HB3033 Nonbusiness Day Calendars

In 2023, the Texas Legislature passed HB3033 which amends Chapter 552 of the Texas Government Code (Texas Public Information Act) by adding section 552.0031. The statute is effective September 1, 2023, and clarifies business days and requires the establishment of nonbusiness days under the Texas Public Information Act.

The new statute defines 'business day' as a day other than a Saturday or Sunday, a national holiday, or a state holiday. Additionally, the new rule requires a government body to identify no more than 10 days each calendar year that the governmental body's administrative offices are closed or operating with minimum staffing, as nonbusiness days.

The recognized list of national and state holidays is identified in Texas Government Code 662.003. The Friday before or Monday after a national or state holiday is not a business day for the governmental body if the holiday occurs on a Saturday or Sunday and the governmental body observes that day on that Friday or Monday. Under HB 3033, you don't have to designate state holidays as nonbusiness days—they are automatically excluded from the Public Information Act timeline. Your Board only needs to designate up to 10 additional nonbusiness days each calendar year.

For purposes of calculating PIA deadlines, the following Texas state holidays are recognized under Texas Government Code §662.003:

State Holidays
