Steps to Apply to TCL

Dual Enrollment Spring 2027

TCL's Tides Application system consists of the following features:

- Admissions Application
- Applicant Portal
- Appointment Scheduling

Students will still access the Admissions Application by visiting https://www.tcl.edu/admissions/apply/. The new application takes about 10-15 minutes to complete. **Students must use a personal email address to apply**; they cannot use an email address associated with their high school/district due to the account verification process.

A student cannot submit their online application until they respond to all required questions and provide both their license/ID and their parent/guardian's license/ID. Dual Enrollment documents and registration requests cannot be processed until a student's application is submitted. If the student does not have a license or state-issued ID card, they may submit a copy of their birth certificate instead.

How to apply to TCL.mp4

Upon starting the Admissions Application, students will gain access to the **Applicant Portal**, allowing them to upload required and supplemental documents. TCL Dual Enrollment forms, IDs, other residency documents, and unofficial high school transcripts may be submitted directly through the application portal. There are two implications for our partner schools who utilize print packets to consider:

1. **TCL's Dependent Residency Verification form will no longer be distributed to all students**; it will be provided on a case-by-case basis after a student's information is reviewed by the Dual Enrollment team. If your school's enrollment packet includes the Dependent Residency Verification form, please remove it.
2. **TCL's Dual Enrollment Agreement & FAFSA Waiver and Dual Enrollment Registration form are available in the portal for students to download and complete**. Students can upload the completed copies of both documents through the portal for processing. TCL's Dual Enrollment team will still accept print/scanned copies included in our partner schools' existing enrollment packets.

If students need assistance with completing the application or submitting documents, they can schedule an appointment with a Dual Enrollment staff member directly within the Applicant Portal. In-person and Zoom appointments are available.
