Paragraph 5: Interruption of Contract Day: When an emergency arises at an attendance center and students are released, the agenda for the completion of the contract day will be established by the superintendent.

ARTICLE IV: PROFESSIONAL DAY

Section A: TIME SCHEDULE

Paragraph 1: To facilitate the supervision of students and the instructional program of the district, professional personnel must be at their places of assignment preceding, during, and following each day of school.

Paragraph 2: Educators shall work in accordance with established time schedules as determined by the principal and approved by the superintendent. Under normal circumstances, changes should be proposed no later than April 15th for the following school year. Building Administration in cooperation with the building staff will conduct an anonymous vote of the proposed schedule. If the proposed time schedule is rejected by 2/3 of the educators at that building, the proposed schedule will not be implemented. The educators must reject the proposed time schedule within twenty (20) calendar days. Such schedule shall include lunch time(s), passing time(s) if utilized, plan time and the numbers of and time for teaching periods. *In the event that a district wide schedule change is proposed, the superintendent in cooperation with the Haysville Education Association will present the proposed change to district staff and will conduct a district wide anonymous vote of the proposed schedule change. If the proposed time schedule is rejected by 2/3 of the staff, the proposed schedule will not be implemented.*

Paragraph 3: Report time will be 225 minutes per week. The 225 minutes may be established by each principal. Building Administration in cooperation with the building staff will conduct a vote of the proposed schedule. If the proposed time schedule is rejected by 2/3 of the educators at that building, the proposed schedule will not be implemented. The educators must reject the proposed time schedule within five (5) school days.

Paragraph 4: No exceptions with respect to the hours that educators are to be on duty may be made without the prior consent of the building principal.

Paragraph 5: It is the philosophy of the district that educators are to remain at school during the contract day. During an educator's non-teaching times when the educator finds it necessary to leave the building, the educator will notify the office of the building principal. In such instances, as the building principal determines that an individual educator’s absence conflicts with scheduled responsibilities, the building principal may establish prior consent as a requisite for leaving the building during the contract day.

Paragraph 6: No individual educator will be assigned professional responsibilities or duties during his/her twenty-five (25) minute lunch break with the understanding that the length of the lunch break may vary occasionally due to scheduling difficulties, availability of staff, availability of facilities, and those circumstances beyond the control of the building principal.

Section B: PLANNING TIME

Paragraph 1: Each elementary teacher will have a thirty (30) minute block of time each day for planning purposes during which time they will have no assigned responsibilities with students. The additional fifteen (15) minutes of the forty (40) minute lunch block will be used for planning purposes. The district will provide additional elementary plan time by employing four (4) additional specialty area teachers on an ongoing basis. The release time created by these teachers will be distributed on a reasonably equitable basis.

Paragraph 2: Each secondary teacher will have two (2) school periods of time every two (2) days, during which time the teacher will have no assigned responsibilities with students. In the event that the schedule dictates, a teacher may have two (2) plans every other day, in lieu of one (1) plan every day, upon agreement between teacher and administrator.

Paragraph 3: Conferences with students, parents, and administrators may be scheduled with teachers during planning time. In the event of an unforeseen/uncommon circumstance, teachers may be asked to work on their plan time without compensation.

Section C. ADDITIONS TO THE DAY

Paragraph 1: Educators may be required to attend evening meetings for the purpose of student hearings, parent conferences, or where educator involvement is necessary. Student hearings and conferences will be scheduled at mutually agreed times when possible. Every possible effort will be made to secure the mutual consent of all parties involved and as close to the contract day as possible. The Board recognizes that educators have personal obligations during evening hours, and required attendance will be kept to a maximum of five (5) evenings per school year (not including annual calendared parent teacher conference weeks).

Paragraph 2: Many school related activities, by necessity, are carried on outside regular school hours and require staff help in addition to administrators. The supervision and work assignment necessary above contracts will be worked out cooperatively by administrative staff and the teaching staff. The building administrator will prepare and publish the duty schedule necessary to cover activities. The administrator shall make a good faith effort to fill the supervisory assignments* with competent volunteers from within the building. The administrators shall make a good faith effort to fill the non-supervisory assignments with competent volunteers from the employees of the district and residents of the district. Ticket takers and crowd supervision are positions that are supervisory. When a teacher is scheduled for a duty schedule but cannot fulfill it, then a teacher may ask the administrator for permission to seek a volunteer who will constitute a replacement. The teacher should give the administrator in charge the name of the substitute as soon as they are aware of the activity scheduled. If such volunteers are not secured, educators may be assigned to the schedule.

**Supervisory assignments are those assignments, which require special skills or supervision of students.*

Paragraph 3: Building Principals will hold all required building staff or building committee meetings (e.g. Building Leadership Team, Capturing Kids Hearts/Process Champions, General Education Intervention Team, etc.) during the contract day, when possible, except for meetings which include parents (e.g. Parent/Teacher Organization, Site Council, evening events referenced in Article IV, Section C, Paragraph 1, etc.); staff will be paid for any required meeting which takes place outside the contract day. When these meetings are held, some teachers may have student supervision, while other teachers attend the mandatory meeting. Students may be held in common designated areas with adult supervision. Building administration and the Building Leadership Team will collaborate to determine how and when to hold these meetings.

Paragraph 4: When possible, educators shall be given notice of meetings at least two (2) days prior to the meeting unless an emergency occurs. Educators shall have an opportunity to suggest items for the agenda.

Section D: EDUCATOR MEETINGS

Paragraph 1: Educators and departmental meetings may be held for the purpose of solving the problems involved in building-level operations and for the implementation of district-wide policies and solutions of district-wide problems.

Paragraph 2: A committee of educators representing all buildings and curriculum areas and working in cooperation with the district leadership team shall be formed prior to the end of the school each year to plan the in-service activities for the next school year.

ARTICLE XVI: EDUCATOR REPRIMAND

Section A: GENERAL

Paragraph 1: Normally problems concerning complaints and/or the educator's performance will be called to the educator's attention in an oral conference; however, it may be necessary for the building principal to conduct a conference and prepare a written conference report thereof. In such cases, the educator will receive a copy of the report if such report is placed in his/her personnel file.

Section B: CONFERENCE REPORTS

Paragraph 1: Prior to the conference, the building principal should carefully note those items of concern, which are to be discussed in the conference. (This is not to be done on the conference report.) The educator will then be notified of the conference, and in the conference will be fully informed of the building principal's concerns. The building principal should give positive suggestions for remedying the deficiencies, which may exist in the educator's conduct, attitude, or general work habits. Additionally, a date or time frame should be established by the building principal within which the necessary improvement must be shown. The date and time of the follow-up conference should be established as a part of the conference report.

Paragraph 2: In those instances where an educator's infraction of rules or delinquency in professional performance is not at that time of such consequence that it may affect the educator's employment status, the Board, or its administrators, may institute the following informal disciplinary procedure:

(a) Oral admonition to the educator, advising of problem, providing suggested ways of correcting problem.

Paragraph 3: In those instances where an educator's infraction of rules or delinquency in professional performance is at that time of such consequence that it may affect the educator's employment status, the Board or its administrators shall write a conference report, in triplicate, containing the following:

(a) Items of concern (cite specific examples)

(b) Suggested remedies

(c) Time frame for improvement

Paragraph 4: The educator should be given an opportunity to attach any comments he/she may have concerning the conference or the concerns and recommendations contained in the conference report. After both have had an opportunity to comment, the building principal and the educator should sign the conference report. This signature does not indicate that the educator agrees with the conference report or that the building principal agrees with the educator's comments, but rather attests to the fact that the conference was held and that the educator was apprised of the comments made by the building principal.

Paragraph 5: After the conference reports are signed, the educator should receive a copy of the report and the building principal should maintain a copy for his/her file. The original should be sent to the superintendent.

Section C: COMPLAINTS

Paragraph 1: Complaints regarding an educator made to an administrator by any parent, student, or other person, shall be promptly called to the attention of the educator , as the administrator deems appropriate. Any complaints not brought to the attention of the educator within ten (10) consecutive contract days shall not be used in the formal evaluation process.

ARTICLE XVIII: EDUCATOR EVALUATION

Section A: GENERAL

Paragraph 1: Good school educators, as well as other professional people, are interested in maintaining a high level of competency in their chosen field. Likewise, the Unified School District 261 is very much interested in assisting their educators in achieving a high degree of proficiency in their duties.

Paragraph 2: To assist each other and every educator in an orderly and constructive manner, it shall be the responsibility of the superintendent and the building principals and/or immediate supervisors to periodically evaluate each educator to better perform his/her duties.

Paragraph 3: Educator evaluation process will be consistent with procedures outlined in State Law.

Section B: PURPOSE

Paragraph 1: The purpose of the educator evaluation process is to provide for continual improvement of instruction and student learning. It is the belief of the Board and the Association that this procedure will provide the best opportunity for an educator to have security in employment and to improve his/her effectiveness.

Section C: GENERAL PROCEDURES

Paragraph 1: The building principal and/or immediate supervisor shall discuss educator evaluation objectives, procedures, and evaluation tool with the educators before the evaluation each year. The Haysville Educator Assessment Tool is approved for use in the district.

Paragraph 2: Educator, building principal, and/or immediate supervisor evaluations shall be arranged according to the following schedule.

(a) During the first two (2) consecutive years of employment in a school, each educator shall be evaluated at least once each semester. Additional evaluations shall be scheduled as needed in order to provide new educators with maximum assistance in the strengthening and improving of educator performance.

(b) During the third and fourth consecutive years of employment, each educator shall be evaluated at least once each year.

(c) All other educators in the school and/or district shall be formally evaluated at least once every three (3) years thereafter.

(d) Evaluations may be more often than is stipulated if deemed necessary by the superintendent.

Paragraph 3: In addition to the formalized evaluation procedures, it is expected that frequent conferences of a more informal nature will take place concerning improving the quality of instruction. These conferences may result from a variety of circumstances such as but not limited to:

(a) Observation by the building principal and/or immediate supervisor in the area in need of immediate improvement.

(b) Concerns expressed by the educator concerning any problem or areas in which the educator feels the need for assistance in order to improve educator performance.

Paragraph 4: This in no way excludes the superintendent from making classroom visitation for the purpose of educator evaluations. If, as a result of informal observation and ensuing conferences, specific guidelines and directives are needed to improve teaching performance, these are to be filed in the same manner as the formal evaluation reports.

Paragraph 5: Copies of the educator evaluation report shall be made for the building principal and/or immediate supervisor, the superintendent, and the educator. A copy of the completed evaluation report and the responses thereto shall be maintained in the educator's personnel file for a period of not less than three (3) years.

Paragraph 6: The educator's file in the building principal's office and in the Human Resource Department shall be open to the inspection of the educator during regular business hours or by appointment. Credentials and related papers from educator placement bureaus, which, by their own regulations, are labeled "confidential," shall not be open to inspection by the educator.

Paragraph 7: Except by order of a court of competent jurisdiction, evaluation reports and responses thereto shall be available only to the educator evaluated, the Board, the administrative staff making same, the State Board of Education, the Board and administrative staff of any school to which such employee applies for employment, and other persons specified by the employee in writing to the Board.

Paragraph 8: All monitoring or observation of the professional performance of an educator shall be conducted openly.

Paragraph 9: Any complaints regarding an educator's classroom activities made to a Board member, administrator, or other person, shall be promptly called to the educator's attention by the building principal. These complaints shall be handled objectively and pursued until the issue is, hopefully, resolved.

Paragraph 10: No material derogatory to the educator's conduct, service, character, or personality shall be placed in the educator's file unless the educator has had an opportunity to review the material. The educator shall have the right to answer any material filed, and this answer shall be affixed to the material and placed with it in the educator's file.

Section D: PROCEDURE FOR EDUCATOR EVALUATION

Paragraph 1: The building principal or immediate supervisor shall make at least three (3) classroom visitations of twenty (20) minutes or longer prior to the completion of the educator evaluation. These observations shall be separate visits. One (1) visit may be at the educator's request.

Paragraph 2: Each mark of highly effective or ineffective must be supported by written statements or documentation. Any job targets created shall be over an agreed time period and shall be monitored by the evaluator. For any mark of ineffective the evaluator and the educator being evaluated will hold a conference after the period for improvement to determine the success or failure.

Paragraph 3: Self-evaluation is an integral and important part of the total evaluation program. Prior to formal evaluation conferences, educators will evaluate themselves on the evaluation criteria and bring the self-evaluation to the conference for discussion.

Paragraph 4: The completed evaluation shall be presented to the educator during a conference and the educator shall acknowledge such presentation by his or her signature thereon. At any time not later than ten (10) school days after such presentation, the educator may respond in writing. Such response may serve as a rebuttal of any portion of the report that the educator feels is inaccurate, unfair, or incomplete. The educator may request a review of the evaluation by the superintendent. Such request should be in writing with a copy to the building principal for his/her information.

Paragraph 5: Copies of the Haysville Educator Assessment Tool shall be made for the superintendent, the building principal, and the educator. A copy of the completed evaluation report and the responses thereto shall be maintained in the educator's personnel file for a period of not less than three (3) years.

Section E: PLAN OF ASSISTANCE

Paragraph 1: Normally problems concerning educator performance will be called to the educator's attention in an evaluation report, however, it may be necessary for the building principal to conduct a conference and prepare a written Plan of Assistance.

Paragraph 2: Prior to the conference, the building principal should create an agenda carefully noting those items of concern, which are to be discussed in the conference. (This is not to be done on the Plan of Assistance.) The educator will then be notified of the conference, and in the conference will be fully informed of the building principal's concerns. In the Plan of Assistance the building principal should give positive suggestions for remedying the deficiencies, which may exist in the educator's conduct, attitude, or general work habits. Additionally, a date or time frame should be established by the building principal within which the necessary improvement must be shown. The date and time of the follow-up conference should be established as part of the Plan of Assistance.

Paragraph 3: In those instances where an educator's infraction of rules or delinquency in professional performance is at that time of such consequence that it may affect the educator's employment status, the Board or its administrators shall write a Plan of Assistance, in triplicate, containing the following:

(a) Items of concern (cite specific examples)

(b) Suggested measurable remedies

(c) Time frame for improvement

Paragraph 4: The educator should be given an opportunity to attach any comments he/she may have concerning the conference or the concerns and recommendations contained in the Plan of Assistance. After both have had an opportunity to comment, the building principal and the educator should sign the Plan of Assistance. This signature does not indicate that the educator agrees with the Plan of Assistance, or that the building principal agrees with the educator's comments, but rather attests to the fact that the conference was held and that the educator was apprised of the Plan of Assistance created with the building principal.

Paragraph 5: After the Plan of Assistance is signed, the educator should receive a copy and the building principal should maintain a copy for his/her file. The original should be sent to the superintendent.

All administrative recommendations for dismissal given to the Board shall be accompanied by detailed documentation justifying any such recommendation as required by the Board.
