Frequently Asked Questions

What is a Comprehensive Plan?

A Comprehensive Plan is a long-term guide that reflects the community's vision, values, and priorities for future growth and development, and for preserving and enhancing its assets. It serves as the City's primary policy framework for land use, infrastructure, and development decisions. The plan will build on community input and technical analysis from previous planning efforts, including the Community Vision, to establish clear strategies for how land should be used in the future.

Why does Marysville need a Comprehensive Plan?

Marysville's current Comprehensive Plan, adopted in 2018, no longer fully reflects current conditions, trends, and community priorities. Since then, the City has continued to evolve within a fast-growing region. An updated plan will provide a clear, data-informed framework for managing growth, supporting economic development, conserving community character, and responding to emerging opportunities and challenges. It will also emphasize implementation, ensuring the City has the tools needed to carry out the plan.

What is the Community Vision and how does it relate to the Comprehensive Plan?

The Community Vision was completed in 2025 and defines a shared direction for the City's future, ensuring that growth happens thoughtfully, intentionally, and in a way that feels like Marysville. It connects long-term planning, economic development, infrastructure, and City services into one coordinated framework. The Vision was shaped through a robust, community-driven process. It is both aspirational and practical, serving as a living framework that informs everyday decisions and long-range priorities. The Our Vision, Our Marysville: 2040 Comprehensive Plan will build on this.

Are there opportunities to get involved?

Yes! This is an open and inclusive process. Residents, business owners, and stakeholders will have multiple opportunities to participate through public meetings and online engagement. Information about engagement opportunities will be shared at **Marysville2040.com** and through other communication channels. Community input is essential to shaping a plan that reflects Marysville's shared vision.

Do I have to be an expert to contribute ideas?

You are an expert if you live, work, or spend time in the City of Marysville. The planning process needs your ideas, input, and feedback.
