scheduled period during the school day or an extended day program. We continue to offer AVID courses as an additional means of support for students who will be the first in their families to attend college. Through our partnership with the California Student Opportunity and Access Program, our students, especially the first in their families to attend college, receive support with the college application and financial aid application processes. Students needing social emotional support can receive therapeutic counseling services at LOHS' Wellness Center from our on-site counselor or a community-based provider.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

LOHS has occupied its current site since 1975 and has benefited from consistent modernization efforts. Since the early 2000s, extensive upgrades funded by district bond measures have included the renovation of classroom buildings, the expansion of the library, and the modernization of the theater, locker rooms, and campus façade. Sustainability is a key feature of the site, with solar panel canopies installed over parking lots and the school farm.

Recent improvements have focused on both aesthetics and infrastructure. During the distance learning period, the campus underwent a comprehensive painting of classroom interiors, exteriors, lockers, and doors. More recently, the main gymnasium was fully modernized with new flooring, bleachers, and a new HVAC system, alongside updated restrooms and a refurbished lobby. The athletic stadium is currently undergoing a phased upgrade; the entryway has been recut with new concrete and the field has been outfitted with new turf. Remaining stadium improvements, including updated lighting, speakers, and ADA-compliant modifications to bleachers and restrooms, are pending.

In the 2025–2026 school year, two major safety and infrastructure projects were finalized: the installation of a new, campus-wide fire alarm system and the repavement and restriping of the student parking lot. Looking forward, the district has scheduled the modernization of the student kitchen lab classroom for the summer of 2026.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.

2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.

3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

2024-25 Career Technical Education Programs

LOHS offers a comprehensive and expanding Career Technical Education (CTE) program aligned to the California CTE Model Curriculum Standards pursuant to Education Code Section 51226. All CTE courses listed in this School Accountability Report Card are offered directly at the school site. Over the past several years, LOHS has increased the number of CTE course offerings, sections, student enrollment, and pathway completers. Several CTE courses also fulfill visual and performing arts graduation requirements, providing students with additional flexibility in meeting graduation expectations. Six new CTE courses were introduced in the 2024–25 school year following school board approval.

CTE pathways offered at LOHS include Arts, Media, and Entertainment; Building and Construction Trades; Agriculture and Natural Resources; Hospitality, Recreation, and Tourism; and Information and Communication Technologies. These site-based pathways integrate college preparatory academics with industry-aligned technical skills. During the 2024–25 school year, four CTE courses were offered as dual enrollment opportunities in partnership with Gavilan Community College, allowing students to earn both high school and college credit.

The district's CTE Advisory Committee is composed of the Assistant Superintendent of Educational Services, principals, and the CTE site lead from each comprehensive high school. The committee meets quarterly to review program implementation, align CTE systems and practices across the district, and support continuous improvement of CTE pathways. In addition to coursework, students have opportunities to earn industry-recognized certifications, including Precision Exams, ServSafe, OSHA, and iCEV credentials, and to participate in work-based learning experiences such as internships, job shadowing, guest

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade 9	85.5	92.3	93.5	89.5	93.5

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

LOHS provides numerous opportunities for families to engage in the school community through annual events and consistent communication. Key events include Back to School Night, Course Information Night, Open House or Showcase Events, and grade-level informational meetings. To ensure accessibility for all, teachers provide digital presentations or videos, in English and Spanish, for families unable to attend Back to School Night in person. All families are kept informed of school news and

2025-26 Opportunities for Parental Involvement

upcoming meetings through the Acorn Update, a comprehensive weekly newsletter distributed every Sunday afternoon; it is available to families in their preferred language.

Parent leadership and volunteerism are vital to LOHS programs. Parents may serve on the School Site Council and the English Language Advisory Committee (ELAC) to help guide school policy. Additionally, our robust booster organizations—including the Home and School Club, Athletic Boosters, FFA Boosters, and the Emerald Regime Boosters—provide essential fundraising and logistical support. These groups fund classroom supplies, host staff appreciation events, and ensure the success of our extracurricular programs through active monthly participation.

Beyond the site level, LOHS families have access to district-sponsored leadership and advocacy programs such as Project to Inspire and the Parent Project, which are available in both English and Spanish. The district further supports parent growth by offering workshops based on community interest, including computer literacy classes and English language development programs. These initiatives empower parents to become effective advocates for their children’s education and leaders within the Morgan Hill community.

2025-26 School Safety Plan

LOHS' Comprehensive School Safety Plan (CSSP) is reviewed and updated annually to ensure a secure learning environment. The plan encompasses essential policies including child abuse reporting, emergency preparedness, safe ingress and egress, and student discipline. The update process for the 2025-2026 school year was initiated by the Guiding Coalition leadership team on September 5 and 11, 2025, focusing on developing physical and social-emotional safety goals. Staff members were consulted on September 17, 2025, regarding Disaster Service Worker roles and Incident Command System assignments. The final plan, featuring a comprehensive Campus Resources flowchart, was reviewed and approved by the School Site Council on September 26, 2025, with the city of Morgan Hill Mayor and a student representative in attendance.

Key elements of the plan focus on proactive monitoring and emergency response. Administrative staff and campus supervisors provide continuous grounds monitoring, supported by a School Resource Officer (SRO) who facilitates "Run-Hide-Defend" training and drills. Safety procedures were presented to faculty on August 12, 2025, with specialized active shooter response training conducted on August 27, 2025. Additionally, the district medical staff provides annual training on the use of Narcan and AEDs. Required fire, earthquake, and intruder drills are conducted throughout the year to ensure student and staff readiness.

Technological and physical security measures further bolster campus safety. The school utilizes over 30 Ring cameras monitored by administrative assistants, alongside secure perimeter fencing. Communication is prioritized through a dedicated emergency internal phone extension that alerts all support staff simultaneously, and every building is equipped with a radio walkie-talkie for immediate contact with administrators and campus supervisors. A hard copy of the CSSP is available in the administrative office, and a digital version is accessible on the school website.

2022-23 Secondary Average Class Size and Class Size Distribution

This table displays the 2022-23 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Subject	Average Class Size	Number of Classes with 1-22 Students	Number of Classes with 23-32 Students	Number of Classes with 33+ Students

Fiscal Year 2024-25 Types of Services Funded

The Single Plan for Student Achievement (SPSA) outlines goals for improving student achievement and aligns resource allocations with the district's Local Control Accountability Plan (LCAP). As a Title I school serving a significant population of socioeconomically disadvantaged students, LOHS receives supplemental funding to support targeted programs and services. These services include professional development opportunities for teachers, with designated funding for AVID, English Language Development (ELD), dual immersion, WASC, and Advanced Placement (AP) workshops. Additional supports include collaboration time for Professional Learning Teams, instructional rounds, ELD instructional materials, and extended learning opportunities such as college visits. Funds are also allocated to reduce or waive PSAT and AP exam fees and to provide exam proctors, ensuring equitable access for students.

Technology-related programs and services are also supported through SPSA funding to promote equitable access and instructional effectiveness. This includes student devices such as Chromebooks and mobile hotspots, as well as licenses for online instructional tools. Brisk Teaching, a Chrome extension, supports differentiated instruction, timely feedback, and document translation. Minga, a campus management platform, enhances school operations by streamlining hall pass management, tutorial attendance tracking, and attendance passes for late arrivals and early releases.

Professional Development

LOHS teachers participate in a range of professional development opportunities throughout the school year. The district provides two dedicated professional development days annually, one prior to the start of the school year in August and one in October, focused on districtwide initiatives and collaboration with grade-level or content-area colleagues across the district. For the past four years, the district and school sites have engaged in Professional Learning Team (PLT) work that includes training for administrators, teachers, and support staff in transformational leadership and curriculum alignment. During the current school year, all certificated staff and administrators received training in Universal Design for Learning to support flexible, accessible learning environments and improve outcomes for all students.

At the site level, professional development is embedded in weekly collaboration sessions at the site, department, and PLT levels. Instructional leaders and Guiding Coalition members provide targeted support through instructional coaching, equity and differentiation strategies, PBIS implementation, and AVID programming. Department and PLT collaboration focuses on aligning curriculum, assessments, and instructional practices to ensure consistent learning experiences across common courses. Instructional rounds and walkthroughs occur multiple times throughout the year and include participation from new teachers, instructional leaders, and students to help identify areas of growth and guide continuous improvement.

This table displays the number of school days dedicated to staff development and continuous improvement.
